## NATIONAL OFFICERS

Master	Betsy Huber	(484) 459-1957
	362 University Rd., Lincoln University, PA 19352	
Overseer	F. Philip Prelli	(860) 379-1017
	12 Alexandria Drive, Barkhamsted, CT 06063	
Lecturer	Christine Hamp	(509) 953-3533
	16418 N. Birdie Road, Nine Mile Falls, WA 99026	
Steward	William "Chip" Narvel	(302) 994-0295
	4201 Limestone Rd., Wilmington, DE 19808	
Asst. Steward	John Plank	(765) 563-6735
	7843 South US Highway 231, Brookston, IN 47923	
Lady Asst. Steward	Brenda Rousselle	(802) 878-5877
	3915 38 <sup>th</sup> Ave. East, Palmetto, FL 34221	
Chaplain	Barbara Borderieux	(941) 729-8036
	3915 38 <sup>th</sup> Ave. East, Palmetto, FL 34221	
Treasurer	Dwight Baldwin	(641) 526-3420
	2606 Highway 224N, Kellogg, IA 50135	
Secretary	Judy Sherrod	(865) 862-8211
	333 Crossfield Drive, Knoxville, TN 37920	
Gatekeeper	Christopher Johnston	(989) 666-6648
	6241 Grand River Road, Bancroft, MI 48414	
Ceres	Cindy Greer	(719) 748-5008
	2009 County Road 31, Florissant, CO 80816	
Pomona	Kay Stiles	(410) 570-4965
	1600 Humbert Schoolhouse Road, Westminster, MD 21158	
Flora	Welina Shufeldt	(918) 467-0284
	Route 1, Box 342-14, S. Coffeyville, OK 74072	

## EXECUTIVE COMMITTEE

Chairman (2020)	Leroy Watson	(603) 903-9012
	298 Watkins Hill Road, Walpole, NH 03608	
Secretary (2020)	Lynette Schaeffer	(618) 537-4237
	10041 Rieder Road, Lebanon, IL 62254	
	Susan Noah	(503) 316-0106
	643 Union Street NE, Salem, OR 97301	
	Stephen Coye	(607) 756-7553
	100 Grange Place, Cortland, NY 13045	

## NATIONAL DIRECTORS

National Grange	1616 H St. NW, Washington, DC 20006	(202) 628-3507
Communications	Amanda Leigh Brozana Rios 20 Stewart Place, Shippensburg, PA 17257 abrozana@nationalgrange.org	(301) 943-1090 or ext. 102

## THE GRANGE MISSION

The Grange strengthens individuals, families and communities through grassroots action, service, education, advocacy and agricultural awareness.

## 2019-20 POLICY COMMITTEES

### *Agriculture*

Allen Stiles, MD (Chair)  
Kevin Cooksley, NE (Secretary)  
Wayne Campbell, PA  
Jimmy Gentry, NC  
Glenn Gibson, MA  
Bill Johnson, MT  
John Plank, IN  
Don Schaeffer, IL  
Jonny Pittman, WA-Trimble Youth Rep.

### *Education & Health*

John Crippen, MN (Chair)  
Debbie Gegare, WI (Secretary)  
Barbara Borderieux, FL  
Sharon Croucher, NY  
Christine Hamp, WA  
Wilber Heath, NH  
Mark Noah, OR  
Barbara Narel, DE  
Sharon Russell, CT  
Jini Reynolds, CA  
Rylee Furr, NC, Youth Ambassador

### *Audit & Budget*

Duane Hamp, WA (Chair)  
Judy Sherrod, TN (Secretary)  
Dwight Baldwin, IA  
Chip Narel, DE  
Buddy Overstreet, TX  
James Owens, ME  
Leroy Watson, NH

### *Grange Growth & Development*

Karen Overstreet, TX (Chair)  
Debbie Campbell, PA (Secretary)  
Kathy Baldwin, IA  
Kathy Gibson, MA  
Lisa Goodrich, VT  
Chris Johnston, MI  
Helen Lynch, DE  
Maureen Prelli, CT  
Pete Pompper, NJ  
Katie Fallon, Outstanding Young Patron

### *Citizenship & Taxation*

Sue Roy, OH (Chair)  
Sherry Harriman, ME (Secretary)  
Melanie Bostwick, KS  
Steve Coyle, NY  
Earlene Foster, WV  
Harry Greer, CO  
Eileen Javaux, ID  
Michael Lynch, DE  
Brenda Rousselle, VT  
Royal Vine, WI

### *Grange Law*

Eileen Hebert, RI (Chair)  
Cindy Greer, CO (Secretary)  
Roger Bostwick, KS  
Bruce Croucher, NY  
Joe Goodrich, VT  
Chris Heath, NH  
Susan Noah, OR  
Phil Prelli, CT  
Jan Saxton, CA  
Zac Mazag, NC, Youth Ambassador

### *Conservation*

Tom Gwin, WA (Chair)  
Kay Stiles, MD (Secretary)  
Jim Foster, WV  
Richard Javaux, ID  
Marilyn Johnson, MT  
George Russell, CT  
Lynette Schaeffer, IL  
Billy Shufeldt, OK

### *Labor, Judiciary, & Transportation*

Walter Hartley, RI (Chair)  
Joan Smith, Potomac (Secretary)  
Anita Gentry, NC  
Connie Johnston, MI  
Susan Plank, IN  
Mark Naylor, OH  
Lena Shufeldt, OK  
James Taylor, VA  
Cheri Watson, NH  
Brittney Oliver, WA, Outstanding Young Patron

## NATIONAL PRESIDENT'S ADDRESS

### STATE OF AMERICAN COMMUNITIES

Delivered By Betsy E. Huber, National Grange President  
2:30 p.m., Tuesday, Nov. 5, 2019

We are happy to return to Minneapolis for our 153<sup>rd</sup> convention. National Grange has met here before, in 1950 and 1966. Thank you to the Midwest region for their hard work and planning of this event.

The National Grange has been very busy this past year, participating in the issues and debates in Washington and across the country. National Grange policy covers an enormously wide range of issues. Burton monitors all National Grange policy and we get actively involved with as many issues as we possibly can. We are regaining our reputation as an important source of grassroots information not available from almost any other group represented in the Capital. Coalitions and organizations are increasingly coming to the Grange for its insight and its support on issues and matters of public policy.

In December the National Grange awarded its annual "Champions of Rural America" honor to Senator Pat Roberts of Kansas, Chairman Ajit Pai, Federal Communications Commission, and Alan Morgan, CEO of the National Rural Health Association. This award increases our visibility in the Capitol and strengthens partnerships with the awardees and their organizations.

My work on the Federal Communication Commission's Broadband Deployment Advisory Committee ended last year, but the FCC announced the creation of a new group—the "Task Force for Reviewing the Connectivity and Technology Needs of Precision Agriculture in the United States," or the Precision Ag Task Force for short. I've applied to serve on this committee and the members will be announced in December. I hope to be selected because I do have some knowledge of precision farming at the grassroots level and I really want to assist in the effort to advance broadband service to the agricultural operations that desperately need it to enable their high-tech equipment.

We wrote an editorial that was published by Agri-Pulse saying that expanding wireless internet access in rural areas will continue to fuel the truly game-changing advances made by precision agriculture. These include new ways to grow crops by using less water, seed, fertilizer and pesticides. Made possible by a faster mobile internet, precision agriculture will continue to support new innovations like driverless tractors, robots and drones which are increasingly used to handle farming tasks. With the weather issues and trade wars this year depressing the rural economy, our farmers need all the benefits they can have to increase productivity and efficiency on the farm.

Speaking of agriculture, we were very pleased last December that the 2018 Farm Bill was negotiated and became law in the same year it was introduced—an unusual accomplishment. It was passed with overwhelming majorities in both House and Senate, aided by two of our Champions of Agriculture, Senators Debbie Stabenow and Pat Roberts. The package now gives much needed multi-year certainty to commodity programs, crop insurance, conservation, farm loans, beginning farmers and ranchers, SNAP assistance, nutrition programs, foreign markets promotion and more. It also establishes a new Foot and Mouth Disease vaccine bank, a Grange priority. The Farm Bill includes the Dairy Margin Coverage program which is much improved from the prior Margin Protection Program and, if dairy farmers sign up, should assist them this year since coverage is retroactive to January 2019.

An attempt was made to add work requirements to the SNAP or Supplemental Nutrition Assistance Program, but could not garner the needed majorities. This program makes up 80% of the Farm Bill cost. There should be a way to reduce the cost of the program without harming those who are truly needy, if only Congress could agree.

The Farm Bill also provides permanent authority and rules for the \$600 million rural broadband grant and loan program created by the fiscal 2018 spending bill.

It prioritizes funding for projects to combat opioid addiction and authorizes a 33% increase in grants under the Distance Learning and Telemedicine Program

Another great victory for agriculture was the action to repeal the WOTUS (Waters of the U.S.) regulation that would have given the EPA control over the use of most agricultural land because of its definition of "navigable" waters. This would have greatly overstepped the authority of the Clean Water Act, and the Grange is very appreciative that this onerous regulation was stopped.

### Trade

We did not expect the tariffs on China to last so long, but the economic effects of the trade war that affected so much of agriculture is now spreading through the American landscape. True, it is a war that needed to be fought to curtail China's monetary and intellectual property shenanigans that threaten so much American business. But trade wars with high tariffs and more expensive goods take their toll and cut into the economies of both countries. The good news is-- the trade pact with Japan has been signed, and the U.S.-Mexico-Canada trade agreement that will hopefully be signed yet this year. USDA has run trade missions to India, Vietnam, Thailand, and the Philippines. These will certainly help but we are hopeful that a full agreement with China will be settled soon. Farmers do not want government payments; they just want fair trade for their products.

My summary of agricultural issues is very similar to that stated by a Past National Master:

*The greatest need of American Agriculture from now on is neither subsidies, patronizing nor "uplifting;" not further campaigns of investigation, literature or other superficial or useless camouflaging, all costing great sums of money, employing an army of non-producers at the expense of the public treasury, and all getting us nowhere. The time has come to simply classify agriculture as one of the great industries that make up our economic structure, and to treat it as one of the vital parts of that structure. This means such an adjustment of prices for farm products, such a recognition of production costs, such a scale of hours and wages, as shall enable the farmer to run his business exactly as does the manufacturer of every other commodity—selling prices to be based upon the cost of production, plus such reasonable margin as shall provide for depreciation of equipment, for interest on investment and for a fair profit over*

*all. When agriculture is thus classified, and thus rewarded, there will be no shortage of farm investors or farm workers, no scarcity of food and no need of any propaganda... to popularize agriculture, no subsidies of any kind, ... no other fictitious inducements to insure an adequate food supply for America and for the world.... Oliver Wilson, National Master, 11/12/1919.*

One hundred years later, we are still facing the same struggle, still selling products at less than the cost of production. We have a choice—pay the farmer a fair price, or import our food. “No nation can prosper whose agriculture deteriorates.”

### **Health Issues**

Our participation with RALI, the Rx Abuse Leadership Initiative, continues to increase with TEN state Granges now RALI partners and we constantly push the national RALI leaders to add more. The focus of this initiative continues to be awareness and distribution of the drug safe disposal kits. Our youth are leading the way in the anti-addiction phase of the opioid battle. We were able to secure scholarships to send three Grange youth and Youth Director Mandy Bostwick to the Community Anti-Drug Coalitions of America (CADCA) training in Dallas in July. Delegates there learned how to build coalitions to address the youth drug crisis in rural and small-town areas and helped develop a Grange tool kit to be used in communities.

Much of our time this year has been occupied with health care issues. The price of prescription drugs has long been a growing concern of patients, particularly those on high cost specialty drugs. Now the House, the Senate and the President are all talking about how to control rising prices. The Senate Finance Committee passed a bipartisan package in July without the support of most Republicans on the committee. Speaker Pelosi and the House Democratic leadership introduced a sweeping partisan legislative package, H.R. 3, in September. President Trump says he wants to see drug prices drop at the pharmacy counter and is focusing on numerous administrative changes to be undertaken by the Department of Health and Human Services. Drug pricing is a confusing process and the chain between manufacturer and patient has become complicated. We continue to urge that imported drugs are not the answer because of the danger of lack of FDA oversight. This will continue to be a hot topic in 2020, and as Washington works through the drug pricing dilemma, the National Grange will continue to sort the good, the bad and the ugly of the various proposals with the patient in mind.

Surprise medical bills should not be allowed. These are unexpected bills that you may receive, even though you have insurance coverage, because the doctor who sees you in the hospital may be out of your network, even if the hospital is in-network. This is a big enough problem that it has Congress' attention and we may see some action next year.

The suspension of excise taxes on medical device innovation expires December 31<sup>st</sup>; the Grange is working to permanently repeal excise taxes on medical devices.

### **Grange Advocacy**

Grange Advocacy is expanding its reach, profile and effectiveness. Coalitions in Washington and in the states are again looking to the Grange grassroots membership network for help in reaching rural and small-town America. Our 501.c.4 branch is proving to be as successful and helpful to the National Grange as we hoped it would be when it was formed in 2013. You will hear a more complete report tomorrow evening from Grange Advocacy Chairman Phil Prelli.

### **Looking Ahead**

As we all are aware already, next year is a big election year for President, all Representatives, and one-third of the Senate. Politics will be the order of the day. Election years are generally a bit out of the ordinary too. There are promises, rhetoric, demands and accusations that can sometimes be unsettling to voters, business and international partners. This time around, we have a more unsettled political, economic and diplomatic climate than ever. This is truly one to watch.

You can watch it begin in New Hampshire for the first in the nation primary. Grangers will be there Feb. 7-8 to work on the campaign of their choice and learn about grassroots campaigning at the very beginning of the election season. Details will be coming soon so watch for them, register right away, and join the fun!

As we enter the 2020 election cycle, The National Grange is anticipating an unsettled environment for its public policy issues as well. Some of these are:

#### Health care

Health care will be a major political and public policy issue in Washington. Surprise medical bills (for example, from an out-of-network doctor in a network hospital) have become a top priority for Congress. A remedy could clear the Hill by Christmas. High prescription drug pricing is Congress' next priority, but will be more difficult to fix. The big question is can Congress pass something the President will sign that mandates a moderation of prices and a patient savings at the pharmacy counter? There seems to be support within the Administration to turn to imported drugs, which are indeed cheaper but which may be unregulated, unsubstantiated, ineffective and even dangerous. We have been vocal in opposing imported drugs for safety reasons.

#### Broadband

Continued expansion of high-speed broadband into remote areas is promising. Updated and more accurate service maps are on the way and this will help. Congress, the White House, the Federal Communications Commission and USDA have all given rural broadband deployment high priority status.

#### Trade

Trade will remain a deep concern for farmers, ranchers and those businesses that serve agriculture. While several bilateral trade agreements like Japan will certainly help, the tariff war with China will continue to put downward pressure on farm gate prices. A settlement with China is a moving target and could take much longer than first anticipated.

#### Food

It will be important to find a common sense nomenclature (product name) for plant-based milk and meat items as well as lab-grown meat that protects the integrity of the original food product. The truth about the ingredient content and nutritional

content of these products must be disclosed to the consumer. The various types of agriculture need to promote their products without bashing others. There is room for all, the small farms as well as the large operations, in today's economy.

#### Ag labor

Several common sense solutions have been proposed to solve our farm labor crisis but have gone nowhere in Congress. Ag labor is being held hostage by some members of Congress as a trade-off to get their immigration priorities included. Immigration is way too political at this time for a comprehensive immigration bill to see the light of day on the hill for the foreseeable future. This is such an important issue for agriculture and it is very frustrating that it's been dragging on for years.

#### Infrastructure

Most in Congress agree our infrastructure is in dire need of attention. But repairing old and building new infrastructure is a massive undertaking that costs lots of money. Unfortunately, the "pay for" is probably too big to tackle on a presidential election year.

#### Regulations

In the fourth year of any presidency, proposed regulations usually fall into two categories: 1) those the Administrations want to finalize at all costs, and 2) those the Administration wants to bury. The Grange will follow both categories closely, especially WOTUS (Waters of the U.S.), plant-based and lab grown products, permits for broadband expansion, changes to Medicare and Medicaid, hours-of-service for ag truckers, options to receive paper bills, notices and reports, climate change and more.

#### Help from State Granges

The National Grange and your State Grange can be so much more effective with a direct pipeline to our biggest resource: grassroots members. We need to get them connected to the information available in View from the Hill, Patron's Chain, notices, updates, reports and more from their State and National Grange. But we need their email. Will you help? Every time you send out a registration form or questionnaire or anything else that requires a response, please add a line for email address. I can't stress enough the importance of communication with our members.

The theme for next year's National Convention in Valley Forge is 2020 – Focused on the future. We are all interested in the future, but what part of it will we focus on in the coming year? Legislation? Civic Engagement? Community Service? Youth and Juniors? Membership? Whatever we focus on, promoting our activities to the public will increase interest in what we do. Activity attracts attention and attracts those busy people who like to be involved in their community.

In closing, I want to quote Heather Retberg, a small farmer Granger in Maine:

*With so much beyond our control: in world affairs, in the country, in our state, our community and even our homes and families, we must yet focus on what lies firmly in our grasp. What task at hand is ours to accomplish, what path ours to orbit, what sphere ours to influence for good?*

I leave you with that challenge. Ponder that thought through this session and the coming weeks—what sphere is ours to influence for good? In the Grange we have brothers and sisters all across the country who can help. Let's all work together in 2020 to influence our world for good.

# NATIONAL GRANGE LEGISLATIVE AFFAIRS REPORT – 2019 ACTIVITIES

*Prepared by Burton Eller, Policy, Advocacy and Legislative Affairs Director*

## Overview

The National Grange continues to recapture its historical reputation as a major voice for the citizens of rural and small-town America. As Washington has begun to rediscover R-U-R-A-L recently, the press, the politicians and the regulators are rediscovering the grassroots organization called the Grange. Coalitions and organizations are increasingly coming to the Grange for its insight and its support on issues and matters of public policy. We have been able to share issue funds with several state Granges who are able to help on specific national issues in their state. Hopefully, these funds can help those states build an infrastructure to help with future issues.

We continue to expand the Rx Abuse Leadership Initiative (RALI) drug awareness, treatment and recovery to the Grange grassroots. Seven state Granges are now RALI partners and we constantly push the national RALI leaders to add more. We were able to secure scholarships to send three Grange youth and their leader to the Community Anti-Drug Coalitions of America (CADCA) training in Dallas in July. Delegates learned how to build coalitions to address the youth drug crisis in rural and small-town areas. Grange Youth and Grange Juniors plan a session at the National Grange convention to consider making this initiative their national project. Grange Advocacy hopes to sponsor a Grange youth to the Washington, D.C. follow-up session in February. National Grange awarded its annual "Champions of Rural America" honor to Senator Pat Roberts of Kansas, Chairman Ajit Pai, Federal Communications Commission, and Alan Morgan, CEO of the National Rural Health Association

President Betsy Huber continues to be a major national voice for rural broadband deployment, which is one of Grange's major priorities. Her push for more accurate broadband service mapping will focus on remote areas with no service. While health care has increasingly become a major public policy issue for the Grange, it is now the elephant in the room, so to speak. Medicare and Medicaid are popular and necessary among Grange members, but several proposals would weaken these. Surprise medical bills (out-of-network charges) should not be allowed and this has Congress' attention. Prescription drug prices keep rising but several proposed solutions turned out to be two-edged swords.

Rollout of the 2018 Farm Bill seemed to go well for USDA in the countryside. Securing funding for several of the discretionary programs will be a challenge however. Plant-based milk and meat substitutes have become an issue as has lab-grown meat. Our Grange challenge is to assure transparency of nomenclature (Does the name accurately describe the product?) and nutritional content including additives. International trade has become a cornerstone market for farmers and ranchers. Disruption of those markets depresses farm-gate prices. The tariff war with China could be a long haul and the result may fall short of the comprehensive agreement everyone hoped for. On a brighter note, the new trade agreement with Japan is a huge win for American agriculture and food products. Hopefully the United States-Mexico-Canada (USMCA) trade agreement is in final negotiations between Congress and the White House and headed for a vote by December.

Last year in this annual report, we said respect and civility had eroded alarmingly in the Nation's Capital. It's only gotten worse in the past twelve months. More and more citizens get their news from and form their opinions based on short headlines and sound bites. Facts aren't as important as feelings. Many advocates are tolerant of everyone's opinion except those they don't agree with. John F. Kennedy's famous quote, "Ask not what your country can do for you but what you can do for your country" is a foreign concept for some. The American "melting pot" that formed our nation into a common bond of citizenry for over 200 years is dangerously close to breaking apart into a nation of clans and ethnicities much like the Middle East.

## Agriculture and Food

We have been actively involved in the implementation of the 2018 Farm Bill including the new Dairy Margin Coverage program, conservation, prevented planting provisions, and more. The EPA and Corps of Engineers have formally repealed the 2015 Waters of the United States rule that has been a serious problem for farmers, ranchers and landowners. This action makes pre-2015 Clean Water Act regulations the law of the land until new rules are adopted. The Grange warned new hemp farmers to be enthusiastic but cautious until FDA approves CBD (cannabidiol) after determining the effect of long-term use in animals and humans. FDA may also crack down on unsubstantiated health claims. The latest concern is the lack of processing capacity for the 2019 crop.

## Health Care

Opioids and the abuse of other drugs continue in alarming proportions with 74% of farmers and farm workers reporting they are active with prevention and recovery coalitions. The National Grange spearheaded coalition efforts in Washington to raise awareness of the dangers of unapproved imported drugs. Steps to eliminate surprise medical bills and to limit the price increase of prescription drugs are being actively pursued by the Grange. Rebates and discounts along the supply chain between the manufacturer and patient are common practice, but the patient is not a recipient at the pharmacy counter. We are working with patient groups to remedy this in Congress and at FDA. The suspension of excise taxes on medical device innovation expires December 31, 2019; the Grange is working to permanently repeal excise taxes on medical devices.

## Immigration/Ag Workforce

Congress began work last January on comprehensive immigration reform proposals that protected "Dreamers", provided border security, spelled out family-based immigration and provided for H-2A and "blue card" ag workers. National Grange and the Ag Workforce Coalition worked to include practical common-sense ag worker provisions but Congress doesn't seem to have an appetite for immigration reform in the current political climate so there's been no movement. The Department of Labor has streamlined and improved its H-2A temporary ag worker program in the meantime.

## Infrastructure

The National Grange has been active in the Rebuild Rural Coalition efforts to have Congress pass bipartisan legislation to strengthen rural infrastructure including broadband deployment, reliable roads and bridges, inland waterways, rural health care and more. But again, no legislative movement is in sight.

## Telecommunications

The reason why more rural and small-town residents don't have high speed broadband now is because of the ole "pay for" rule that it's more expensive to connect fewer people over large areas. Innovations such as small cell transmitters and low frequency transmission in unassigned spectrum are actively supported by the National Grange. We supported new funding by Congress and USDA to target new rural broadband expansion. Grange joined efforts to improve the accuracy of mapping "connectivity deserts" in remote areas. We are actively supporting the government-subsidized Lifeline program to provide voice and broadband service to elderly, isolated, disabled, low-income and veteran citizens.

## Trade

The good news on the trade front is that the agriculture and food industries stand to reap huge benefits from the new Japanese trade agreement. We're hopeful the House of Representatives and the White House can come to agreement on the United States-Mexico-Canada (USMCA) trade agreement and pass it by December. The bad news is that our trade war with China could go on for a while. Hopes for a broad comprehensive bilateral trade agreement are fading as China keeps retreating from its negotiating positions.

## Fly-In

Twenty-two Grange members from eleven states met with thirty-one members of Congress and their staffs to discuss the Grange's priority policy issues that need action by Congress and the federal agencies. Fly-In 2020 will take place February 7-9 (tentative) in New Hampshire so attendees can participate in the "First in the Nation" presidential primary. Attendees go to various campaign headquarters and work on the campaign of their choice. New Hampshire residents vote February 11 (tentative).

## Coalitions

Coalition-building is an important tool for managing issues in Washington. The National Grange engages with fourteen issue coalitions and alliances in the Nation's Capital ranging from agriculture, ag workforce, broadband deployment, health care, taxes, trade, paper options, rural schools and more.

## View from the Hill

We published twelve monthly editions of the *View from the Hill*/Policy Updates and Issue News newsletter which were sent to all Grange members.

## Grange Profile

The National Grange continues to gain stature in the public policy arena in Washington. Here is a recap of some of the high-profile actions by the National Grange on issues since the 2018 convention last November:

### Opinion Editorials

Telecommunications - 4

### Official letters regarding policy issues:

Telecommunications - 11

Health care - 26

Agriculture and food- 7

Taxes - 2

Trade - 2

Infrastructure - 2

Paper options - 5

### Official statements and filings

Telecommunications - 9

Health care - 4

### Coordinated state activity:

Op eds, letters and statements coordinated between National Grange and state Granges - 26

## Grange Advocacy

Grange Advocacy was chartered as a 501(c) (4) organization in 2013 for the purpose to:

- Educate the American public and elected officials in issues affecting rural America and agriculture at the federal, state and local levels
- Lobby Congress and state legislatures
- Engage in grassroots activities
- Conduct general public political advertisement

Grange Advocacy activities with other organizations, coalitions, Congress, federal agencies and the media have been a tremendous boost to the overall Grange profile and reputation. Grange Advocacy has also been successful in acquiring small grants from issue partners to address numerous public policy issues that coincide with National Grange policy. Grange Advocacy is able to reimburse the National Grange for certain overhead expenses and to transfer some issue management expenses out of the National Grange budget.

# *Agriculture*

## **POLICY STATEMENT**

Agriculture is, as always, a foundation of America's economy, providing directly or indirectly through value-added processing, and is currently approximately 5.4% (\$1.053 Trillion) of our Gross Domestic Product (GDP). For over 150 years, the National Grange has been working to improve agriculture in America and the welfare of those who work the soil or care for the creatures of the field. Our roots are in agriculture, and our future is tied to our faith in the perennial cycle of planting and harvest.

Conservation of our soil, water and air quality remains a priority for the Grange, keeping in mind that all pertinent regulations should reflect local conditions. A key component of the future security of our water supply for both domestic and agricultural uses is the ability to store it. Challenges from environmental groups and climate change have brought progress in that area to a standstill. The National Grange will continue to promote water storage projects that benefit agricultural and domestic needs while appropriately safeguarding fish and wildlife safety concerns.

Agricultural producers have been leaders in protecting the environment. The National Grange urges Natural Resources Conservation Service (NRCS) agencies to implement Nutrient Management Plans (NMPs). Good soil health, including proper nutrient management, is a priority, and we encourage all farmers to develop and follow a Nutrient Management Plan to ensure that no more nutrients are applied than are needed to grow the crop. As computer technology becomes more integral to farming and the equipment used, we encourage the use of precision agricultural technologies to benefit the environment and improve farm operational efficiency. The National Grange should engage in public relations efforts to showcase the work and leadership of farmers and ranchers in adapting to and utilizing best management practices.

The National Grange recognizes that other additional challenges facing producers are the precipitous drop in commodity prices coupled with ever-rising cost of inputs and the yearly increases in property taxes. We will continue to work on solutions to help minimize their impact on the agriculture sector. The National Grange continues to monitor issues concerning GMO-related food production and labeling. The National Grange supports voluntary labeling of Genetically Modified products. We further request that the National Grange Legislative Director share the latest reliable research on this subject with State Granges on a continual basis. As consumers become more concerned about where and how their food is produced, the National Organic Program (NOP) has become more popular. The National Grange supports the continued growth and federal support for the NOP, in order to meet the increasing consumer demand for organic food products.

Support for Country of Origin Labeling (COOL) is a long-standing position of the National Grange and is favored by consumers. We support voluntary labeling programs that provide clear information about country of origin and processing, so that consumers can make informed choices about the food they feed their families. Food safety continues to be a significant issue for Americans in light of the ever-increasing amount of our food that is imported. We believe the responsibility for all food safety inspection should fall under one federal agency, preferably the US Department of Agriculture (USDA).

Healthy pollinator's populations are critical to food production in the US. We are pleased that the USDA has information available to assist first-time beekeepers in learning how to begin production. The National Grange supports ongoing efforts to preserve proven pollinators health practices, while identifying new pesticide crop treatments that are not harmful to pollinator's populations. Although Neonicotinoids are a critical component of seed treatments, their misuse via over-the-counter products has resulted in their increasing presence in water and wetlands. Their toxic effect on pollinator's populations has reached the point where we feel it is time to consider designating Neonicotinoids as a restricted use pesticide. We support additional education efforts designed to inform producers as to the toxic nature of Neonicotinoids that are present in treated seeds and the positive aspects of having untreated seeds available for planting.

The use of drone or UAV (Unmanned Aerial Vehicle) technology is rapidly becoming an important tool for agricultural production. However, privacy concerns have arisen as drones have become more popular. The National Grange supports the

implementation of developed FAA (Federal Aviation Administration) regulations governing the use of drones, and will continue to work with USDA, FAA and other agricultural organizations to address issues related to drone use as they pertain to agriculture.

The National Grange continues to support extensive research by our Land Grant Colleges and Universities into both short-term and long-term effects on the environment and on human nutrition, of all new crops, whether Genetically-Modified or traditionally bred. One of the major issues facing animal agriculture in our country is the effort for certain "Animal Rights" groups to define "Humane Treatment" of animals. The National Grange should work together with other like-minded groups, to ensure that sound science is used in determining humane treatment of animals. The National Grange strongly supports agriculture education at all levels, including agriculture science as well as Cooperative Extension Service, and encourages the partnership between 4-H, FFA and Cooperative Extension Service to draw on and develop leadership abilities. Adequate funding of Extension must be continued and increased if we wish to ensure the availability of innovative practices and new tools beneficial to agriculture and society. We support educational programs, such as Farm to Table or Farm to School, that teach the importance of proper diet and nutrition. It is more critical now than ever to help consumers understand the basic food system, where their food comes from, and what, if any, genetic alteration was integral to its development. It is vital that we encourage the younger generation to enter into farming. We support programs or policies that will enhance the ability of young farmers to be successful as they pursue production agriculture as an occupation. Opportunities exist to expand agricultural tourism as an additional source of income for farm families. The National Grange urges government at all levels to remove unnecessary laws and regulations that hamper agricultural tourism expansion.

As production agriculture becomes more dependent on computer technology, access to high speed internet has become critical to farming and marketing activities. High-speed internet access is also critical to the agricultural operations that desperately need it to enable their high-tech precision farming equipment that is used to grow crops using less water, seed, fertilizer and pesticides. The National Grange strongly supports expanded funding efforts necessary to develop high-speed internet access in rural area that are currently under-served.

The National Grange thanks Congress for passing the 2018 Farm Bill. It provided additional funding to help close the existing gap between feed costs and average milk prices. This, along with restructured premium rates, benefitted small-to-medium sized dairy producers. The National Grange also appreciates the establishment of a new Foot and Mouth vaccine bank. These improvements and other provisions designed to provide equitable treatment for all commodities on all farm sizes in all regions of the country need to continue to be addressed. The National Grange also strongly supports retaining adequate levels of financial support for the USDA Risk Management Division and the Federal Crop Insurance Program (FCIP), so that coverages accurately reflect cost of production and provides adequate price protection; yet ensure that premiums remain affordable. Disaster Relief programs are also a critical component of farm income safety nets. We also strongly urge that provisions are made to adequately address the needs for a reliable source of seasonal as well as year-round farm labor. Bills have been introduced, but none have been able to advance through Congress. This lack of action has been frustrating because the need for an affordable and adequate work force remains a critical agriculture issue.

The National Grange continues to support the principle that only those foods from mammalian sources should be allowed to use the term "milk." The FDA (Food and Drug Administration) should not allow the labeling of nutritionally-inferior plant or artificial substitutes as "milk," "yogurt" or "cheese". The USDA must retain the authority to regulate the emergence of the efforts to grow "meat" in a laboratory setting. The Grange supports the principle that the term "meat" can only be used to describe animal protein derived from harvested production livestock, poultry, seafood or wildlife, wild or domestic.

Milk prices to the farmer have continued to drop over the past 20 years, while production costs have continued to climb. The Grange must continue to work to educate consumers on the positive qualities of whole milk and lowering the unacceptable level of waste of our food that currently occurs on a daily basis in this country. Education efforts such as these will lead to more demand for our domestically-produced milk, thus leading to higher prices for our producers and less waste of food will make more available for government-assistance food programs.

Individual incomes in developing countries are rising, leading to changes in diet that will increase demands on the world's food supply even as population growth adds its inevitable impact. The National Grange supports new and progressive trade pacts that lower trade barriers and promote fair trade. Farmers prefer fair trade for their products rather than government payments.

Cooperative nonpartisan effort is the "Grange way," and an understanding of the direct relationship between science and the natural world. The words written by National Master Oliver Wilson in 1919 are appropriate today, in that the time has come to simply classify agriculture as one of the great industries that make up our economic structure, and the need to treat agriculture as a vital part of that structure. One hundred years later we are still facing the same struggle, still selling products at less than the cost of production. We have the choice- pay the farmer a fair price or import our food. "No nation can prosper whose agriculture deteriorates."

## **PRESENT POLICY**

### *Agricultural Exports & Embargoes*

1. The National Grange encourages its members to work through their commodity export promotion organizations on increasing the producers' participation in export market development. We strongly support retaining the present system of private enterprise and cooperatives in export sales. We continue to support government export credit programs, including blended credit, and propose the establishment of a revolving export credit fund. We further support the formation of a national marketing federation of regional marketing cooperatives to cover all agricultural export commodities and better serve the world's markets. We encourage all segments of the agricultural community to increase their private investment in

- export market development for American agricultural commodities
2. The National Grange supports legislation or administrative action that will continue to maintain and increase the exporting of agricultural commodities. We recommend new emphasis on cash sales for agricultural products along with aggressive exportation of high value-added products. Consideration should be given to greater participation by the USDA in the administration and distribution of American food-aid programs.
  3. The National Grange urges the Grain Inspection Service of the USDA to take all necessary steps to insure only grain of the quality specified in the purchase be moved into the export markets.
  4. The National Grange supports increasing market development programs conducted through the USDA and AID (Agency for International Development) with emphasis on financing and development of the infrastructure of recipient countries to facilitate the receiving and distribution of U.S. agricultural products.
  5. The National Grange will oppose restrictions being placed on imports into the United States that could result in retaliatory action being taken against U.S. agricultural exports by the exporting country. We recommend that further legislative and/or administrative actions be taken to enhance the exportation of U.S. agricultural commodities. We strongly support keeping the authority to determine national agricultural export policy in the U.S. Department of Agriculture. We support all efforts to maintain the sanctity of export contracts. We support monitoring and full public disclosure of information concerning sales to foreign countries. We support negotiations to eliminate all tariff and non-tariff trade restrictions against United States' agricultural exports.
  6. The National Grange will oppose any attempt to embargo, restrict or otherwise burden the export of logs or any other privately grown agricultural commodity by a complete or partial ban, quota, or tax of any nature.
  7. The National Grange supports swift implementation of the Taft-Hartley Act's provisions against workers who refuse to load agricultural commodities for export.
  8. The National Grange supports developing agricultural trade with Cuba. We seek means whereby Cuba might be extended loans and/or credit to purchase U.S. agricultural products.

#### *Agricultural Imports*

1. The National Grange supports strict enforcement of laws regulating the importation of harmful species of plants and animals. We further support measures which will require tighter oversight and control at port of entry and market outlets in an effort to control the importation of exotic fowl, pet birds, and the establishment of procedures for the treatment of imported cargoes to prevent the importation of plant or animal insects or diseases.
2. The National Grange supports legislation that would require the USDA to certify that food products coming into the USA for human consumption have not been grown or treated with products that are not currently registered for use on food products in the United States.
3. The National Grange does not approve of using inspections, grading, health, and sanitary or labeling standards as non-tariff barriers to trade. We do support placing import quotas and/or import tariffs on agricultural commodities as a means of protecting domestic markets from seasonal and over trend market penetration surges. We urge Congress and the President to investigate dumping of food products from other countries to the US market that affect the agriculture industry in the United States. We insist that all imported agricultural products, including value-added commodities, meet the same strict inspection, unapproved pesticide residues, grading, and labeling standards as domestically-produced products and that these standards be strictly enforced, and the country of origin supply certification that the imported product is free of harmful diseases and pests. We specifically recommend that all imported products be labeled with the name of the country of origin until the consumer purchases it. We further support the elimination of all export subsidies on agricultural products imported into the United States or the imposition of countervailing duties to offset the subsidy value.
4. The National Grange supports strict enforcement of existing countervailing duties to offset the subsidy value on certain agricultural and timber products being imported from Canada to protect the agriculture and timber industries in states along the Canadian border.
5. National Grange supports continued restrictions on imports of animals, meat, meat products and bone meal into the United States from any country having Mad Cow Disease until sound scientific data proves it is safe.
6. To allow for the consumers' right to know where their food comes from, the National Grange supports voluntary country-of-origin labeling for beef, pork, lamb, fish, and shellfish that is compliant with World Trade Organization (WTO) trade rules.

#### *Agriculture Trade Policy*

1. The Grange must continue to work for sound trade agreements for agriculture by encouraging the Administration and Congress to aggressively ensure that American farmers achieve access to all markets covered by trade agreements. The National Grange opposes non-transparent, non-amendable fast-track pacts which are not open to debate by our legislative bodies.
2. The National Grange supports the dairy industry being adequately represented in World Trade Organization (WTO) negotiations.
3. The National Grange supports the permanent appointment of a Chief Agricultural Negotiator in the Office of the U.S. Trade Representative. We support the strong representation of U.S. agricultural interests in all negotiations regarding U.S. trade relations, and to ensure that the cost of research and development is not born solely by the American farmer.
4. The National Grange continues to work for an adequate food supply for the entire world. We encourage increased food production in developing countries. To that end, we support an international food program that provides for the support of all

nations in a cooperative endeavor to meet current and projected food needs in deficient areas and ensure that food will be available and efficiently distributed. All nations should give more support for research, education and development of programs designed to improve the capability of farmers in food deficient areas to meet more of the food needs of their people.

5. The National Grange supports the development of a consistent policy on the use of sanctions by the U.S. government. The Grange opposes trade embargoes as a first choice of action, but should all choices fail, short of military action, and a trade embargo becomes the only alternative, the Grange urges the federal government to embargo all products - agricultural, industrial and technical - instead of specific agricultural commodities. If sanctions become necessary as a tool of foreign policy, then sanctions should be used only as a consequence of multilateral sanctions.
6. In any new trade negotiations or discussions in re-opening any existing trade pacts, the National Grange strongly supports the inclusion of policy to protect state laws, including defense of such laws by the proper authorities in any trade court.
7. The National Grange insists that representatives of USDA and the Department of Homeland Security be present at all Free Trade negotiations to ensure that an adequate supply of domestically produced dairy products be maintained. Congress should diligently scrutinize all Free Trade Agreements to protect agriculture production in the event of serious food shortages caused by natural disaster, disease or terrorism before voting the Trade Agreement "up or down."
8. The National Grange insists that trade pacts require all imported products from signatory countries, not just agricultural products, meet the same strict standards as domestically-produced goods for environmental protection, residue, labeling and worker safety. These standards must be strictly enforced.
9. The National Grange believes trade pacts should not cede judicial power to foreign tribunals, such as the World Trade Organization, not bound by the Constitution and laws of the United States.

#### *Anti-Trust Issues*

1. The National Grange recommends that Congress investigate the possibility that very large corporations that own and operate livestock/poultry slaughtering plants as well as very large livestock/poultry feeding facilities are violating anti-trust laws. We question whether or not those firms are engaged in price manipulation resulting from their control of an extremely large portion of the market; their lack of competitive bidding because of the regionally specific location of the slaughtering plants that are owned by these corporations and their access to their own large numbers of fed animals or poultry in their own feeding facilities. If any firms are found to be in violation of anti-trust laws, the Department of Justice or the Federal Trade Commission should take the necessary action to uphold the laws.
2. The National Grange calls on the Federal Trade Commission to investigate the agricultural supply, agricultural transportation, grain handling, pricing policies and the potential anti-competitive marketing practices of all large corporations in the food processing and food marketing industries. We oppose the concentrated growing, marketing and distribution of agricultural production by large corporations other than farm cooperatives in the US. We call upon the Federal Trade Commission to investigate the pricing policy of the food industry and anti-competitive marketing practices, such as the purchasing of shelf space and product location that places new and less expensive generic brands at a marketing disadvantage. We express deep anti-trust concerns regarding the control of the U.S. seed supply to both Congress and the Department of Justice and urge both to conduct a close review of recent acquisitions and mergers.
3. The National Grange urges the Secretary of Agriculture to appoint a study committee composed of representatives from farm organizations, commodity groups, and integrators to study the terms of grower contracts to determine fairness to both parties and their acceptance by lending institutions. We further support better nationwide reporting of price and contract information, including forward contract prices, and on-going studies of the relationship between farm gate prices and retail prices. We urge the USDA to fully fund these efforts.
4. The National Grange urges continued awareness of issues related to the electronic trading of grain and other agricultural production. We urge the imposition of necessary regulations on Internet trading of grain where appropriate to protect the farmer.
5. The National Grange opposes any effort to exempt commodity check off funds from being subject to the Freedom of Information Act (FOIA) to continue transparency.

#### *Biotechnology Policy, Research and Application to Agriculture*

1. The National Grange supports a federal policy to allow the use of biotechnology in agriculture. We recognize that genetic engineering of plants and animals has already had a positive impact on increasing the availability of food; decreasing the environmental impact of agriculture and creating foods that are safer, longer-lasting, more nutritious and better tasting. We further support continued research on biotechnology and genetic engineering, including further scientific research into non-human cloning. We support an approval process for genetically modified plants and animals that utilizes science-based decision making to assure the safety of agricultural products. To that end, the National Grange philosophically supports the efforts of National Science Foundation (NSF) concerning their Plant Genome Initiative.
2. The National Grange supports legislation that provides that patented plants and livestock that have been developed through biotechnology (gene-splitting, cloning, genetic engineering, etc.) will be made available to farmers by provisions that will not result in a concentration of the patented livestock in the hands of a few large firms and will not interfere with their availability to all farmers.
3. The National Grange urges the FDA, EPA, USDA and other national farm organizations to publicize the safety of GMOs to help reduce the resistance to the use of this technology providing correct and scientifically verified information on Genetically Modified Organisms (GMOs) to news media and other outlets to enhance the availability of truthful information and ultimately

provide more information to the world community. The Grange supports a voluntary GMO-free labeling certification program regulated by USDA and urges that the USDA Certified Organic label automatically qualify as GMO-free.

4. The National Grange supports ongoing educational efforts by the Cooperative Extension Service that address growing concerns about GMO genetic material drift to non-GMO plants.

#### *Chemicals for Agriculture: Weed, Pest and Predator Control*

1. The National Grange urges the EPA to consult with state, industry, and user groups when developing policy and regulations that relate to pesticide industries. The National Grange also urges the EPA to use a reasonable approach in carrying out the provisions and requirements of the Federal Insecticide, Fungicide and Rodenticide Act. We recommend relying on impartial scientific research data that is based on the normal human consumption patterns of a product before suspending or canceling the use of a particular chemical. We urge more review and study of a chemical before the public is advised that an agricultural chemical may be harmful to their health. We support increased research and education being done by the USDA and EPA to improve integrated pest management, including comprehensive strategies to minimize weed resistance issues. To that end, we support the reinstatement and full funding of the USDA's Pesticide Data Program. We further recommend that Congress provide additional funds for Land Grant Colleges and Universities to be more actively involved with biological pest control research.
2. The National Grange supports efforts to provide information to growers and farmers on actions that can be taken when adverse public statements are made questioning their use of agricultural chemicals that are legally registered with the Environmental Protection Agency (EPA). We support legislation that would allow producers and handlers to seek criminal and punitive damages from people or organizations that disseminate false or unsubstantiated information that causes punitive harm to a grower or handler of an agricultural product, including seeking equal media time. We further seek legislation that would protect a farmer from criminal or civil liability regarding that farmer's use or disposal of an EPA registered and approved herbicide or pesticide in accordance with the manufacturer's printed instructions.
3. The National Grange supports the reasonable and practical use of agricultural chemicals as well as reasonable and practical standards for reentry to fields or areas treated with agricultural chemicals. We continue to support the USDA to establish a certification program that encourages herbicide applicators to use best management practices to prevent damage to adjacent property. We continue to support adequate funding for increased research by all appropriate government agencies to develop, improve, and disseminate information on alternative or sustainable agriculture. We continue to support educational programs for farmers on the safe use and disposal of agricultural chemicals, including their containers, in an environmentally safe way.
4. The National Grange supports certification and re-certification programs for all restricted use pesticides. All applicators of restricted-use pesticides should be certified in the application of restricted-use pesticides.
5. The National Grange opposes the federal Environmental Protection Agency's proposed increased requirements for recertification of private and commercial pesticide applicators licenses.
6. The National Grange supports allowing the continued and appropriate use of the following farm chemicals: 2-4-D for weed control; triazines as a crop protectant; Elgetol for thinning apples; Compound 1080 for predator control; Methyl bromide for controlling insect infestations in stored commodities and any chemicals found to be effective in controlling fire ants. We further encourage the EPA to reevaluate their restrictions on certain pesticides that are used for grasshopper control so that a more effective environmental control program may be offered to farmers and ranchers.
7. The National Grange supports legislation that provides increased and continuous funding for the Inter-regional Research Project Number Four (IR-4) minor-use pesticides program. We recommend streamlining the approval process for minor use pesticides by reducing the cost and time necessary for registration or re-registration.
8. The National Grange supports a federal Food Quality Protection Act (FQPA) that updates standards pertaining to pesticide and chemical residue in food be revisited, utilizing new technologies for determining food safety based on the negligible risk standard. We specifically urge the Environmental Protection Agency to implement the FQPA by using sound scientific data based on actual use of pesticides and agricultural chemicals and by providing a transition period for agriculture to adjust to the withdrawal of an approved pesticide.
9. The Cooperative Extension Service and the State Departments of Agriculture, in cooperation with retail and wholesale dealers of lawn and garden pesticides, should conduct special pesticide application classes for homeowners to ensure the proper use and disposal of unused chemicals and their containers. The sale of lawn and garden pesticides should be monitored closely by local and state authorities to ensure that restricted-use pesticides are not sold to uncertified applicators.
10. The National Grange opposes the EPA classifying plants as a pesticide based upon genetic engineering.
11. All fertilizer manufacturers using toxic, heavy metal, chemical or radioactive wastes should be required to list those components on the package label.
12. The National Grange will support a high priority program for the control of noxious weeds on all lands, including Witchweed, Tartarian Honeysuckle, Russian or Autumn Olive and Multiflora Rose. The National Grange supports Integrated Pest Management Programs and other safe alternatives to Glyphosate use.
13. The National Grange urges the USDA to continue funding for the control of the Asian Gypsy Moth, Pine Beetle, Tussock Moth and the Asian Long Horned Beetle. We support additional funding and legal authority to restrict the importation of foreign pests into the U.S. We urge USDA to alert the general public to the potential threat that foreign insects pose to our native species.
14. The National Grange supports legislation allowing farmers, ranchers and others to protect their property from predators, including endangered species.
15. The National Grange urges Congress to prohibit all sales of any form (live, dried, seeds) of any plant that has been placed

on a state, regional or national noxious weed list.

16. The National Grange urges the US Environmental Protection Agency (EPA) to continue to allow the use of atrazine after its registration review.

*Dairy Policy, Milk Marketing Orders, Dairy Prices, and Inspections*

1. The National Grange supports a milk supply management program that recognizes regional differences based upon the cost and amount of production, availability of markets, percentage of production that is allocated to CCC (Commodity Credit Corporation) stocks, and the percentage of Class I use.
2. The National Grange supports the use of Basic Formula Price (BFP) in determining the base price for dairy products, as well as multiple-component pricing for all classes of milk in all federal milk marketing orders.
3. We support the continued payment of Class I differentials and oppose any effort to form a national pool of Class I milk differentials.
4. The National Grange opposes any change in the classification of reconstituted milk and the de-pooling of Class III milk.
5. The National Grange requests of all appropriate agencies, associations, and boards that milk prices received by dairy farmers be quoted in terms to which consumers can relate, such as price per gallon rather than price per hundredweight.
6. The National Grange urges Congress to pressure the USDA to raise the support price of milk to a level for the benefit of both the producer and the consumer. The National Grange supports legislation that is geared toward controlling volatility of month-to-month milk prices.
7. The National Grange also supports efforts that assist struggling dairy farmers by revising the national milk pricing system. We believe that a federal order system for milk pricing should include such concepts as: (1) supplying side controls, (2) charging Class I processors an assessment to fund the cost of cooperatives that balance the pool of milk in their areas, (3) keeping multiple component pricing, (4) declassifying Class I prices from other classes, (5) making major improvements to the dairy producer income insurance program that is complimentary to the Livestock Gross Margin Program, returns to the original feed cost formula and takes into account local prices paid, (6) creating a mechanism to more quickly respond to changing market conditions and reduce price volatility, which would include a growth management program that is flexible and responsive to market conditions while providing producers with the ability to grow, and (7) providing that any Growth Management Program must contain a minimum time period of 5 years before a total buy-out of a dairy operation can be restarted or if a partial buy-out of a herd, before an increase in production from the operation will be allowed.
8. The National Grange supports the implementation of a forward contracting pilot program for all classes of milk other than Class I. We support close monitoring of this program to assure that forward contracting does not adversely affect dairy farmer profitability. However, any monitoring or review of the forward contracting policy program must be sensitive to, and protect the privacy of, individual dairy farmers participating in the pilot program.
9. The National Grange continues to seek an increase in exports of milk and milk products. We support funding of the Dairy Export Incentive Program (DEIP) to the full limit permitted by WTO agreements. We urge milk cooperatives and other associations to become actively involved in the development of export markets for dairy products. We support additional funding for USDA to provide technical assistance to private sector dairy export trading entities.
10. The National Grange opposes the importation of caseinates and urges the adoption of tariff rate quotes on Milk Protein Concentrates entering the country. The National Grange also supports having milk used to produce Milk Protein Concentrate (MPC) included in the total milk produced in the area Federal Milk Marketing order and urges the adoption of standards on how MPC is used and inspected to ensure compliance.
11. The National Grange continues to support the National Dairy Product Promotion Program as a means to promote and increase the consumption of dairy products. We urge the USDA to periodically account to the public for any monies that have been collected from dairy farmers under any assessment programs, including required reports to Congress.
12. The Extension Service, nutrition educators, farm organizations, processors, and vendors should promote the nutritional value of "Real" dairy products and should promote use of the "Real Seal" merchandising program. Only those foods from mammalian sources should be allowed to use the term "milk."
13. The National Grange continues to support government purchases of dairy for domestic programs.
14. The National Grange opposes the Food and Drug Administration's proposal to allow products with the "nutritional equivalency" of a food to be labeled "substitute." We suggest that any "imitation" or "substitute" product which resembles a dairy product, whether or not nutritionally equivalent yet includes substitute dairy ingredients, may not in any manner be allowed to bear the name of the dairy product which it is purported to resemble. This also includes imported "imitation" or "substitute" products. The National Grange supports Federal Government oversight to enforce strict labeling regulations concerning organic milk, ensuring that all milk labeled organic comes from certified organic farms only.
15. The National Grange opposes legislation that requires the labeling of milk/milk products as it relates to rBST.
16. The National Grange supports legislation that would extend the present pay and trust provision of the Packers and Stockyards Act to the dairy industry. We further support a national security fund, funded by processors or secured by bonding, to protect against processor bankruptcy if the fund does not preempt a stronger state program.
17. We recognize the need for dairy farm and dairy plant inspections to help ensure the highest quality of dairy products but insist that duplication of inspections by the several government entities (city, county, state and federal) be discontinued where possible. The several levels of government should agree to accept uniform and reciprocal dairy farm and dairy plant inspections.
18. The National Grange encourages the continued performance of dairy genetic evaluations for the dairy industry.

19. The National Grange at all levels encourages the Dairy Co-ops to voluntarily initiate a program that allows membership of the Co-op to vote on any program that takes money out of the farmer's pocket with a yes vote for approval
20. The National Grange urges the Food and Drug Administration to keep dairy as a separate food group and assure a place on the Food Pyramid or daily recommendations for dairy and meat products.
21. The National Grange should actively participate in education activities that are focused on informing the public of the value and protection provided by the pasteurization process.
22. The National Grange urges a change be made whereby Commodity Credit Corporation purchases of surplus dairy products are of dairy products that are in demand by domestic and international markets.
23. The National Grange supports legislation that would expand the definition of qualifying livestock eligible for the 50% bonus depreciation to include all dairy cows purchased by a dairy farm operator for business use.
24. The National Grange urges the reform of Federal Milk Marketing Order regulations so that excess milk can more easily be donated to food banks while still protecting milk processors from unfair pricing practices and protecting the price being paid to farmers for their milk.
25. The National Grange encourages fundraisers to purchase excess milk to donate to food banks.
26. The National Grange urges FDA to adopt the 2017 higher California Standards for protein and solids-not-fat fluid milk to help standardize and improve milk quality.

#### *Disaster Assistance and Risk Management*

1. The National Grange strongly supports the continuation of the multi-peril federal crop insurance program (FCI) that provides coverage on all program, non-program and specialty crops on a nationwide basis. We support changes in the FCI program that would include multi-peril insurance for all crops, including double-crop soybeans. We recommend that federal crop insurance coverage be updated annually to reflect the cost of production. We further believe that area coverage should be dropped, and a realistic production base should be established for each tract of land.
2. The National Grange urges the USDA Risk Management Division to take steps to accelerate the processing and payment of claims. We support using uniform standards for grading fruits for market, hail and other damage payments.
3. The USDA Risk Management Division should discontinue providing insurance coverage on a percentage basis. Coverage should be changed to insure crops on a dollar amount of loss per acre (or unit). The National Grange recommends removing any percent cut on estimated yields if weather conditions prevent timely planting. In addition, the USDA Risk Management Division should delete the current footnotes and should clearly state all exceptions, limitations and other provisions concerning crop coverage in the insurance policy.
4. The National Grange supports disaster aid relief that is based on individual rather than countywide losses. We urge the federal government to distribute surplus stored grain, at no cost and on a need basis, to limited resource farmers in disaster-stricken areas as well as make available a recourse loan on a need basis for damaged commodities.
5. The National Grange urges the USDA Risk Management Division to allow an option that will permit wheat producers covered by the USDA Risk Management Division's crop insurance to obtain a replant payment if replanting is required.
6. The National Grange urges the Farm Service Agency (FSA) and United States Department of Agriculture (USDA) to streamline procedures that will expedite implementation of the disaster and market loss program payments. Funding for these payments must be an "emergency" and not otherwise reduce any other program spending.
7. The National Grange supports the Farm and Ranch Risk Management (FARRM) account program allowing farmers and ranchers to deposit a set-aside amount of pre-tax dollars into an interest-bearing account to average income fluctuations.
8. A farm yield or county average yield history for any government farm programs shall not be influenced when a yield is less than 50% of the normal yield of a given crop and is caused by any God-given weather-related disaster (drought-heat, flood, wind, hail, etc.) that is out of a farmer's control.
9. The National Grange supports a compromise that will lower the federal crop insurance subsidy for farm operations with an adjusted gross income over \$750,000 or \$1.5 million for a married couple from 62% to 42% and opposes lowering the subsidy for farmers with an adjusted gross income of less than \$750,000. The National Grange further supports crop insurance subsidies for all agricultural producers and urges the Risk Management Agency to adequately train insurance agents about the Whole Farm Revenue Protection Program.
10. Because extreme weather conditions are devastating to producers, The National Grange encourages Congress to provide additional insurance programs for catastrophic losses to livestock, crops and timber not covered by existing insurance programs. The National Grange supports the continuation of the current funding levels for the Livestock Forage Disaster Program, Non-Insured Crop Disaster Assistance Program and the Conservation Reserve Grasslands Program in the 2018 Farm Bill.

#### *Family Farm Policies and Farm Preservation Programs*

1. The National Grange believes that policies that promote a viable family farm structure in America's agricultural sector are in the best interests of all citizens. We reaffirm our support for farm commodity programs that serve the best interests of producers and consumers. The purpose of the Federal Farm Program is to ensure Americans an adequate supply of safe and wholesome food, provide some income protection to the food producers and protect our environment by providing incentives for soil and water conservation. The National Grange supports programs that will stimulate interest and appreciation for an expanding agriculture industry that provides an abundant supply of reasonably priced food and fiber to meet our domestic needs and still export the products of one out of every three acres into the world markets.

2. The National Grange continues to strongly support family farms as an integral and important contributor to a stable agricultural production and rural communities. We call upon the President and Congress to support programs and policies that will help sustain and enhance family farms by increasing the net farm income, providing economic and tax incentives, and credit and/or tax credits for soil and water conservation - without escalating the advantages to non-farm investors. This includes recognizing Alpaca and Llama farming as a livestock business enterprise.
3. The National Grange believes that a family farm is a business or enterprise involved in the production of food, fiber and related products or services that is owned and operated by the members of a family who make the management and financial decisions and supply at least part of the labor. We urge USDA to modify its programs to provide additional assistance to beginning farmers and ranchers.
4. The National Grange request federal, state and county governments streamline the process to transfer farms and other small businesses from one family member to another, so that the cost of compliance and tax consequences do not prevent the transfer from occurring.
5. The National Grange will continue to support the use of lands for production of food and fiber, as long as the enterprises are operated under best management practices as established by the Farm Service Agency and the Natural Resource Conservation Service of the U.S. Department of Agriculture.
6. The National Grange encourages the U.S. Department of Agriculture to maintain the Farm Service Agency (FSA) and the Natural Resources Conservation Services (NRCS) as individual agencies in order to enhance their critical roles in supporting farmer-owned cooperatives and the rural communities they serve.
7. Federal, state, and local agencies should work for efficient economic development policies that treat the agriculture industry on equal terms with other businesses and industries, such as small farmers. The National Grange supports government rural development programs that provide local off-farm employment for rural people and that provide an improved income for small and medium-sized farms.
8. The National Grange supports public relation programs that disseminate accurate information on the efficiency and productivity of American agriculture, as well as the contributions it has made in providing an adequate supply of food and fiber, and the important role the food and agricultural industry plays in the nation's economy. A coalition of farm and commodity organizations working together on common problems is in the best interest of agriculture and rural communities. Such a coalition will strengthen and preserve the economic well-being of the family farm. The National Grange will continue to support and take an active role in maintaining an effective national farm coalition. We support efforts to organize farm-city meetings, farm-city visits, as well as efforts to enlist the cooperation of the news media in presenting agricultural news. We endorse the efforts of the Agriculture Council of America, Livestock and Meat Board, Animal Industry Foundation, National Milk Producers Federation, and other agricultural organizations in a united program to tell agriculture's story to the American public. We will cooperate with and support the efforts of other agricultural organizations in their educational programs pertaining to false, unproven, and misleading statements about the production and safety of agricultural commodities in order to present a true picture of environmentally safe farm and ranch best-management practices.
9. The National Grange supports efforts to enhance new economic opportunities for urban agriculture by supporting programs that provide mentorship and education.
10. The State Granges and the National Grange urge state and federal government to strengthen, expand, and enforce farmland protection programs to save our farmland for food and fiber production by designing tax laws to enable farm families to pass their land on to future generations. The National Grange supports a reduction in capital gains for retiring farmers who are willing to sell to beginning farmers. The National Grange will also work with Congress to find additional ways to contain urban sprawl through the use of purchasing development rights and conservation easements on agricultural land. However, we oppose the development of agricultural land trusts by financial institutions. We further oppose land purchase programs that involve the federal government as the purchaser and leaser of farmland.
11. The National Grange supports Farmers' Markets, family farms and Community Supported Agriculture (CSA's) that produce and sell homegrown agricultural products. Grange policy also supports the creation of pilot programs that endorse the buying of local fruits, vegetables and produce.
12. The National Grange urges the USDA to strictly enforce the Agriculture Foreign Investment Disclosure Act. We further oppose the use of public funds and/or the services of government agencies in the development of U.S.-based, foreign-owned agricultural enterprises.
13. The National Grange urges that a high-level staff position with appropriate resources, targeting the prevention and minimization of agro-terrorism be appointed as part of the Department of Homeland Security.
14. The National Grange encourages federal, state and local governments to protect agriculture against bio-terrorism.
15. The National Grange supports allowing farm parcels with less than the new 10-acre minimum, but which have a previous history in the federal farm program, to continue to receive federal farm program payments.
16. The National Grange strongly supports beginning farmer and rancher programs and urges USDA to modify its programs to give additional consideration individuals and families who qualify.
17. The National Grange supports price insurance protection for farmers that considers the diversity of crops, commodities, production methods, target markets and regional differences.

#### *Farm Labor*

1. In the organization of farm laborers on the West Coast and other farm labor-intensive areas, it is evident that the

consolidation of production units may lead to increased costs to the consumers and the producer because of possible disruptions caused by labor disputes. Therefore, while we continue to support the rights of individuals to organize, we call for sound approaches when dealing with labor problems in the agricultural industry. Labor and management in the food and agricultural industries should seek solutions to labor problems without striking. To further this goal, we recommend establishing procedures for negotiating labor disputes that will minimize disruptive labor strikes, especially during critical growing and harvesting periods. We also support a prohibition on the exclusive use of hiring halls for supplying agricultural labor and a prohibition on the use of secondary boycotts.

2. The National Grange supports a youth differential minimum wage rate for youth under the age of 18 so agricultural employers will be willing to employ such persons.
3. The National Grange supports legislation that will reduce federal funding of the Legal Service Corporation (LSC), a federal agency that provides legal services to the poor, including migrant farm workers. The LSC legal services should be limited to representing the poor in the courts, not an advocacy group for farm employees that investigate perceived violations of the Migrant and Seasonal Agricultural Worker Protection Act.
4. The Workman's Compensation Insurance Program should be the exclusive remedy for work-related injuries under the Migrant and Seasonal Agricultural Workers Protection Act.

#### *Farm Safety*

1. The National Grange supports a comprehensive farm-safety training program for operation of farm machinery, use of chemicals, and animal management to be funded through the Cooperative Extension Service at land grant universities.
2. Machinery and wagons should be equipped with reflector tape. Farmers should be encouraged to use lights and reflectors or a reflective material on all sides of tractors and machinery that is traveling on public highways.
3. The National Grange strongly opposes any attempt by the United States Department of Transportation (USDOT) to require that farmers, farm workers or ranchers have commercial driver's licenses (CDLs) to transport their crops and/or their landlord's crops on the public highways.
4. The National Grange supports public awareness initiatives for rural road safety involving the presence of agricultural equipment, to improve signage, education awareness and promotional efforts.

#### *Farmer Credit Programs and the Farm Credit System*

1. The primary function of the Farm Service Agency (FSA) Farm Loan officers should be a lender of first opportunity for farmers/ranchers and veterans seeking funds for agricultural purchases. Caution must be exercised to avoid granting undue advantage to large operations at the expense of family-sized farming units. The Grange urges the FSA to strengthen farm loan programs. Loan programs should provide needed short and long-term low interest credit for soil and water conservation. We support providing emergency loans and management assistance during times of natural disasters, commodity embargoes, or economic setbacks to expedite the application, review and granting process for these loans. During situations of economic stress facing FSA farm borrowers, we support maintaining the right of mediation on farm loan foreclosures. We further believe that the present owner/operator or beginning farmer should be given the first consideration of sale or lease in disposing of foreclosed farms.
2. The National Grange supports the separation of the truly agricultural production and farm ownership lending programs from lending programs generally associated with rural development such as the Business and Industry Loan Program, water and sewer loans, and non-farm family homes, to free Farm Service Agency county office staff to better supervise agricultural production loans. Business and Industrial Loan Guarantee Programs should be administered so they do not interfere with providing credit to family farmers.
3. The National Grange supports Farm Credit Services programs that will service the needs of farmers who are actively and directly engaged in the production of agricultural commodities. We support retaining the present tax exemptions that apply to the Farm Credit, Services, and we specifically recommend that the Farm Credit Services create policies and programs that will assist young and beginning farmers. We oppose efforts by the Farm Credit System to increase its activities regarding insurance coverage for its farm borrowers.
4. The National Grange recommends that the lending authority of the Farm Credit Services be expanded to address the total needs of rural communities, including rural economic development. We support the financing of on-farm and off-farm facilities that add value to agricultural commodities or provide services to agricultural production and marketing as well as financing for agricultural exports to all foreign markets. We further support FCS financing directed toward the development of rural enterprises engaged in the development of alternative uses for agricultural commodities and the development of rural infrastructures, such as water and sewer systems and the creation of state-of-the-art telecommunication systems for rural areas.
5. The National Grange supports requiring all agricultural lending institutions, including those under the Federal Reserve System, to consider the security and payment history of the applicant rather than relying entirely upon his/her cash flow.

#### *Federal Programs, Commodity Loans, Target Prices, & Farm Storage Programs*

1. The National Grange supports legislative and administrative actions that will obtain an economic return for the farmer on his investment of capital, labor, and management that is equal to that of the other segments of the economy. We support permanent programs for cotton, tobacco, peanuts, rice, corn silage, wool and mohair. Farm programs should be based on units of production, not acreage, and provide the individual farmer with maximum flexibility in their planting and production decisions. Target prices for major commodities should be based on economic need, set in relationship to the national average cost of production, and set at

- a level that will not encourage over or under-production. Marketing loan programs for major commodities, including soybeans and minor oilseeds, wheat, feed grains, cotton, rice, and other government-supported commodities, should provide for a loan rate that is set at the national average cost of production and that redeems the loan at the lesser of the original loan or the state's monthly, weekly, or daily average market price as determined by the Secretary of Agriculture. The difference between the regular loan rate and the marketing loan is to be retained by the farmer, provided the loan differential is subject to the \$50,000 payment limit. In the absence of a marketing loan, the traditional loan rate should be set at or near the cost of production.
2. The National Grange supports the Farm Storage Facility Loans Program (FSFL) and a farmer-owned reserve program that will place limits on the total amount of a specific commodity that is to be held in reserve as well as place limits on the amount of a commodity that any one farmer can place in the reserve. Storage rates should be commensurate with the cost of on-farm storage to enable farmers to be in a better position to take advantage of storage payments. The Secretary of Agriculture should have discretionary authority to waive the interest charges on reserve loans. We further urge that there be a strict monitoring of grain stored under loan contracts by county, state and national USDA officers, and State Departments of Agriculture.
  3. The National Grange supports port terminals and storage facilities for feed grains.
  4. The National Grange continues its long-standing support of the County and Community Committee System as the proper means of supervising and administering all farm programs. We pledge our full support for the federal government in investigating incidences of discrimination and in implementing action that will bring about changes to end racial discrimination in USDA policies. We urge stricter monitoring and enforcement of the USDA's farm programs in order to eliminate any abuse of farm program regulations. The Grange supports funding and staffing of local USDA programs and offices at levels that are consistent with congressional mandates. In meeting these mandates, we will support co-location and cross-agency use of personnel from various agricultural agencies within counties where offices now exist.
  5. The National Grange encourages the United States Department of Agriculture to actively enforce the Packers and Stockyards Act.
  6. The National Grange supports immediate legislation by Congress, enacting the "Constructive Receipt" exemption in the 2002 Farm Bill, and in all future Farm Bills, to exempt advance program payments from taxable income for the year they are received and, instead, treat those payments as potentially taxable income for the year they were intended to cover.
  7. The National Grange supports expanding funding in the 2018 Farm Bill to develop Broadband infrastructure in rural areas.
  8. The National Grange urges Congress to maintain funding for the National Organic Program and the Specialty Crops Block Grant Program through the 2018 Farm Bill.

#### *Food and Meat Inspection Programs*

1. The National Grange urges an increase in inspection on all livestock, feed, meats, dairy products and all by-products being imported from all countries to the United States for the protection of our animal industry. We support extending mandatory inspection regulations to seafood. We support legislation to implement pathogen detection and reduction strategies based on sound science that targets micro bio-contamination by pathogens that may be harmful to consumers. We request the USDA to strengthen the inspection process for meat and poultry that is being imported into the United States. However, we will oppose adopting "user fees" to pay for inspection services and or any changes in the system that will result in less than continuous inspection during processing of meat and poultry for human consumption.
2. The National Grange supports legislation to eliminate the unfair prohibition against the interstate shipment of state inspected meat and poultry products if the state meat and poultry inspection service is equal to or better than the federal meat and poultry inspection service system.
3. The National Grange urges Congress to fund, and the USDA to develop and disseminate educational programs relative to safe handling of foods.
4. The National Grange will seek legislation to have the uniform expiration date stamped, not coded, on all processed food.
5. The National Grange strongly urges that the USDA work with State Departments of Agriculture on a cooperative effort to enforce and inspect egg production, including egg grading and egg safety. Furthermore, the National Grange supports the effort where USDA and FDA work more closely together on food safety issues and that the two agencies should be given more power to order food recalls and close firms with records of serial contamination violations.
6. The National Grange supports legislation requiring more open notice to the consumer on products containing M.R.M (machine removed meat).
7. The National Grange opposes federal legislation that would presume that all food, including food produced for local market sale and consumption, should be treated as potentially hazardous and would require family farmers to produce and maintain onerous amounts of paperwork indicating what production inputs were purchased and when food produced on an individual farm will be consumed, in order to reach an unattainable goal of total traceability of all food produced in the United States, all the way through the food system. Additionally, the National Grange opposes federal legislation that would add an unwelcome layer of national bureaucratic paperwork to the business of producing food to meet local demand without demonstrating any commensurate food safety benefits to consumers, or cost reductions that benefit family farmers or their local customers.
8. The National Grange supports the establishment of additional mobile slaughterhouses meeting USDA standards.
9. The National Grange supports legislation that would eliminate the second inspection of bulk bin apples by the Department of Agriculture before being exported to Canada.
10. The National Grange supports a rewrite of the Veterinary Feed Directive regulations to exclude on-farm animal feed or storage products.

#### *Horticulture, Beekeeping and Honey*

1. The National Grange recommends continuing research to improve the development of more freeze-resistant nursery stock and methods of frost control.
2. The National Grange recommends that a realistic tariff be placed on imported honey to protect the financial position of the U.S. bee industry that is necessary for the pollination of U.S. agricultural crops. We support the enactment of federal laws that will provide for the inspection of honeybees and honeybee hives that are transported across state lines in an effort to better control the spread of honeybee diseases and parasites. We urge Congress to set up a "bee zone" and appropriate the necessary funds to stop or at least slow down the northward invasion of the killer bees. We further recommend that the USDA promote a program to educate the general public on the importance of bees, and on the destructive Africanized bees now invading the southern U.S.
3. The National Grange supports research efforts aimed toward solving the problem occurring with honey bee colony collapse. While a cause for this syndrome has not been identified, research strongly suggests that colony collapse may be caused by a combination of many factors, one of which is the prophylactic use of neonicotinoid pesticides in agriculture production. Therefore, the National Grange supports the designation of neonicotinoids as restricted use pesticides.
4. The National Grange supports continued efforts by all Granges to utilize Managed Pollinator Protection Plans to make their properties better habitat for pollinators and to improve honey bee health.
5. The National Grange encourages agricultural universities and pesticide companies to develop pesticides that are not harmful to bees and other beneficial insects.
6. The National Grange opposes the ban or prescription restriction of over-the-counter antibiotics for treatment of honeybees unless such restrictions are based on scientific information.
7. The National Grange supports increased research through the states in growing mushroom spawn.
8. The National Grange supports expansion of Federal Crop Insurance and Multi-Peril Insurance Programs to include horticultural crops.
9. The National Grange calls upon the Department of Agriculture, Land Grant universities, and industries to continue research efforts to determine expanded uses for surplus fruits and vegetables.

#### *Livestock and Poultry Disease Control*

1. The National Grange supports continued efforts to eradicate Brucellosis, Johne's Disease, Foot and Mouth disease, Bovine Leukemia virus, tuberculosis, and screw worms, as well as the continued monitoring of our nation's borders against re-infestation of these and other infectious livestock diseases.
2. The National Grange supports funding of increased research to control and eradicate poultry diseases and parasites. The National Grange also urges the USDA to work with State Departments of Agriculture on a cooperative effort to enforce and inspect egg production, including egg grading and egg safety.
3. The National Grange supports blood testing for Johne's disease in cattle. We further support the development of a test that can isolate the causal organism of Johne's disease in a shorter time frame.
4. The National Grange requests that health charts show freedom from TB and Brucellosis when dairy cattle are either sold or shown.
5. The National Grange opposes any ban on the use of antibiotics in livestock and poultry feed, unless the Food and Drug Administration or other agencies have scientifically established and determined that the use of these antibiotics are detrimental to human health. We oppose any proposals to reclassify over-the-counter animal drugs as prescription-only drugs unless scientifically based information suggests drugs should be reclassified on a drug-by-drug basis. We strongly recommend that all producers who use antibiotics, growth stimulants and other feed additives abide by the directions for the use of, and withdrawal provisions for, such products
6. The National Grange supports the establishment of firm guidelines for the management of bison and elk in the National Parks to control the spread of brucellosis and the high risk of undulant fever in humans.
7. The National Grange supports enforcement of puppy mill laws and regulations.

#### *Livestock Production and Animal Care*

1. The National Grange supports effective regulations to require interstate transporters of livestock to maintain transport vehicles in a sanitary condition in order to prevent the spread of disease.
2. The National Grange seeks a federal indemnification standby program for livestock and poultry diseases that are not presently covered. Such a program would apply only in cases that require condemnation and slaughter to eradicate or control the given diseases. We further support federal indemnity programs to indemnify farmers against loss through no fault of theirs in cases such as radioactive fallout, chemical contamination, and bio-terrorism.
3. The National Grange opposes any effort of the federal government to require individual identification of farm animals sold for processing.
4. The National Grange supports legislation and rulings that will strengthen the Packers and Stockyards Act to ensure producers have adequate price discovery, price transparency, and fairness in the marketing of U.S. livestock.
5. The National Grange supports exotic animal farming, provided it does not create a health hazard for the domestic livestock industry.
6. The National Grange continues to support the beef promotion programs. We urge State Beef Councils to join in cooperative

efforts to target Beef Check-off Funds to larger consumer audiences. However, the National Grange recommends that the National Beef Promotion Board consider eliminating the \$1 "Beef Check-off" on any animal that, when sold, the farmer would receive \$20 or less.

7. The National Grange strongly supports the livestock, poultry and dairy industries as suppliers of food and fiber that are so necessary for today's standard of living. We will continue to inform the public of the economics and importance of the livestock industry and their contributions to a balanced nutritional diet. We will continue to cooperate with the Animal Welfare Coalition to combat misleading statements made by animal rights organizations regarding animal agriculture.
8. The National Grange believes that the regulation of livestock and poultry care should be a state issue and does not support the establishment of federal standards.
9. The National Grange supports the use of lean fine textured beef in any beef products. The National Grange will work to develop a commercially-acceptable term for cell-based proteins and support USDA to be the regulatory oversight agency responsible for cell-based protein production.
10. The National Grange supports using animals in animal agricultural research in order to advance the science of animal husbandry in the most humane and economic fashion. The National Grange opposes efforts to declare animals to be "sentient beings," and all efforts to give animals the legal protections to which humans are entitled. We support the development of educational programs that demonstrate the advantages and humanness of modern animal husbandry. We oppose any legislation and/or regulations that would hinder good animal husbandry practices. Instead, we support developing a code of "best management practices" for the care and maintenance of agricultural animals and other animals that are under human control. We also support efforts to severely punish any individuals and organizations that commit illegal actions against animal agricultural producers and animal agricultural and biomedical researchers and facilities. We support the voluntary efforts of farmers in reducing the number of injured or downer animals. We encourage livestock auction markets to continue their programs of not accepting animals that are injured or are too weak to stand. We support the efforts of commercial processing facilities to continue the humane disposal of unwanted agricultural animals.
11. The National Grange strongly opposes legislation calling for the severe curtailment of the veal industry by such measures as eliminating confinement stalls and crates. However, the Grange will work with the National Veal Association to correct or remove the veal production practices that are not within the guidelines of best veal management. We further recommend that a USDA grader be assigned to all veal calf slaughtering plants, so that a farmer or seller receives a fair price from the packing plant for their veal based on the grade that was determined by the inspector and not the plant manager.
12. The National Grange supports rodeos, the use of animals in rodeos and the great heritage rodeos represent.
13. The National Grange supports efforts to deal with concentrated animal feeding operations issues emphasizing sensible control and enforcement, the development of nutrient management plans, developing cost efficient odor reduction technology, and the zoning of agricultural districts. We continue to support the development and use of "the best management practices" for the handling of animal and poultry wastes. We support liability protection for farmers who follow the appropriate regulations and "best management practices." We also support strict laws that regulate large livestock enterprises, so that they apply nutrients according to an approved nutrient management plan to assure that excess nutrients will not contaminate the waters of the United States. We continue to support strict construction standards to new earthen manure lagoons and set a phase-in period after which existing lagoons would have to meet appropriate standards. We support prohibiting indefinite storage of animal waste by requiring treatment according to federal wastewater standards, if the waste is not applied to land or used in another environmentally sound matter. We further support regulations or other provisions to prevent animal owners from using contracts or similar arrangements to avoid responsibilities for animal waste management. We support imposing tough new penalties on the worst polluters. However, we believe that the implementation of any rules and regulations forcing compliance with the Clean Water Act for Concentrated Animal Feeding Operations should not become mandatory until all technical expertise and funding is secured and available for the timely compliance with these directives.
14. The National Grange believes the Environmental Protection Agency should not be empowered or allowed to levy fines, fees, or any other monetary pressure based on natural emissions of livestock that may ultimately affect greenhouse gases.
15. The National Grange at all levels seeks legislation to accomplish a national identification for livestock and poultry. The program should include safeguards to protect the privacy of the farmers and the Grange will work at all levels to have farmer privacy provisions included in the national identification for livestock program legislation.
16. The National Grange encourages all livestock operations to follow the goals of the Beef Quality Assurance Program and the Pork Quality Assurance Program. These actions will help manage their herds with respect to the following:
  - a) proper use of pharmaceuticals;
  - b) management of their feed sources;
  - c) low stress animal handling techniques;
  - d) proper housing and living standards;
  - e) proper transportation techniques and transport space requirements;
  - f) culling strategies to maintain optimum herd health; and
  - g) numerous other management tools that help to make the animals healthier, more comfortable and as a result, more productive.

#### *Marketing and Cooperatives*

1. The National Grange opposes any repeal of the Capper-Volstead Act of 1922, and strongly supports agricultural cooperatives and the special legal status granted to agricultural cooperatives under this Act.
2. Agricultural cooperatives should be owned and controlled by farmers. We support tax law changes that would allow cooperatives

- to raise additional equity capital to expand cooperative operations as long as such equity does not undermine farmer ownership and control of their cooperative. We support allowing grain-marketing cooperatives to receive commodity loans.
3. The National Grange supports purchasing, processing, and marketing rural electric and telephone cooperatives that are providing high quality products and services to their members.
  4. The National Grange urges the USDA and other appropriate agencies to continue their educational programs for farmers on the use of the futures market through hedging and other marketing options to increase farm profitability.
  5. The National Grange continues to support the efforts of commodity organizations to improve the promotional activities for their products.
  6. The National Grange endorses federal and state legislation to protect the bargaining status of cooperatives. Purchasers should be required to recognize and negotiate in good faith with the designated representatives of their producers. The right of producers to control by democratic means the selection of bargaining cooperatives to represent them should be guaranteed by law. Processors of agricultural products should be prohibited from intimidating growers or withholding growers' contracts because of membership in a bargaining association.
  7. The National Grange supports extending the Agricultural Marketing Act of 1937 to include all agricultural commodities. Following the marketing order approval by a referendum of respective producers, regulations covering allocating aggregate market supply among markets in time, space, and form; trading practices; grading standards; container and other terms of sale should be issued under the order. The USDA should have the administrative responsibility to implement Federal Marketing Orders.
  8. The National Grange urges the USDA to cooperate fully with the states in developing direct farmer to consumer marketing programs.
  9. The National Grange recommends that the provisions of any check-off be approved by a majority of the producers of that commodity in a national referendum. Following producer approval, the programs shall be mandatory, without refunds, and no more than 5% of the check-off funds can be used for administrative costs. The funds shall be under the control of the promotion board with oversight responsibility in the U.S. Department of Agriculture.
  10. The National Grange supports a study to determine the feasibility of a check-off program for wheat to fund a research, educational and promotional program on the nutritional benefits of wheat flour products.
  11. The National Grange supports increased research by government and industry to discover and develop new uses and markets for agricultural commodities, including the development of value-added products with the aid of non-farm groups. We further support a national agricultural marketing policy which would encourage farmers to retain important production and marketing decisions in their own hands and that would encourage domestic regional marketing cooperatives to develop a cooperative marketing federation that is capable of entering into the international market for selling farm commodities.
  12. The National Grange supports integrating and coordinating existing state and federal governments' export marketing programs, such as the Market Access Program, the Market Promotion Program, and other similar programs that are designed to develop and expand foreign markets for U.S. farm products. We believe that these programs should be limited to domestic firms and targeted to new exporting companies, small businesses and individual farmers who sell directly into export markets. We urge Congress and the USDA to reinstate the Export Enhancement Program in order to meet the price competition in world markets. New efforts should be made in the development of marketing programs to expand agricultural exports that encourage the participation of new export marketing groups, such as farm cooperatives and export trading companies. Farmers selling commodities directly into the export market should be subject to all of the protections and restrictions that apply to corporations and other commercial ventures that are selling into the export market.
  13. The National Grange supports retaining present state standards for maple syrup and opposes any mandatory federal regulations that would be less stringent than present state regulations.
  14. The Grange vigorously opposes any effort that would abolish the current practice of carcass quality pricing of beef and swine in favor of one value fits all price concepts.

#### *Production Management Programs*

1. The National Grange supports voluntary production control programs as a way of balancing supply with demand. Production control programs should be based on controlling the number of bushels (amount of product) allowed to qualify for price supports and by the requirements to set aside a specific percentage of a farm's crop production. We support eliminating any offsetting compliance requirements between farms related to production control programs, but support maintaining cross compliance requirements for crops grown on the same farm. We support paid production diversion with payments made in cash or in-kind, if farmers first comply with set-aside and other non-paid production control programs. We further recommend that any land diverted from agricultural production under farm programs remain eligible for conservation cost-share practices. Program benefits, such as loans, deficiency payments, etc., should be set at a level that is sufficient to accomplish the program's objectives and should be made available only to producers who comply with the program's requirements.
2. Production yields should be based on the proven yield of the land on that farm. We support allowing farmers to re-establish their proven yields, but we further support requiring all crop production bases to be established using a soil suitability criterion rating rather than past crop history and changing farm programs, so that a farmer will not lose their farm base from under-planting.
3. The National Grange supports the concept of a Cover Crop Program that is voluntary and incentive-based for all farm programs that involve government funding.
4. Surplus food purchased by the Government should in no way be sold at reduced prices to be in competition with ongoing farm prices. Instead, we encourage surplus foods to be given to charitable organizations. The National Grange encourages

increased USDA purchases of surplus agriculture products to be given away through various food assistance programs.

#### *Research and Extension*

1. The National Grange strongly supports the cooperative Extension Service (ES), as well as the land grant universities in their effort to maintain a quality extension program in their respective states. The ES should continue to provide leadership to the agricultural and rural sectors with programs directed primarily to improving the quality of rural life. We recommend renewed federal funding for the State Farm Safety Specialist position and farm safety programs, establishing a job retraining program for displaced, disabled, or injured farmers and ranchers, maintaining a viable 4-H Program, and increased funding by all government entities so that the ES can provide information on alternative and sustainable agricultural practices and marketing methods.
2. The National Grange continues to strongly support adequate funding for basic and applied agricultural research from federal, state and private sources. We encourage state departments of agriculture and state experiment stations to conduct research designed to achieve the same results. We specifically recommend full funding of the federal share of agricultural research, especially in cases of emergencies when increased research is required. We strongly support additional research to provide the technology that is pertinent to small-scale agriculture, including more emphasis on research in the areas of marketing, insect control, disease control, energy use, improved product quality, and soil and water management.
3. The National Grange supports increased funding for the National Seed Storage Laboratory in an effort to preserve plant material and seed germ plasma.
4. The National Grange will support the goals of sustainable agriculture research and education programs that will promote the most efficient and effective Best Management Practices (BMP) to reduce soil loss due to erosion, protect water quality from degradation by substance discharge from agricultural operations, and to identify methodologies that will result in higher profitability from production through market development.
5. The National Grange supports expansion of precision agriculture practices to include poultry and livestock production to make animal nutrition more effective, reduce the amount of waste, and reduce the nutrient levels in the waste.
6. The National Grange endorses organic farming research and education.
7. The National Grange urges continued research on the benefits and risks of using biosolids as agricultural fertilizer.
8. The National Grange encourages USDA and state agriculture experiment stations to identify and promote fire-resistant plants and encourage their planting in fire-prone areas.

#### *Tobacco Policy*

1. The National Grange recommends that the U.S. Secretary of Agriculture use simple regulations in requiring cigarette manufacturers to report only the total use of domestically-grown and imported tobacco by class or kind of tobacco, thus leaving manufacturers the flexibility to adjust blends for their various brands of cigarettes to meet their customer demand.
2. The National Grange supports programs at the federal level to help tobacco farmers diversify their farming operation by raising and marketing of alternative crops and will support new research programs to discover new uses for tobacco, such as a new source of protein.
3. The National Grange supports negotiations, regulations, or legislation to control the importation of low grade, inferior quality tobacco.
4. The National Grange supports steps to make U.S. tobacco more competitive in the world market. We urge that all tobacco that is exported as U.S. tobacco must be certified as 100% U.S. tobacco.
5. The National Grange continues to support the Tobacco Auction System and the necessary improvements to modernize the Auction System to meet new packaging ideas and technology in order to facilitate the movement of tobacco through the Auction System.
6. The National Grange opposes any proposals to ban the use of menthol in cigarettes.

#### *USDA Responsibilities, Authorities & Organization*

1. The National Grange strongly supports the U.S. Department of Agriculture remaining as an independent agency with the Secretary of Agriculture as a member of the President's Cabinet.
2. The National Grange supports the repeal of the USDA's personnel regulations that forbid USDA employees from actively participating in the meetings and other activities of farm organizations, from holding office in farm organizations, from participating in membership recruitment campaigns, or from acting as a volunteer financial or business agent of a farm organization. This should not change or alter the USDA's other regulations concerning general employee conduct.
3. The National Grange strongly urges the USDA to devise plans to reduce the paperwork for farmers to participate in federal farm programs. We urge the USDA and its agencies to format all reports, applications and paperwork that are to be filed by farmers, so that they may be filled out via computer media using commonly accepted word processing programs and returned to the agency for processing.
4. The National Grange urges the USDA to increase oversight of the Supplemental Nutrition Assistance Program (SNAP) to decrease fraud and ensure that SNAP is only used for its defined purposes.
5. The National Grange urges the USDA to review and recommend changes to current EBT (electronic benefit transfer) eligibility guidelines in order to avoid unintended consequences to the beneficiary.
6. The National Grange supports legislation to simplify the business application of the current Supplemental Nutrition Assistance Program (SNAP) so that businesses may more easily become participants.

*Miscellaneous*

1. The National Grange supports the agricultural weather forecasting service.
2. The National Grange continues to support the development of aquaculture. We urge aqua cultural farmers to use care and caution in the placement of rearing pens in public waterways so as not to interfere with common waterway uses.
3. The National Grange supports legislation that would ensure a producer the "right to harvest" any legally planted crop regardless of any environmental or regulatory action arising between planting and harvest time.
4. The National Grange supports the production of industrial hemp when production is done within the guidelines of applicable state and federal laws.
5. The National Grange opposes EPA regulations that concern dust blowing attributed to agricultural operations.
6. The National Grange actively supports revising the standards, so that all meats in the national school lunch program are required to meet the new standards used by the United States Department of Agriculture Food Safety and Inspection Service.
7. The National Grange urges the United States Congress to direct the USDA Food and Nutrition Service to amend their rules to allow consumption of grapes, whole milk, flavored milk and potato products by students in school meal programs and to insert that language into the 2018 Farm Bill.
8. The Grange at all levels support initiatives to encourage the use of farm structures as a base for communication antennas.
9. The National Grange seeks a more aggressive position on the issue of irrigation water shared by the U.S. and Mexico on behalf of the U.S. interest and that the period of payback for the excess usage of irrigation water to be limited to two years rather than five years.
10. The Grange supports legislation that offers a form of reimbursement of student loans for large animal veterinarians committing to work in private practice.
11. The National Grange supports the market availability of GPS (Global Positioning System) tracking devices to monitor the locations of agricultural/farm equipment.
12. The National Grange supports legislative efforts that would allow individuals involved in agriculture as well as independent mechanics to have access to diagnostic software, information and other necessary technological tools used to repair modern farm equipment.
13. The National Grange opposes the expansion of the definition of areas considered "navigable waters" as was defined under the 1968 Clean Water Act.
14. The National Grange urges all appropriate agencies of federal, state and local governments to expedite the harvest and removal of beetle-kill trees from all public lands.
15. The Grange will support a cotton program that provides for a marketing loan at a level that will encourage the continued exportation of cotton, as well as research into the eradication of detrimental insects.

## POLICY STATEMENT

The National Grange supports Broadband internet service for all areas of the United States. Work should continue updating service maps, which have proved an obstacle to connectivity, and utilizing the Rural Digital Opportunity Fund and encourage private enterprise cooperation to obtain high speed internet for every family.

The importance of retaining a Tax-Exempt Status for all qualified Granges must be maintained. We encourage the National Grange to provide state Granges with information via electronic or paper communication of filing procedures for the necessary 990N form.

The National Grange encourages every individual to participate and provide requested information in the current census when taken every ten years. Using the new information being attained from the 2020 census, the National Grange supports legislation that the Federal Government create an updated formula for the current poverty level.

The National Grange encourages the SNAP and WIC Programs to cover necessary products for recipients with babies.

## PRESENT POLICY: CITIZENSHIP

### *Broadcasting*

1. The National Grange supports the concept of public broadcasting and urges improved service for our rural communities. The National Grange supports continuing the present level of federal funding for the Corporation for Public Broadcasting through self-supporting sources of financing.
2. The National Grange supports the National Rural Electric Cooperative Association in its efforts to help rural areas receive satellite TV reception. The National Grange supports legislation to ensure that satellite dish owners in rural areas pay no more for their service than cable TV subscribers in the cities do. The Grange supports regulations requiring satellite television companies to provide rural customers access to more than one predetermined set of local channels including local public access channels in the customer's region.
3. The National Grange supports the continuation of religious broadcasts on radio and television.
4. The National Grange urges Congress to maintain the Federal Communications Commission (FCC) as a watchdog agency to protect the public from unfair practices and monopolies. We oppose media mergers where one company can control all forms of media. We encourage the FCC to provide ample opportunity for new media companies and medium-sized media companies to be able to compete.
5. The National Grange supports elimination of the foul language, obscenities, and vulgar images used on TV, radio, or public places and fully supports the increased penalties for violations imposed by the FCC. The National Grange supports legislation to prohibit advertising the use of the "900" number during children's shows.
6. The National Grange lobbies the FCC to ban the use of emergency vehicle sirens in all radio advertisements to prevent hazards and confusion on the roadway.
7. The National Grange urges Congress and the Federal Communications Commission to require broadcast media to maintain a constant volume level during an entire broadcast, including commercials.
8. The National Grange supports the current financial assistance to support quality, commercial-free educational children's programs.

### *Elected Officials*

1. The Grange favors changing the term of office of Congressional Representatives from two to four years. We also favor a maximum of 12 years consecutive service for Senators and Representatives.
2. The National Grange supports a ban on automatic salary increases for elected officials and Members of Congress, separate from those of judges and other federal government employees. All Congressional pay raises should be considered by Congress during

normal business hours and on their own merits as a separate entity to be discussed in open committee hearings and voted on by roll call with a three-fourths majority voting in the affirmative as opposed to being attached to an unrelated piece of legislation. Any approved Congressional pay increases should take effect at the next session of Congress. The National Grange further favors strengthening the law limiting the number of gifts and money that members of Congress can accept.

3. The National Grange urges members of Congress to participate in both Social Security and the Federal Employee Retirement System (FERS). We further recommend that all laws, including employment laws, apply to Congressional members.
4. The National Grange opposes rules that permit members of the United States Senate to block other members' bills from being placed on the floor. However, should this practice be permitted, the dissenter should be required to disclose his/her identity and reason for dissent.
5. The National Grange supports an amendment to the United States Constitution that should read: "Congress shall make no law that applies to the citizens of the United States that does not apply equally to Senators and/or Representatives, just as Congress shall make no law that applies to the Senators and/or Representatives that does not apply equally to the citizens of the United States, including health care insurance programs and rates." Further, when the federal government is shut down because Congress has failed to pass proper funding, Congress should not be paid for the period of the shut-down.

#### *Elections*

1. We believe that projections and/or final results of national elections should not be reported or broadcast by the news media until the polls have closed in all western states.
2. The National Grange urges all of its members to exercise their right to vote. We further recommend that all ballots and pertinent instructions for all elections be printed in the English language only. Proof of citizenship is to be required at the time of voter registration with federally approved photo identification when voting. We oppose same day registration voting laws.
3. The National Grange supports the current Electoral College system for presidential and vice-presidential elections.
4. The National Grange supports a change in the qualifications for appointment as a United States Supreme Court Justice requiring the candidate to be a citizen of the United States of America.
5. The National Grange supports the federal campaign law that requires public disclosure of the names of persons who contribute \$1,000 or more and anyone who contributes \$100,000 or more to be posted on the Super PAC website within 24 hours and must stay on the website until the completion of the campaign.
6. The National Grange opposes United Nation representatives at any U.S. polling location.
7. The National Grange supports laws requiring individuals to show appropriate/proper identification at the polls and/or anyone requesting an absentee ballot, to verify they are a legal voter within this country and proper state.

#### *Government and Legislative Affairs*

1. The National Grange believes:
  - a) that all government-mandated programs and agencies must contain "sunset" provisions, including a target termination date;
  - b) that systematic and continuous reviews of all mandated programs be made periodically by an appropriate board of review;
  - c) that all mandated programs must be funded and financed by the government of origin and that at any point funding is not provided, the mandate will be removed.
2. The National Grange strongly opposes the use of any commission, council, or other consortium of non-elected appointees to create legislative mandates that Congress must adhere to, that are not subject to judicial review or the American system of checks and balances.
3. The National Grange supports the present status of Washington, D.C. as both a "federal city" and the nation's capital, which is not affiliated with any state government and not a separate state in and of itself. We further favor restricting the Congressional delegates from non-tax paying territories of Guam, American Samoa, the U.S. Virgin Islands, and Puerto Rico to being non-voting members of Congressional committees.
4. The National Grange supports legislation that would specifically make protection of private property rights and compensating private property owners for property that is taken for public use as a part of the federal statutes. The National Grange supports strengthening the Constitution's guarantee that a person owning property has the right to control such property, including restricting trespassers, and excluding liability for injuries to a trespasser.
5. The National Grange supports a constitutional amendment that allows the President to exercise a line item veto for budget appropriations and authorization bills.
6. The National Grange opposes all legislation limiting the individual's ability to lobby and communicate with our elected officials either directly or through organizations such as the Grange.
7. The National Grange supports the continuation of public tours of the White House.
8. The National Grange supports allowing military recruiters to bear arms inside recruiting centers.
9. The National Grange supports the inclusion of a question on census forms as to whether a person is a U.S. citizen.

#### *Government Service*

1. The National Grange supports efforts to improve the collection and dissemination of accurate and timely statistical data by all federal agencies. The National Grange encourages legislation to require the Commerce Census Bureau to return to

- inclusion of a separate category for farm families.
2. The National Grange supports legislation that would make compliance with regulatory requirements regarding equipment and services for volunteer fire departments contingent upon providing financial assistance to those volunteer fire departments.
  3. The National Grange encourages the federal government to provide assistance immediately following the successful request by a State Governor for a declaration of a national disaster in the United States.
  4. The National Grange supports legislation to reclassify public safety telecommunicators and dispatchers to the same protective first-responder classification as police and firefighters.

#### *Government Spending*

1. The National Grange strongly advocates for Congress to put aside partisan politics to pass a balanced budget, prevent federal government shutdowns and ensure a permanent solution to our deficit problems. The National Grange believes the issuance of Social Security, other critical social service monetary supplements, military salaries, benefits, or expenses should not be affected, delayed or reduced, should a federal government shutdown occur.
2. We support efforts at all levels of government to reduce costs and excessive paperwork, to review regulations, and to generally reduce any undue influence of government on the private sector. We favor the review of all tax supported federal incentive programs for possible reduction or elimination. We encourage all levels of government to downsize and/or eliminate government jobs where possible.
3. The National Grange supports the enforcement of regulations to assure that government programs abide by the bidding process, when appropriate.
4. The National Grange encourages Congress to eliminate the United States Postal Service requirement to pre-fund retiree health insurance benefits.

#### *Native Americans*

1. The National Grange supports the continuation of all rights and privileges enjoyed by Native Americans as U.S. citizens, including fulfilling all responsibilities associated with such citizenship, which includes being subject to the same laws as other citizens.
2. The National Grange supports laws to prevent the robbery or desecration of Native American graves and burial sites.

#### *Patriotism, Prayer, and Religious Observances*

1. The National Grange strongly supports maintaining The Star-Spangled Banner as our National Anthem. The National Grange supports legislation to maintain the wording of the current Pledge of Allegiance including the words "Liberty," and "under God." The National Grange believes that the Pledge of Allegiance should be recited in every U.S. school classroom and by members of the U.S. Senate and House of Representatives during their opening sessions each day.
2. The National Grange favors making new National Veterans Cemetery facilities available.
3. The National Grange believes the American flag be treated with all due respect in accordance with recognized flag etiquette and protocol. We support the purchase of American flags made in the USA and made from domestically produced materials.
4. The National Grange opposes any attempts by any federal, state or local government agency to dictate membership qualifications for any social or fraternal organizations.
5. The National Grange joins with the American Legion, Veterans of Foreign Wars, and other Veteran Service organizations along with churches and individuals to protect our religious freedoms and the First Amendment. We support the words "In God We Trust" remaining on our currency and as our national motto.
6. The National Grange supports maintaining November 11th as Veterans Day.

#### *Social Security*

1. The National Grange encourages Congress to positively reform the Social Security System to ensure its future solvency. The National Grange urges the continuing investigation of all Social Security programs ensuring that only those who are eligible are receiving benefits. The National Grange supports using Social Security funds for Social Security programs only. We oppose the utilization of any funds from the Social Security Trust Fund to achieve a balanced federal budget or for any purpose other than Social Security benefits.
2. We ask Congress to proceed with caution when proposing changes to Social Security and we request that the public be provided with explicit and concise information concerning any major changes in the Social Security system.
3. The National Grange urges Congress to revise Medicare, Medicaid, Social Security, and other programs for the elderly and handicapped so that an individual's benefits will not decrease if they decide to marry.
4. The National Grange favors making Social Security benefits completely exempt from personal income taxes. The National Grange supports legislation that would remove all Social Security "Earning Limits" for individuals.
5. The National Grange supports any and all federal bills that would eliminate the Government Pension Offset and Windfall Elimination Provisions, therefore restoring full Social Security benefits to public employees and surviving spouses.
6. The National Grange supports reform that would expedite the application for, and processing of, Social Security Disability benefits for all clients.
7. The National Grange lobbies to amend the Social Security Act to assure that a beneficiary is paid for the month of his or her death. However, the Grange encourages the Social Security Administration to remove deceased persons from the rolls of

social security and terminate all benefits to that person; this includes being more diligent in updating its Death Master File.

8. The National Grange encourages legislators to raise the Social Security Death Benefit to at least \$500.

#### *Social Welfare Programs*

1. The National Grange urges enforcement of current Supplemental Nutrition Assistance Program (SNAP) regulations and encourages related social agencies to assist SNAP recipients with information about foods that meet their nutritional needs. The National Grange asks the SNAP program to allow essential non-food personal articles, such as laundry soap and toilet paper, to be purchased using SNAP and opposes replacing SNAP with cash distributions. The National Grange further urges Congress to reduce current welfare rolls and take steps to reduce fraud.
2. The National Grange supports requiring additional means to facilitate the identification and location of each child's parent for purposes of welfare recovery.
3. The National Grange supports the continuation of the WIC (Women, Infants, and Children) Program.
4. The National Grange supports legislation that would require drug testing to be included in the eligibility requirements for welfare recipients.
5. The National Grange supports having well-advertised places in our communities/counties where residents can safely dispose of outdated or unused medicines, vitamins and/or supplements, etc.
6. The National Grange urges Congress to update the Department of Energy code that governs the Energy Weatherization Program for low income families.

#### *Telecommunications*

1. The National Grange supports legislation to promote an integrated telecommunications network to assure widely available, high quality telecommunications to all of the nation's users at a reasonable cost as was originally intended by the Communications Acts of 1934 and 1996. We further believe that access to affordable and reliable broadband Internet service is vital to preserving the quality of life in rural America. The National Grange supports the modernization of the Universal Service Fund (USF) to secure last mile (wireline or wireless) connectivity for rural Americans to broadband, thereby creating jobs, enhancing the economy, and boosting local businesses. The National Grange supports a national broadband policy that will:
  - a) provide federal government funding for rural broadband infrastructure improvement;
  - b) remove the regulatory uncertainty that has deterred broadband investment in rural America;
  - c) provide the incentive for private businesses, government agencies, and private citizens to invest in rural broadband deployment, stimulate broadband competition and impose reasonable taxation for private investment in rural broadband infrastructure improvement;
  - d) spark the creation of new service providers and new innovations that will assist a host of new technologies becoming more affordable, including cutting-edge wireless technologies that promise to deliver broadband to even the most remote parts of our country;
  - e) reallocate unused government agency spectrum (broadband connectivity) for commercial and rural broadband connectivity; and
  - f) allow Public Utility Districts (PUDs), or other public utilities to get involved in establishing the wireless communication systems.
2. The National Grange supports continued strict enforcement of the Federal Communications Commission's national "Do Not Call List." The National Grange supports expansion of the Do-Not-Call list to include computer dialed political telemarketing, including, but not limited to, charities and political groups. No one calling a household for commercial or charitable request reasons may use a restricted number or call a phone with a restricted number. Telemarketers, as well as computer-generated or robocalls, should be prohibited from calling cell phones. The National Grange supports the Robocall Enforcement Improvement Act.
3. The National Grange recognizes the importance of the Universal Service Fund (USF) to the American public, especially in rural communities. The National Grange urges the Federal Communications Commission (FCC) to approve any petitions by wireless telephone companies that demonstrate their ability to meet the obligations of Lifeline service, especially in rural areas, so they can serve low-income consumers with wireless Lifeline telephone service through the federal Universal Service Fund. Further, the National Grange opposes measures that would limit or reduce the Federal Communications Commission Lifeline Program.
4. The National Grange will work with telecommunications coalitions to encourage an increase in the number of cellular towers and new technologies where needed in rural America.
5. The National Grange urges U.S. Congress to expedite funding for a resilient, mobile, wireless, data network between local and state first responders and emergency personnel with federal emergency agencies, such as FEMA, Homeland Security and the National Guard.
6. The National Grange urges Congress to appropriate the necessary funding to combat the continuing cyberspace warfare threats to the United States in the 21st century.
7. The National Grange opposes any relinquishing of control of the American internet access to the UN or any foreign entity.

#### *Veterans Affairs*

1. The National Grange supports the continued operation of all Veterans' Hospitals and veterans' eligibility for medical care and

- benefits. We further support continuation of the current Disabled Veterans' Compensation Schedule, maintaining the current benefits and the criteria for qualifying. The National Grange encourages additional federal funds to be appropriated for the Veterans' Administration for the purpose of improving the service and care of servicemen in the Veterans' Administration hospitals.
2. The National Grange believes disabled veterans should remain eligible to receive all their service-related retirement benefits and any other benefits to which they are entitled without offsets or reductions. Also, the National Grange supports legislation requiring the U.S. Veterans Administration to pay all benefits to veterans, effective the first day of the month that the veteran was diagnosed with the service-connected presumptive condition. Further, the Grange calls upon Congress to support the inclusion of 100% service-disabled veterans in the Space Available Program operated by the Air Mobility Command.
  3. The National Grange urges all levels of government to protect the parental rights of military personnel, such as custody or visitation rights, while serving in combat on active duty.
  4. The National Grange supports allowing all veterans registered in the Veterans Administration health care system and residing in nursing facilities, both private and state owned, to receive their drugs through the VA pharmacies at the patient's co-pay price prior to admission.
  5. The National Grange urges the Department of Veterans Affairs to continue the use of Veterans Administration Medical Centers and allow Veterans to seek community based medical attention. All veterans' medical services be paid by the Department of Veterans Affairs Services.
  6. The National Grange supports legislation allowing for a separate 10% disability rating by the Veterans Administration for each ear when veterans suffer from Tinnitus as a result of military service.
  7. The National Grange urges the Department of Veterans Affairs (VA) to efficiently use their resources to resolve the serious backlog of veteran's benefit claims.
  8. The National Grange supports the extension of the Veterans Administration Mortgage Protection Life Insurance to all service-connected veterans who are rated as permanently and totally disabled.
  9. The National Grange supports legislation to increase to \$50,000 the maximum coverage a service-connected disabled veteran can purchase under the Service-Disabled Veterans Insurance Program.
  10. The National Grange supports legislation that would direct the VA to select a VA medical facility to serve as the national center for research on the diagnosis and treatment of health conditions of biological children, grandchildren and great-grandchildren of service members exposed in combat to toxic substances.
  11. The National Grange supports legislation to increase active duty service members' payroll deduction to one dollar per month for the Armed Services Retirement Home.
  12. The National Grange supports legislation to extend "Comprehensive Assistance for Family Caregivers" to caregivers of all war era veterans.
  13. National Grange supports legislation that would direct Veterans Affairs to assist female veterans to reintegrate with their communities after discharge from the Armed Forces.

#### *Miscellaneous*

1. The National Grange supports programs that strengthen families and advocates for educational programs that emphasize the importance of families and the prevention of family dysfunction.
2. The National Grange supports all rights that are granted in the United States Constitution and Bill of Rights and urges Congress not to consider legislation eliminating or repealing these rights.
3. The National Grange favors a Constitutional amendment to make English the official national language. The National Grange supports legislation to require that English be used on all government forms throughout the United States.
4. The National Grange favors the establishment of a new branch of the Smithsonian dedicated to the nation's food and farm heritage.
5. The National Grange opposes government regulations that infringe upon personal nutritional choices within our homes and diets.
6. The National Grange supports the National Council on Disabilities efforts to ensure rights of parents with disabilities to raise children.
7. The National Grange urges Congress to reject the United Nations "Small Arms Treaty".
8. The National Grange urges elected officials to address ongoing problems facing homeless and at-risk youth and to make more resources available day and night until they can become self-sufficient.
9. The National Grange supports legislation that would allow distribution from Individual retirement accounts as needed without required minimum distributions based on age.
10. The National Grange encourages the Citizens Stamp Advisory Committee to issue a Plymouth 400<sup>th</sup> Anniversary of Plymouth Colony stamp.
11. The National Grange supports the National Weather Service and other alert systems that relay important life-saving storm warnings over streaming services.

#### **PRESENT POLICY: TAXATION**

##### *Business, Investment, Capital Gains, and Inheritance Taxation*

1. The National Grange supports legislation to permit farmers to use the method of depreciation that is most suitable to the uncertainties of their businesses. We support depreciation schedules for agricultural capital assets that accurately reflect the useful life of those assets. In particular, we support a depreciation schedule of 15 years for single purpose farm

structures. The National Grange supports legislation to eliminate the reporting of government funded environmental and conservation cost-share monies as income to the recipients. We oppose the use of income tax write-offs from farming to reduce the amount of taxes that are owed on the earnings of non-farm businesses or professions.

2. The National Grange supports an Investment Tax Credit or accelerated depreciation with a \$100,000 value eligibility limit.
3. The National Grange supports preferential treatment for capital gains income. We support the abolishment of the capital gains tax. Until then, we support indexing the basic value of an asset, so that only the real gain, and not the inflation value, is subject to the capital gains tax. We support excluding capital gains up to \$500,000 from sale of agricultural lands from taxable income. We further support excluding all of the proceeds on the sale or exchange of qualified farmland development rights to a tax-exempt conservation organization from all capital gain taxes. We further support allowing farmers to invest any un-excluded capital gains from the sale of real and personal property into tax-deferred accounts, such as IRAs.
4. The National Grange believes that employees should not be liable for un-remitted income or FICA taxes if the employer properly withheld those taxes from the employee's pay but then failed to make the proper payments to the IRS or the state.
5. The National Grange opposes the enactment of any federal tax on securities transactions.
6. The National Grange supports the uniform application of all timber depletion allowances in the tax code to all timberland owners regardless of the size of their timberland holdings.
7. The National Grange supports legislation abolishing the federal estate tax, especially for small business and agriculture as long as their ownership stays in the family and the farm stays in productive agriculture. We support retaining current provisions for a full stepped up basis on inheritances. We favor using the current use value as the basis for the property for estate tax purposes. The National Grange further supports a personal exemption from federal estate taxes of ten million dollars.
8. The National Grange supports federal tax credits or tax deductions to growers or grower co-operatives that build or own ethanol production facilities.
9. The National Grange supports legislation prohibiting employers from borrowing from an employee's pension fund. The National Grange supports legislation that would place employees or former employees, who had invested in their employers' stock as part of their retirement plan, ahead of payments to other creditors during bankruptcy.
10. The National Grange supports prosecution of cooperative executives and others suspected of illegal actions resulting in a cooperative declaring bankruptcy.
11. The National Grange urges Congress to oppose any future legislation allowing the IRS to implement percentage fees on banking transactions.

#### *Personal Income Tax*

1. The National Grange supports developing a simpler and fairer federal income tax code, written in precise, plain and understandable language. We further support simplifying the language that is used in the government's instruction pamphlets for filing individual income taxes.
2. The National Grange favors continuing 5 and 10-year averaging of lump sum distributions of pension funds for income tax purposes.
3. The National Grange favors indexing all federal income tax brackets for inflation.
4. The National Grange supports income tax deductions for two-wage earner families. The National Grange supports deducting state sales tax from federal income tax returns.
5. The National Grange supports a 100% tax deduction for all qualified charitable contributions for all federal taxpayers.
6. The National Grange supports equalizing the mileage rates for volunteer services and medical transportation with mileage rates permitted for businesses for tax purposes.
7. The National Grange favors income tax credits for those families who care for their elderly or handicapped relatives, who otherwise would become residents of a nursing home. We support legislation to allow a federal tax deduction for all Long-Term Care Insurance premiums. We further support exempting all benefits paid under Long Term Care insurance from all income taxes.
8. The National Grange supports the continuation of all current tax deductions allowed on real-estate mortgages and on state and local taxes.
9. The National Grange supports legislation to allow voluntary contributions of \$1.00 to be solicited on all federal income tax forms to fund our national parks. The Grange supports permitting an individual to designate \$1.00 on his/her federal income tax return for the USA Olympic Program.
10. The National Grange supports a federal income tax credit for law enforcement officers for purchasing their own bulletproof vests.
11. The National Grange supports expanding medical flexible spending accounts to allow employees or retirees to set aside part of their pre-tax pay or pension. We further recommend that any unspent medical flexible spending account balance be rolled into the next year's account or refunded to the employee or retiree as taxable income.
12. The National Grange supports a 100% federal income tax deduction for all medical insurance.
13. The National Grange supports legislation to allow parents or students to utilize all student loan interest as an adjustment of income on their federal tax return.
14. The National Grange supports legislation to prevent illegal aliens from receiving earned income tax credit or any other financial benefit from the United States government.
15. The National Grange urges Congress to give farmers and ranchers flexibility in the tax code to adjust quickly to estate planning challenges.

*Sales, Excise Taxes, and Internet*

1. The National Grange opposes the enactment of any national sales tax or any form of value added tax.
2. The National Grange supports federal law prohibiting any charges or taxes on e-mail or the use of the Internet. The National Grange opposes any new or increased excise tax on telecommunication. The National Grange supports legislation that would prohibit mail order houses or Internet retailers from collecting state or federal sales or use taxes on mail order or Internet purchases.

*Taxes - General*

1. We support the present tax treatment of agricultural cooperatives as non-profit entities.
2. The National Grange supports a federal prohibition on the imposition of any tax or fee on water that is drawn from private wells, lakes, and irrigation ponds.
3. The National Grange supports tax policies that will preserve the ability of this nation to find and produce domestic oil and gas resources. We support the current oil import fee and the domestic crude oil fee.
4. The National Grange supports tax exemption for income that is raised by non-profit organizations such as the Grange.
5. We support a further strengthening of the "Taxpayers' Bill of Rights." We support placing the burden of proof on the IRS - not the taxpayer - under due process of law and providing a course of action in which the taxpayer could defend himself and recover his costs and attorney fees should the IRS fail to prove its case. We support giving the taxpayer the right to record all interviews with IRS representatives and to set a reasonable time and place for meetings. We support prohibiting the IRS from sending out bills that are in excess of owed taxes, except for interest and penalties.
6. The National Grange supports the rights of local governments to use tax-exempt municipal financing without further limitations being imposed by Congress.
7. The National Grange supports requiring a two-thirds vote of each House of Congress to increase taxes. We further support federal legislation to explicitly limit the authority of all courts in the United States to order a state or political subdivision to levy or increase taxes as a remedy for any civil litigation.
8. The National Grange opposes any sale of information from individual tax returns to any agency or individual.
9. The National Grange believes that tax preparers should be vigilant in their obligation to comply with the privacy standards of the Gramm-Leach-Bliley Act and the privacy rules of the Federal Communications Commission.

## Conservation

### POLICY STATEMENT

We encourage the responsible stewardship of our natural resources from all who own or use them. We define responsible Stewardship as a balance between use, preservation, and the environmental standards appropriate to the regional needs. Our organization has been a strong advocate for land stewardship. We believe that protection of the environment and the conservation of natural resources are vital. We further believe that education of the public regarding the importance of our natural resources is an absolute necessity. We support current federal guidelines on the control of air and water quality.

The National Grange should continue to advocate for conservation programs. These programs should encourage farmers to operate in an environmentally sound manner, focusing on technical assistance, research, education, loans, and cost-share programs.

We recognize that plastic is a significant environmental nuisance. The National Grange should support legislation that will promote the use of shorter life plastic and biologically degradable materials.

The National Grange recognizes the unique role agriculture plays in land and environmental management. The National Grange supports transparent disclosure of details of any environmental testing and/or modifications being conducted by any governmental agency. We advocate for greater flexibility in the interpretation of environmental laws to allow for traditional land uses taking into consideration varying environmental situations across the country and encourage agricultural producers to engage in best management practices in all aspects of their operations.

The National Grange supports coordination among Federal, State and Local Governments when developing land use management plans. We urge Congress to include voluntary incentive-based assistance for conservation practices by farmers, ranchers, foresters, developers, and landowners in future Farm Bills, which will maintain a commitment to conservation. In that light, we also urge USDA to ensure that they use only scientifically based research when crafting regulations to implement the conservation portions of the Farm Bill. The optimum result should be that the environment be protected with the least amount of prime, productive farmland taken out of production.

### PRESENT POLICY

#### *Clean Air Act*

1. The National Grange supports a clean air policy that will best protect agricultural interests, relieve automotive passengers, freight users and carriers of costly and unnecessary restrictions, and will protect the physical and economic health of industry and the general public.
2. The National Grange proposes that Congress determine state compliance to the Clean Air Act by statute and not by administrative regulations. Until then, we urge state and national administrative flexibility in deadlines for meeting Ambient Air Quality Standards. The National Grange strongly urges the EPA to retain the existing National Ambient Air Quality Standard for ground-level ozone.
3. The National Grange opposes any national mandatory motor vehicle emission inspection and maintenance programs. We oppose any national law or regulation that would require the use of "stand alone" vehicle emission testing facilities. The National Grange supports exempting agricultural equipment and machinery manufactured prior to January 1, 1993 from the current Clean Air Act.
4. The National Grange favors the repeal of the ozone provisions contained in the Clean Air Act to allow the use of Freon for refrigerators, freezers and air conditioners. The Grange opposes the Environmental Protection Agency's regulations further curtailing the presence of ground level ozone in the atmosphere below the current 0,075 parts per million levels.
5. The National Grange favors reducing sulfur and nitrogen oxide emissions from coal-burning plants. The National Grange encourages more research into clean technology and revision of EPA standards for use of coal and gas in building new generating plants. The National Grange opposes any "Cap and Trade" bill or related legislation concerning climate changes

- that would restrict greenhouse gas emissions.
6. The National Grange opposes adoption of the United Nations Climate Change Treaty or the Kyoto Protocol agreement on greenhouse gas emissions by the United States until uniform standards for greenhouse gas emissions are applied to all major countries, regardless of their economic development. In the meantime, we support the following measures: expansion of voluntary efforts to limit greenhouse gas emissions; scientific research and educational programs on climate; investing in the development and deployment of new technologies and urging utilities to update their older plants bringing them into compliance with the current Clean Air Act.
  7. The National Grange supports a program of government incentives that will reduce commuting by private vehicle, increase subsidies for mass transportation or carpooling, and sponsor more research to make alternative energy cars viable.

*Clean Water Act and Wetland Management*

1. The National Grange supports federal clean water laws and regulations that are based upon realistic and obtainable goals and are enforced uniformly between the states. We regard a zero-pollution standard as being totally unrealistic and unobtainable.
2. The National Grange recommends that adequate State and Federal funds be provided for any soil or water conservation program required by the Clean Water Act, including at least 75% of the federal cost share on agricultural best management practices (BMPs) for non-point source pollution abatement administered through local conservation districts. The National Grange urges Congress and the President to clarify Clean Water Act Section 303 (d) so that the Total Maximum Daily Load (TMDL) will be reasonable and attainable without extreme hardships placed on agriculture and other industries. Furthermore, the National Grange urges State and Federal Governments to fund conservation programs that will help farmers and municipalities to meet the goals of TMDL, and Watershed Implementation Plan (WIP) with regard to the Chesapeake Bay cleanup.
3. The National Grange supports legislation to provide funds to study water quality regarding groundwater contamination. We further support the creation of groundwater protection and management plans that will limit the amount of toxic chemicals in groundwater realizing that a policy of no degradation is unobtainable. We support local control of groundwater management and management plans and support the enforcement of penalties to cities and towns that improperly dump waste in our streams and waterways.
4. The National Grange opposes efforts to require states to designate any watersheds with populations of threatened or endangered species as an Outstanding Resource Water that would further impede use of that water by traditional agricultural users.
5. The National Grange supports the US Supreme Court's holdings regarding the Congressional intent of the phrase "navigable waters" as used in the Clean Water Act that limit the jurisdiction of the U.S. Army Corps of Engineers and the US Environmental Protection Agency to regulate inland waters and wetlands. We oppose legislative efforts to remove or amend the definition of "navigable waters" in the Clean Water Act.
6. The National Grange supports legislation to improve the wetland regulatory programs by Federal, State and/or Local Governments to streamline the permitting process; delineate wetlands by categories based on readily identifiable natural characteristics, environmental value, function, and abundance; refine the wetland mitigation system; improve the system of compensation for private landowners; and increase the role of the states in the wetland permitting process. We further support exempting wetland designations from areas that are artificially created by irrigation, stock water ponds, fire protection ponds, or have been cropped for one of the last five years.

*Conservation Reserve and Agriculture Conservation Programs*

1. The National Grange supports a Conservation Reserve Program (CRP) that will provide long-term solutions to natural resource concerns on our nation's farms. We believe that CRP programs should be integrated with other environmental protection programs and should have a high environmental benefit to the cost-ratio by accepting only highly erodible land for 10 years at a rental rate that is in relationship to its productive value. We believe that the commodity base acres in CRP land should remain as a production reserve and only be transferred to other production acres to meet increased export demand. However, we favor eliminating the offsetting and cross compliance provisions as they relate to the Conservation Reserve Program.
2. The National Grange recommends that the Natural Resources Conservation Service (NRCS) and the Farm Service Agency (FSA) enforce the inspection of CRP land for noxious weed control. CRP payments should be withheld from the owners of the CRP tracts that are infested with noxious weeds until the (FSA) or NRCS certifies that the noxious weed control program is being carried out by the landowner. To assist landowners in their responsibility to control noxious weeds, we further urge the USDA (subject to state FSA Committee rules) to change the date, when mowing to control noxious weeds is allowed on CRP lands from July 15 to at least as early as June.
3. The National Grange supports federal funding for soil conservation, including sufficient funding to retain technical assistance for conservation. Environmental Quality Incentive Program (EQIP) and CSP (Conservation Stewardship Program) appropriations should be maintained at a level that will significantly help meet the conservation needs of America's farmland. EQIP to complete needed conservation practices and CSP to maintain those practices. Conservation contracts should follow land ownership with penalties assessed for destruction of said practices before the final contract date. In the event any federal conservation cost-share funds are granted to states, all such funds should be made available to farmers for cost-share payments. EQIP and CSP funds should be used for the cost-sharing program for which they have been appropriated and none of these funds should be diverted for administrative costs of the states' delivery systems.
4. The National Grange urges each State Grange work with their respective Natural Resources Conservation Service (NRCS) agencies implement Nutrient Management Plans (NMP's).

#### *Energy Conservation*

1. The National Grange supports voluntary and economically viable energy conservation for agriculture, industry, commerce, and the home.
2. The National Grange encourages the voluntary "energy efficient" construction of new structures without mandating retrofitting existing structures.
3. The National Grange supports economic assistance to low-income persons and those who are on small, fixed incomes to assist them in paying for the high cost of energy.
4. The National Grange endorses the continuation of state and federal subsidies for home and business generation of solar energy.
5. The National Grange supports all oil and gas price decontrol as a positive step in reducing our need for foreign oil and gas. We oppose any increase in taxes and/or any decrease in tax credits (i.e. depletion allowance) on natural gas and oil production. The National Grange believes that all companies, including farm cooperatives, should be allowed to sell gasoline at both the wholesale and retail levels without divesting. The National Grange supports the following practices to guard against supply uncertainty and unreasonably high prices:
  - a. retain one billion barrels of U.S. oil reserve while supplies are adequate; and
  - b. encourage greater use of natural resources, especially those that are renewable and non-polluting. The National Grange only supports further releases from the U.S. Strategic Oil Reserve in the event of war or interruption of delivery of foreign supplies of petroleum into the U.S.
6. The National Grange supports legislation to direct the U.S. Secretary of Transportation to set fuel economy standards at their maximum feasible level, taking into account technical feasibility, safety, and the economic impact to the public. The National Grange urges increased research and development of more fuel efficient, internal combustion engines.

#### *Energy Development*

1. The National Grange urges the repeal of laws and regulations that have discouraged United States' energy production by private enterprise. We support a national energy policy that will encourage the development of all forms of domestic energy, traditional and alternative, including solar, wind, geothermal, ethanol, livestock methane, surf/tidal, shale, tar sands, hydroelectric, agricultural products, urban solid wastes, peat, wood, coal, coal gasification, oil, natural gas, compressed natural gas, nuclear, hydrogen, bio diesel and methanol in an environmentally sound manner without exploiting our parks and wildernesses in order to reduce our dependence on foreign oil. The National Grange believes all domestically produced hydroelectric power should be classified as renewable energy under all applicable Federal and State statutes.
2. The National Grange favors the complete utilization of petroleum and the other mineral resources, including the exploration and production of oil reserves on the coastal plain of the Arctic National Wildlife Refuge and from any outer continental shelf lease sales in accordance with the terms of an environmentally sound development plan.
3. The National Grange supports the building of the Keystone Pipeline system as long as it is built to acceptable appropriate engineering and environmental standards.
4. The National Grange supports legislation requiring the nation's motor fuels to contain a renewable component (Biodiesel and/or Ethanol). We support increased development and use of ethanol and ethyl tertiary butyl ether (ETBE) in gasoline blends with adequate income tax incentives to make the production and use of ethanol and ETBE economically feasible.
5. The National Grange supports the use of hydraulic fracturing for natural gas production in all hydrocarbon-producing strata.
6. The National Grange supports regulated oil and gas production in the United States that protects landowners and allows adequate compensation while allowing production to continue.
7. The National Grange supports an examination and reform of environmental laws so that new oil refineries can be built to supply our fuel needs. We further support a study of the need for different mandated formulations for gasoline, and if possible, a reduction in the number of gasoline blends to make it easier and less expensive to refine and transport the finished product.
8. The National Grange endorses the goal of generating at least 25% of domestic energy needs from domestic renewable resources while continuing to produce safe, abundant and affordable food, feed, and fiber by January 1, 2025.
9. The National Grange urges the Federal Energy Regulatory Commission, U.S. Coast Guard, and any other pertinent Federal agencies to develop and strengthen regulations regarding the siting of liquefied natural gas terminals, and consideration should be given to the overall economic impact on the region before any site is approved.

#### *Environmental Regulations and Controls*

1. The National Grange supports requiring all appeals or court actions against properly approved and financed federal state or municipal construction projects to post a security bond equal to the projected cost of the project before the appeal or lawsuit may be adjudicated that will, in turn be forfeited if the appeal or lawsuit subsequently fails.
2. The National Grange supports legislation to require that all environmental impact statements under the National Environmental Policy Act must equitably balance and weigh economic, social, cultural and environmental impacts of proposed Federal actions to reduce unnecessary delays on worthwhile and vital projects.
3. The National Grange supports the EPA's standards on the use of dangerous trace metals. We further support continued EPA programs to monitor the industrial and farm uses of materials that contain dangerous trace metals.
4. The National Grange supports new "Right to Farm" laws at the local, state and federal levels to further protect them against charges of civil or criminal violation of environmental regulations when those charges apply to normal activities that are essential to a farm operation.

5. The National Grange urges Congress to keep the Environmental Protection Agency (EPA) at its current status as an independent federal agency, and not elevate the agency to a Cabinet level.
6. The National Grange urges USDA to use only scientifically-based research when crafting regulations to implement the conservation title of the Farm Bill.

#### *Federal Grazing*

1. The National Grange supports basing all decisions on Federal Grazing regulations, including grazing fee pricing formulas, upon solid economic principals, current livestock market prices, good conservation practices and extensive public input from existing grazing permittees. We favor legislation that would further limit any overall reduction in grazing to 10% or less on any given allotment except in the case of emergencies such as drought.
2. The National Grange strongly supports considering the economic impact that restrictions on grazing in riparian areas may have on farmers before legislation is passed.
3. The National Grange encourages the Bureau of Land Management and U.S. Forest Service to carry out an aggressive program to fill all grazing allotments on Bureau of Land Management and Forest Service lands. However, we support restricting the selling of Federal grazing permits to anyone other than someone using the permit for grazing purposes.

#### *Land Withdrawals and Wilderness*

1. The National Grange supports releasing all public lands not currently designated as Wilderness or Wilderness Study Areas to multiple uses. We oppose any further designations of National Forest lands as wilderness, especially in Alaska. We believe that all public lands suitable for producing commercial timber, farm or grazing resources, commercially valuable minerals, or public recreational facilities (including motorized sports activities) should be precluded from future consideration for wilderness designation and, instead, actively managed to achieve sustainable multiple use goals.
2. The National Grange believes that regulations governing the management of Federal Wilderness areas should allow for controlled access by motorized vehicles in cases of emergency, especially when lives or private property are at stake. We further support the harvest of timber resources from Federal Wilderness areas following natural disasters. We oppose the destruction or obliteration of any Forest Service roads and further oppose designating any roadless areas of the National Forest System as permanently off limits to logging, mining or other development.
3. The National Grange strongly opposes the use of eminent domain or any regulatory property taking via administration designation by any Federal agency to include any private property in any Federal Wilderness area, any part of the Federal Wild and Scenic River System, any part of the American Heritage Rivers Initiative, any land conservation program authorized by an international agreement or treaty or any habitat management area under the Endangered Species Act.
4. The National Grange supports legislation directing mitigation of identified losses of public and private lands from the state tax base due to federal acquisition through transfer of an equivalent acreage from federal land to public or private ownership, or by providing an annual payment-in-lieu-of-taxes (PILT), based on an independent economic impact analysis to be adjusted annually for inflation.

#### *Mining*

1. The National Grange urges Federal agencies to work with the states to develop surface mining guidelines, giving the states the flexibility to control and supervise the surface mining of coal, gravel, and similar materials. To ensure against the destruction of surface mined areas, a performance and a completion bond should be required of the mining companies that would assure the completion of reclamation plans as they are developed. Such plans should require the return of the land where strip mine operations occur to a reasonable topography and fertility level and should be enforced by law. The deposits that are required under Section 402(a) of the Surface Mine Control and Reclamation Act of 1977 should be returned to the states for strip mine reclamation. The National Grange further supports any regulation or law that holds the coal company liable for subsidence damage to structures caused by underground mining.
2. The National Grange supports changes in the Federal Mine Safety and Health Act that recognize the special conditions of small independent mine operations and provides for greater forbearance in correcting violations.

#### *Preservation of Fisheries Resources*

1. The National Grange urges the Pacific Marine Fisheries Commission to support the designation of only those marine sanctuaries that guarantee fishery usage and recognize the fishery management authority of the current sanctuary boundaries.
2. The National Grange supports legislation to reauthorize the Magnuson Fisheries Conservation Management Act. We urge all appropriate federal agencies to work closely with all state wildlife agencies to maintain sustained fishing yields by regulating sport and subsistence fisheries in order to allow for the adequate recovery of fish and aquatic species in areas where they have declined. We support the United States working with all countries to regulate commercial fishing to allow for the adequate return of fish into many areas where fish yields have declined. We further support an extension of the U.S. territorial sea to not less than 50 miles where foreign commercial fishing may not be performed. The National Grange favors all reasonable measures to save the Pacific Salmon in the Columbia and Snake Rivers as long as the priority for these river systems is power generation, water use, and navigation. We support securing the passage of a treaty between Canada and the United States to govern the operation of the salmon industries in each respective nation. We support uniform regulation of all net fishing in the Columbia River, Puget Sound, and the Pacific Ocean before drastic economic measures to reestablish wild runs of Pacific Salmon are enacted. The National Grange recommends that fish ladders be included in the planning of any future dam construction on streams or rivers where fish migration may be affected. We favor the transport of juvenile fish, the hatchery propagation of salmon stocks, flow control,

and control of the salmon harvest until a final Pacific Salmon recovery plan is in place. We support the establishment of a program to audit the harvest of salmon on the lower Columbia River. We further believe that all salmon fishing on the Columbia and Snake Rivers should be restricted to hook and line methods only. We recommend to the United States Fish and Wildlife Service that spawned out salmon carcasses be planted near remote site incubators for smolt releases as a food source for the young fish.

3. The National Grange urges the federal government to continue funding the National Marine Fisheries Service at a sufficient level to enable them to continue the biological studies that will lead to the elimination of drift net fishing by all nations.
4. The National Grange supports adequate funding of the Marine Mammal Protection Act for use by the various states in developing appropriate marine mammal management plans and policies. In addition, we urge Congress to exclude Harbor Seals and California Sea Lions from the Marine Mammal Protection Act and place them under the control and protection of the states, including a controlled harvest season for Harbor Seals and California Sea Lions, until the yearly run of the Pacific Salmon increases to the point where the salmon will no longer be considered for protection under the Endangered Species Act.
5. The National Grange supports research and long-term solutions to prevent the introduction and the spread of invasive and/or destructive aquatic organisms as well as the necessary destruction of established populations of these species such as, but not limited to, Asian Carp and Pfiesteria. We support legislation requiring all shipping lines to change their ballast water in the open ocean to curtail the further introduction of foreign species, such as the Zebra Mussel, into our domestic waterways.
6. The National Grange favors the regulated harvesting of fresh water clams and mussels.
7. The National Grange supports legislative and regulatory measures to prohibit the National Marine Fisheries Service from taking control of private lands, breaching of dams, and killing of hatchery salmon under the authority of its 4 (d) Rules. The National Grange urges Congress to order the National Marine Fisheries Service to reconsider the proposed setbacks on private property along all bodies of water or to pay for the taking of the property. We urge Congress to intervene and formulate a true scientific basis for establishment of buffers/setbacks and buffer/setback restrictions along all bodies of water. We encourage the National Marine Fisheries Service do more to start identifying corrective measures beyond licensing and regulation to save the fish off our nation's coasts that include avoiding by catch, single-species management, ocean sanctuaries, eco-friendly gear, and consumer alertness. We further believe that alternative sources of fish production i.e. aquaculture, should be encouraged where appropriate.

#### *Private Land Use, Planning, Zoning, and Eminent Domain*

1. The National Grange urges the USDA, in conjunction with land grant universities, to provide assistance to local governments and citizen groups in educating the public on the importance of keeping land in agricultural production and in developing farmland retention programs which protect the rights of landowners and the prerogatives of local governments. The National Grange supports land use planning and zoning remaining a function of local and state governments.
2. The National Grange urges that the transfer of development rights be used to protect family farms. Whenever land is designated for permanent agricultural use, farmers should receive adequate compensation for the loss in land value.
3. The National Grange urges the Farm Service Agency or any other agency not to relinquish the use of any farmlands, wetlands, or other lands to the U.S. Fish and Wildlife Service, or any other government agency.
4. The National Grange supports efforts to improve locally controlled site-specific resource and environmental management in the Columbia Basin.
5. The National Grange supports legislation reaffirming congressional power over international agreements concerning disposal, management and use of lands owned by the United States and also protects state powers, from federal actions designating lands to international agreements.
6. The National Grange supports legislation to mandate that when private property is acquired for a specific purpose by any federal agency through eminent domain, condemnation, foreclosure or negotiated price, and the property is subsequently not needed or used for the specific purpose it was acquired for, the original owner shall have first right of repurchase at either the original price or the current market price, whichever is less.
7. We support legislation that eminent domain be used only for public purposes, such as rights of way for transportation and utilities.
8. The National Grange urges the federal government to replace, whenever possible, condemned private land with public land of equal value/productivity, and to maintain a balance between public and private lands throughout the nation.
9. The National Grange supports changing laws so that, in points of controversy, private property rights take precedence over environmental regulations.
10. The National Grange supports legislation to prohibit the Federal Government or any agency or authority of the Federal Government from exercising its power of eminent domain to be used for private economic development unless there is an immediate danger to the health and/or safety of citizens. Furthermore, the National Grange supports federal legislation to require that no state, political subdivision of a state or any person or entity to which such power has been delegated shall exercise its power of eminent domain, for the purpose of private economic development or over property that is subsequently used for economic development unless there are situations of immediate danger to the health and/or safety of citizens. Any state or political subdivision that exercises the power of eminent domain for private economic development shall be ineligible for any federal economic development funds for any purpose for a period of at least two years.

#### *Private Timber Land Management*

1. The National Grange supports the use of best management practices (BMPs) and sustained yield management practices on private forestlands. The National Grange believes that in return for public benefits resulting from improved forest management on

individually owned forest lands. Any forest management assistance programs should recognize the multiple use aspects of private forest lands, including timber production, watershed protection, wildlife habitat, recreation, and scenic values.

2. The National Grange requests Congress to control arbitrary appeals of U.S. Forest Service timber sales assessing penalties to the appellant to cover the costs of failed appeals. We further support legislation to require each appeal of a timber sale to post a security bond equal to the value of the timber sale before the appeal may be adjudicated that will, in turn, be forfeited if the appeal subsequently fails.

#### *Public Lands Management Practices*

1. The National Grange believes that multiple use of non-reserved land should be the cornerstone of the United States' public land policy in order to achieve the following objectives: energy exploration and development; sustained yield management for food and forest production; recreational uses for all citizens; responsible wildlife management; soil conservation and watershed protection.
2. The National Grange supports the maintenance of appropriate conservation practices on all public lands leased to private individuals yet will continue to support placing a moratorium on the acquisition of private land by the U.S. Forest Service. The National Grange recommends that a user fee be implemented for all commercial and recreational use of federal land requiring a permit.
3. The National Grange supports prescribed burning on public forestlands as a forest management technique to reduce uncontrolled fires on public lands. We oppose public forest management plans that include the use of natural, uncontrolled forest fires as a forest management technique. After a major natural forest fire, we support a maximum two-year administrative deadline for applicable Federal State and Local forest management agencies to formulate a forest recovery plan and complete all appeals. We support expedited restorative actions, such as reforestation and harvest of dead or dying timber resources as part of every forest recovery plan.
4. The National Grange supports appropriations for the U.S. Forest Service and the National Park Service to adequately carry out an expanded silviculture program, wildlife management, water and soil protection, weed control, recreational needs, protection of natural, historic and cultural resources, to develop additional forest campgrounds and increase the available spaces in existing campgrounds to keep them open year-round where economically feasible. We also urge that U.S. Forest Service campground fees be raised to more nearly cover the costs of operating these campgrounds.
5. The National Grange favors the increased planting of lumber-producing trees on both national and state forest lands, including increased funding for Federal and State tree nurseries, to produce additional seedlings for timber. We urge the U.S. Forest Service to permit selected timber stands to reach old growth and be harvested on a sustained yield basis. Furthermore, we support prohibiting states from exercising authority to restrict the sale or export of logs that are harvested from State-owned land.
6. The National Grange recognizes the states' rights to own and/or manage Bureau of Land Management (BLM) unreserved lands, not including National Forest lands. Revenues that are received by counties should be protected when control of any Federal land is assigned to State Governments.
7. The National Grange supports legislation to require Federal and State Governments to pay a proportionate share of monies, in lieu of taxes, to those counties, cities, and communities that provide public services to the parks and recreational areas within their boundaries. In addition, the Grange supports Federal legislation allowing National Parks to keep a major portion of entrance fees to be used for the development and maintenance of recreational facilities.
8. The National Grange calls on Federal, State, and Local Law Enforcement Agencies to investigate and prosecute incidents of tree and trail spiking and the destruction of logging equipment on Federal and State Lands.
9. The National Grange supports amending the National Antiquities Act to include public comment before any regulation or Executive Order designating any additional public land as a National Antiquity becomes effective.
10. The National Grange supports a policy that any responding agency to a fire, whether it is local, state or federal, be required to notify adjacent landowners and other authorities with jurisdiction, for their own safety, of all wild and grass fires in the area.
11. The National Grange supports the use of state and/or federal funds to reimburse small landowners for the mitigation of loss of land values due to any state or federal logging restrictions on private lands.
12. The National Grange opposes the creation of the Owyhee Canyonlands Monument in Oregon and Idaho.

#### *Recycling*

1. The National Grange supports legislation that would require a deposit on non-biodegradable beverage containers and urges manufacturers to use recycled materials.
2. The National Grange supports requiring all government agencies to initiate a recycling program for paper, metal, glass, etc. Government agencies should also be required to use recycled paper whenever feasible. The National Grange supports a review of recycling agricultural plastic wastes, such as Cornell University's Recycling Agricultural Plastics Project (RAPP), and encourages funding from the USDA for this type of research in order to help all American farmers with this concern.
3. The National Grange supports legislation requiring the use of biodegradable feedstocks in all appropriate consumer-based products such as retail plastic bags, product packaging, diapers and packing materials. We support legislation to require single-use and short-life plastic products and packaging to be manufactured with biodegradable ingredients that will completely degrade within three years when exposed in a biologically active environment. The National Grange encourages the use of alternative bags such as canvas, cotton, mesh, biodegradable paper, or other biodegradable products. We urge all manufacturers to reduce their use of packing materials in their consumer products.

4. The National Grange supports efforts to restrict the disposal of tires in landfills. We support additional efforts to recycle used tires to recover valuable petrochemical feedstocks and to utilize recycled tires in road and other construction projects.

*Rural Electric Cooperatives, Public Power and Rural Electricity Consumers*

1. The National Grange supports the continued application of the existing preference concept of the Federal Power Act being granted to public power utilities in the licensing and re-licensing of Federal hydroelectric facilities. We further support granting co-preference in the licensing and re-licensing of federal hydroelectric facilities to rural electric cooperatives.
2. In order to assure adequate electric, telephone and broadband service to rural areas, the National Grange supports continuation and expansion of the existing USDA Rural Utility Service low interest revolving loan fund to assure the financial stability of rural electric and telephone cooperatives.
3. The National Grange supports continuing electric service to urban areas that are within a rural electric cooperative's service area. However, rural electric cooperatives that provide electric service to predominantly rural areas should continue to have first priority for low interest federal financing. In addition, we urge the electricity industry to charge rates for farmers and small businessmen that are competitive with their large wholesale customers.
4. We support maintaining the current structure of rural electric systems without forced deregulation of publicly owned plants or any other action that would be detrimental to rural electric consumers. The National Grange supports reform to the Public Utilities Regulatory Policies Act, so that non-utility generating stations operate to sell their output at competitive market rates. The National Grange supports requirements for increased accountability and responsibility on the part of the Nuclear Regulatory Commission and power companies in the operation of any nuclear power plant. The National Grange supports the careful selection by the Department of Energy of sites for the disposal of low-level nuclear wastes, excluding prime agricultural, forest, and parkland. The National Grange supports efforts to open the Yucca Mountain site in 2020 for the storage of nuclear waste and opposes actions to delay the project. We urge that the public be involved in the decision to conduct additional research on the long-term consequences to the environment of the disposal of nuclear wastes. The National Grange further urges the Department of Energy to conduct an extensive educational program to inform citizens of the safeguards and hazards that are involved in the disposal of these wastes.
5. The National Grange opposes the Federal Energy Regulatory Commission's imposition of a Regional Transmission Organization (RTO) and Standard Market Design (SMD) on the Northwest Region of the U.S. We support the present cost-based rate system, as determined in the 1937 Congressional Bonneville Power Administration repayment agreement; requiring Bonneville Power Administration to adopt for pricing electricity, instead of a market-based repayment pricing system. We support the present Federal Power Marketing Administrations. We further recommend the establishment of Power Marketing Administrations in areas of the United States where desired and feasible. We vigorously oppose selling the Western Area Power Administration and Bonneville Power Administration to private power companies. The National Grange also supports the allowance of the Northwest Region to develop an alternate approach to strengthening the transmission system.
6. The National Grange urges the U.S. Government to engage in diplomatic negotiations on the environmental impacts that contribute to air and water pollution before permitting the transfer of electricity across the borders into the United States.

*Soil Conservation and Non-Point Source Pollution*

1. The National Grange supports voluntary programs to control specific known point sources of pollution, as well as non-point sources of agricultural pollution. We support the concept of conservation tillage practices and other types of sediment control. We believe that irrigation and agricultural drainage practices should be recognized as soil and water conservation practices. We encourage broad participation in the Soil and Water Resources Conservation Act studies in order to assure that quality, locally designed and controlled conservation programs are developed in order to meet the needs of family farmers. We support programs offering at least 50% cost share assistance for establishing grass strip boundaries and other soil conservation best practices, as well as technical assistance, as the primary means of correcting agricultural non-point source pollution problems. We also support programs offering at least 50% cost-share assistance to correct agricultural pollution and free technical assistance prior to non-income producing practices that require major expenditures. The National Grange will raise awareness about regenerative agriculture and encourage practices to minimize on-farm inputs while building capacity for future production.
2. The National Grange opposes the sole use of uniform federal government farm pollution policies and supports that each state, or region, continue to maintain their own farm pollution policies that are unique to their industry and geography.
3. The National Grange supports the privately financed National Endowment for Soil and Water Conservation, the American Conservation Corps, as well as vocational programs to educate and train youths to help in the conservation of our woodlands with sustainable forests and arboreal practices and other natural resources, using presently established facilities. We believe that all citizens should share in soil conservation costs through tax dollars that support State and Federal programs focusing on technical assistance, research, education, loans and cost sharing programs.
4. The National Grange supports locally developed storm water management programs administered through local conservation districts.

*Toxic and Hazardous Wastes*

1. The National Grange supports a program to educate consumers on the proper handling and disposal of hazardous household waste, such as energy saver light bulbs and any other items containing mercury.
2. The National Grange supports realistic insurance coverage plans being made available by the Federal Government at a

- reasonable cost for existing and future storage tanks and other potential sources of toxic and hazardous waste pollution.
3. The National Grange supports legislation that would require urban sewer sludge disposal to be strictly regulated, i.e. knifing or ground injection as used in agriculture. We only support burning if such burning meets EPA air quality standards.
  4. National Grange supports federal legislation prohibiting the dumping of waste material or raw sewage from foreign countries in landfills located in the United States.
  5. The National Grange supports continued research on non-toxic materials in preparing pressure-treated wood for building materials.
  6. The National Grange supports public education of the dangers of sodium azide and legislation to set guidelines for the proper storage or disposal of all unused airbags.
  7. The National Grange supports the current exemptions for family farmers from the EPA's Toxic Spill Prevention Containment and Control regulations.

*Water Projects, Irrigation and Reclamation Reform Act, State Authority for Water Rights*

1. The National Grange recommends that federal, state, and local governments work closely with each other and local landowners in the development and construction of watershed projects, dams, and reservoirs for multiple uses, such as flood control, storing and releasing surplus flood water, replenishing underground water, hydroelectric power generation, irrigation, industrial and municipal use, and recreation. We urge both Congress and the President to make the necessary funds available in order to complete all planned and feasible federal water development projects and provide cost-share assistance for the rehabilitation of dams and other flood control structures that were previously constructed with Federal Assistance. The National Grange supports efforts to provide State and Federal funds to pay the recreational share of impoundment facilities on small water development projects.
2. The National Grange believes that the Federal Government should compensate any loss or diminution of water rights resulting from the exercise of a federally reserved right.
3. The National Grange supports legislation to consolidate the activities of the Army Corps of Engineers and the Bureau of Reclamation under the jurisdiction of the Department of the Interior to eliminate duplication.
4. The National Grange supports local control over State Water Projects.
5. The National Grange supports a national water policy requiring all alternate sources of water, including full development of desalination plants for urban uses, must be considered before approval of any water diversion project.
6. The National Grange supports the use of existing multi-purpose dams, creating possible draw-downs or transfers of water from productive agricultural lands to waters that could possibly assist in flushing young salmon to the ocean, and urge the development of alternative methods of enhancing fish populations including salmon.
7. The National Grange requests the U.S. Army Corps of Engineers and all environmental agencies to facilitate restorative dredging of rivers prone to flooding.
8. The National Grange supports maintaining minimum water levels along the Great Lakes in order to support commerce, hydroelectric production and tourism in the region. We support accurate monitoring of water drawn from the Great Lakes Water Basin for agricultural, industrial and residential uses. We support only allowing those states and provinces that belong to the International Joint Commission on the Great Lakes to be authorized to allow permitting to remove and use waters of the Great Lakes. However, we also believe that agriculture entities should be exempt from any permits or fees for removing water from the Great Lakes.
9. The National Grange supports irrigation rules and regulations that prohibit abuse of the Reclamation Reform Act and assure the fullest measure of benefits from Federal Irrigation Projects for family farmers. The National Grange supports the continued development and widespread utilization of more efficient irrigation systems in addition to legislation outlawing the practice of using trusts, partnerships, corporations, and estates to circumvent the 960-acre irrigation subsidy qualification that favors small farmers.
10. The National Grange will actively work to preserve the way of life of the Klamath Basin farming community of Oregon and California. We support reversing the decisions of the Ninth Federal Circuit and permanently restoring the flow of irrigation water from Klamath Lake to the farmers and farm communities served by the irrigation system. We further oppose any efforts to remove water storage and electrical generation capacity from the Klamath River Basin system. We call on Congress to convene a local working group to draft a viable Klamath Basin Restoration Plan and then fund that plan for the benefit of the entire Klamath Basin community.
11. The National Grange vigorously supports state control of water rights. We oppose any federal plan that infringes on states' water rights. In particular, any water resource planning that is conducted by State or Federal Agencies must respect both the states' sovereignties and the agricultural sector in establishing priorities for water allocations. The National Grange firmly opposes the inter-basin transfer of water that would alter the flow of water into downstream states unless such transfer is dictated in an approved river basin compact.

*Wildlife Management*

1. The National Grange encourages Congress to amend the Endangered Species Act (ESA) to restore proper perspective by requiring public hearings and economic impact statements on the impacts to the affected areas before a species may be listed. We support changes to the ESA to require that only a pure biological and numerical definition of an endangered species be used without being based on subspecies, distinct populations, or hybridization. We believe that only those species actually threatened with extinction should be listed in the ESA, taking into consideration total populations, available habitats, and recovery areas on

- the North American continent. We further support a review of the ESA with the following guidelines: focus on keystone species (organisms critical to the stable functions of entire habitats and ecosystems), not minor or reduced species; rely on public lands for preservation; encourage voluntary protection by individuals and corporations; curtail taking of private lands for ESA; balance human costs with ecological benefits; compensation for private property owners for loss of usage of their property due to the ESA.
2. The National Grange supports legislation legally allowing people to defend themselves or their property from an attack by any animal listed as an endangered species without concern of retribution from government authorities.
  3. The National Grange supports legislative and regulatory measures to prohibit further implementation of any Wolf Recovery Plan. We further support the passage of legislation to outlaw the propagation of wolves or wolf hybrids.
  4. The National Grange supports the U.S. Fish and Wildlife Service as the chief administrator of the National Bison Range.
  5. The National Grange believes it is the responsibility of the Federal Government to control the expanding populations of legally protected plants and animals where those plants or animals pose a threat to human life or health, or where those plants or animals pose a threat to established economic activity. We encourage State and Federal Wildlife Conservation Agencies to assist farmers in all cases of crop and property damage by wild game.
  6. The National Grange is opposed to any Grizzly Bear recovery plan. We support legislation requiring government agencies to notify property owners when they relocate park bears or other potentially dangerous animals.
  7. The National Grange strongly supports the continuation of licensed hunting and trapping of game animals, waterfowl, and game birds. However, we favor the levying of stiff penalties for poaching of wildlife. We further support the continued usage of steel jaw traps.
  8. The National Grange believes that wildlife management areas should not be used for recreation or any other development that diminishes the value of the lands for wildlife management purposes.
  9. The National Grange supports legislation to expand the hunting season of Canada and Snow geese from November 1st - April 1st. We also support increasing the daily bag limit for Canada and Snow geese.
  10. The National Grange supports any prairie dog management plan that allows people to control the prairie dog population through shooting and toxicants, without the need for a special license.
  11. The National Grange opposes the listing of the Eastern Oyster on the endangered species list.
  12. The National Grange opposes forcing dams to spill spring waters in an unproven effort to help salmon.

*Miscellaneous*

1. The National Grange will raise awareness about regenerative agriculture encourage practices to minimize on-farm inputs while building capacity for future production.

## *Education & Health*

### **POLICY STATEMENT**

#### **EDUCATION**

##### *Balanced Approach*

The purpose of education is to open the minds of young people to the world around them, to the lessons of the past, and the possibilities of the future. An understanding of the past and how it has shaped our present and future is a part of education that is too often neglected.

Technical education was underfunded or ignored for years, and as a result, employers are now experiencing a shortage of skilled workers. We welcome the recent emphasis by high schools and community colleges on STEM, curricula emphasizing Science Technology Engineering and Math (sometimes written as STEAM, including Arts). We encourage school systems and all students to put the same emphasis on the possibility of exploring vocational training as well as college preparation.

##### *Loans and Aid*

Many teachers and mental health counselors undertook their career education under the auspices of federal programs that offered student loan forgiveness if specific conditions were met. However, these programs have sometimes been administered in a capricious and uneven manner, leaving many who followed the rules in good faith with unexpected, significant debt. We believe this is a situation that calls for reason and compassion on the part of the program administrators.

Since the Smith-Hughes Act of 1917 and the 1946 George-Barden Act, focused federal aid for agricultural, industrial, and home economics training for high school students, our federal government has to some degree had a hand in funding public education. Thus, the funding of public education has become a partnership between federal and state/local, but we reaffirm the importance of state and local control.

Private providers of higher education are major recipients of federal financial aid and should be held accountable for their academic standards and advertised employment outcomes. We are opposed to any weakening of regulation of private education providers.

##### *Mental Health and Safety*

Many social problems in schools arise from bullying, feelings of disenfranchisement and isolation among at-risk students. We urge schools to find ways to increase the availability of counseling for all students, and proactively engage with marginalized and at-risk young people. We strongly encourage Grange members nationwide to play an active role in their local school systems and communities. It is essential for our members to invest in our children's education through volunteering.

Before learning can take place in schools, students must get there safely. A 2018 survey of bus drivers found that over 80,000 passing violations occur each school day. We urge state and local governments to create education campaigns to address this problem, and to explore -- within the constraints of constitutional law--cameras installed on buses to assist in enforcement of statutes and ordinances

##### *Special Needs*

Great technological strides have been made in the creation of assistive devices for the hearing impaired, but not all are widely known. We encourage state and subordinate Granges to educate their members and their surrounding communities about the availability of such devices under the Individuals with Disabilities Education Act (IDEA).

#### **HEALTH**

##### *Controlled Substances*

The opioid crisis continues to plague our country. A multi-pronged approach is needed and must include continued study of the benefits of opioid painkillers as compared to alternative pain management strategies; improved prescription strategies such as limiting

the number of pills issued per renewal; proper security of our prescription drugs in our homes; and proper disposal of unused or outdated prescription medications through recognized drug take-back programs or disposal programs. These are all efforts that local Granges can and should promote in their communities. The Rx Abuse Leadership Initiative (RALI) has formed partnerships with ten state Granges to address these issues and we strongly urge additional Granges to develop RALI partnerships in their states. Our youth have taken a great leadership role in this effort, and we encourage them to continue with various programs, including training initiatives such as those provided by the Community Anti-Drug Coalition of America (CADCA).

Notwithstanding our present policy and resolutions about the integrity and safety of prescription drugs, we support efforts like the Creating and Restoring Equal Access to Equivalent Samples Act (C.R.E.A.T.E.S.) that promote affordable access to medications through the development of lower cost generics.

#### Family Friendly Workplaces

We support paid parental leave and working with businesses to build a comprehensive policy that benefits both the employee and employer.

#### Affordable and Effective Care.

We encourage bipartisan efforts by Congress to continue health care reform, identifying solutions that provide high quality and affordable healthcare for all Americans.

Transparency and simplicity in the system should be made a priority. For example, in- and out-of-network access and cost differentials continue to be a problem. Disconnects between doctor and hospital networks are aggravating and unhelpful—especially when they result in surprise medical bills that appear due to hidden gaps in coverage.

Consumer education should also be a priority. For example, some supplemental insurance policies limit or do not cover skilled nursing care coverage, and people should be able to advocate for that when necessary.

#### Promoting Health of Minors

Nutrition is an essential building block for health. We support the concept of sending unserved food from school cafeterias home with needy students, assuming proper food safety concerns can be addressed. Also related to school lunches, different age groups have different appetite levels. In the interest of promoting healthy portions and minimizing food waste, we encourage the National School Lunch Program to change recommended portion sizes according to grade levels, and to continue to allow students to choose more protein and dairy products when their health and performance demands it.

E-cigarettes have emerged as a serious public health question, with illness and deaths from their use being reported across the country. While the debate continues about new regulations surrounding these products, we urge legislation or public service campaigns to educate youth about the dangers of using e-cigarettes and associated products.

Childhood immunizations continue to bring passionate feelings, especially when proposals arise to make them mandatory for all children. We recognize that such proposals may not be practical under the civil liberties established in the U.S. However, we suggest that even more effort should then be made to educate the public on this issue using valid science-based information.

#### Cancer Research

It has been long-standing Grange policy to support research into the causes and treatments of all types of cancer. Since many are impatient with the pace of this work, we encourage Congress to increase funding for cancer research rather than merely maintaining current levels.

### **PRESENT POLICY: EDUCATION**

#### *Education for Deaf, Hard of Hearing and Special Needs Children*

1. The National Grange believes that parents of deaf and hard of hearing children, deaf and hard of hearing people, teachers, and professionals who are trained in the area of educating the deaf should assist in determining the extent, content, and purpose of the educational program, and particularly consider those program options that provide the pupil with an appropriate and equal opportunity for communication access, including the state's school for the deaf, which may be the least restrictive environment for a deaf or hard of hearing child.
2. The National Grange strongly supports continuation of the Education of the Deaf Act to provide maximum benefit for deaf and hard of hearing persons, both in programs and services, including funding for Gallaudet University and the National Technical Institute for the Deaf (NTID).
3. The National Grange opposes any repeal of the provisions in the Elementary and Secondary Education Act of 1965 which provides necessary accommodations for children with special needs.

#### *Educational Funding*

1. The National Grange supports the continuation of the federal guaranteed student loan, grant, and work-study programs. The National Grange recommends that Free Application for Federal Student Aid (FAFSA) and Expected Family Contribution (EFC) regulations be adjusted to reflect family expenses, such as real estate taxes, medical expenses and other financial obligations in the determination of financial aid. We urge strict enforcement of the requirements for repayment of federally financed student loans with severe penalties for default. The National Grange suggests that the guidelines for student financial aid laws be revised so students financially independent of their parents are eligible to receive financial aid for their higher education.
2. The National Grange supports the retention of Federal Government Impact Aid for public school districts that lose traditional

- revenue sources due to a federal presence or activity.
3. The National Grange supports federal categorical aid to school library centers.
  4. The National Grange believes that public funding should be used only in public schools. We support redirecting public funding to nonpublic or charter schools, only when the money is for special needs students where the law mandates special training not available in public schools. We oppose any legislation that establishes a voucher program which distributes block grant funds to be distributed as vouchers to children attending nonpublic schools.
  5. The National Grange supports federal funding for state allocation of dollars for rural education to promote better salaries and benefits for teachers in rural education and to improve rural school conditions.
  6. The National Grange urges adequate funding by the federal government for all federally mandated education programs. In particular, we support equal educational opportunities for exceptional and differently abled persons including federal funding at the 40% level for federally mandated individualized education programs for special needs children.
  7. The National Grange supports federal legislation protecting the Upward Bound Talent Search, designed to benefit low-income students seeking college educations.
  8. The National Grange supports legislation that awards grants to institutions for history teacher preparation initiatives stressing content mastery in traditional American history and the principles on which the American political system is based.

*Food Safety and Labeling*

1. The National Grange believes the agricultural industry should be free to advertise their products as long as the advertisement is accurate and is based on facts.
2. The National Grange favors strict enforcement of all food labeling laws by the Food & Drug Administration and supports a uniform system for labeling food and drink products, including an expiration date in a color that is readable on the background. We encourage the National Safety Working Group and Congress to enact far-reaching legislation increasing the inspection rate and level of safety of imported foreign foods, drugs, and manufactured goods. We also support legislation requiring food companies and restaurants to clearly mark food labels and items on menus that may contain ingredients such as Monosodium Glutamate (MSG). We recommend that all manufacturers of food and drink who use sulfites in their products be required to specify on the product label that a sulfite was used. However, we support each individual restaurant's right to decide whether to include calorie counts on their menu boards of calorie, fat, carbohydrates and sodium on their menus for all food and beverage items.
3. The National Grange urges the Department of Health and Human Services to review and strengthen the regulations pertaining to manufactured products used in the home canning process, including requiring a manufacturer's name and expiration date on these products.
4. The National Grange favors continued testing of cider processing but strongly urges Congress and the USDA not to require pasteurization of all commercial cider.
5. The National Grange supports easy and inexpensive access to vitamins and supplements. We urge that all herbal medicines sold in the United States be labeled with a warning to consult with a physician or pharmacist before using. We further support legislation that would require manufacturers and processors of vitamins, herbal supplements and other dietary supplements to report certain information to the Secretary of Health and Human Services annually, including a list of supplements manufactured, the labeling to include the country of origin and the major ingredients for such supplements, and be verified to contain only and all ingredients listed on the product label.
6. The National Grange supports national legislation to require clear labeling of food and medicines as well as other products that may be ingested when they contain gluten in any form, or as gluten-free when they do not contain gluten.
7. The National Grange encourages the continued efforts of the FDA and the USDA to establish a viable definition for the term "Natural" on food labeling.
8. The National Grange urges the Food and Drug Administration to modify regulations for the Food Safety Modernization Act in order to balance the need to ensure the safety of the food supply while seeing that the farmers selling direct to the consumer are not harmed economically.

*General Education Policies*

1. The National Grange supports public education and supports the idea of strengthening and improving the system of public education. Parents should have a choice of schools based on the schools' performance numbers provided that those parents furnish transportation for the children. We believe that every child should be able to receive a public education, and that the state is responsible for providing said education, which shall include the following: a broad curriculum with emphasis on basic language, physical education, math, and science skills; an opportunity for students to choose either vocational or "college preparatory" training; functional buildings; frequent public reports and accountability of funds; and basic training in agriculture, including the "Ag in the Classroom" program, covering both production and consumption.
2. The National Grange supports the adoption of a comprehensive health education curriculum.
3. The Grange supports the teaching of foreign languages, including sign language. We recommend that all other subjects be taught in the English language and that all non-English speaking students and residents in the United States be given the opportunity to receive immediate instruction in the English language through programs such as English-As-A-Second-Language. The National Grange seeks to establish a program for state granges to advocate for American Sign Language to be offered in primary and secondary schools.
4. The National Grange supports affordable telecommunications services for rural schools and libraries.

5. The National Grange supports the retention of the Head Start program and encourages its transfer to the US Department of Education. The National Grange also suggests that the Head Start program be completely integrated into federal and state education programs and that federal level funding be supported as needed to efficiently support the program.
6. The National Grange supports the teaching of both the theory of evolution and the story of creation, allowing individual school boards and students to make their own choice.
7. The National Grange encourages civics classes to be included in high school graduation requirements as suggested by the U.S. Department of Education, and supports the teaching of the Declaration of Independence and the Constitution of the United States, including the Preamble and the Bill of Rights, in schools.
8. The National Grange opposes any legislation allowing illegal aliens to receive tuition discounts at American institutions of higher learning.
9. The National Grange endorses "Read Across America;" we recommit our organization to engage in programs and activities to make Americans the best readers in the world.
10. The National Grange is opposed to any changes in the language of classic literature, except those necessary for translation from another language.
11. The National Grange urges the Federal Department of Education to encourage all local school systems to retain recess for elementary school children.
12. The National Grange supports legislation to establish standardized requirements for school nurses in all 50 states, as well as legislation to adequately fund school nurse programs to be able to handle the increased workload.
13. The National Grange urges the U.S. Department of Education to mandate that penmanship be a required course of study in early primary education.
14. The National Grange urges the US Congress and Administration to overhaul the Elementary and Secondary Education Act (currently known as the "Every Child Succeeds Act"), reduce the testing mandates, promote multiple forms of evidence of student learning and school quality in accountability, and not mandate any fixed role for the use of student test scores in evaluating educators.

#### *Nutrition*

1. The National Grange urges adequate funding for school breakfast and lunch programs. We support the American Dietetic Association's current guidelines recommending two to three servings of dairy products daily in the school nutrition program. We urge the USDA to keep dairy products in their Dietary Guidelines and encourage all consumers to include adequate amounts of calcium in their diets. School breakfast and lunch programs should provide balanced diets to meet a child's daily nutritional requirements. The National Grange urges school systems to promote milk in school lunches and urges USDA to promote the greater use of milk in other child nutrition programs.
2. The National Grange supports legislation that would require adjustments to child nutrition programs as necessary to promote better consumption of milk by the nation's students and to permit schools to offer all varieties of milk consistent with the Dietary Guidelines for Americans, including low-fat flavored milk containing no more than 150 calories per 8-ounce serving, as well as provisions for meeting the needs of lactose-intolerant children.
3. The National Grange urges legislation to repeal the Healthy Hunger-Free Kids Act and allow local communities to make their own guidelines on school lunches to reduce child obesity. The National Grange also encourages local communities making their own guidelines to look at alternative ways to reduce child obesity, such as how school lunches are prepared (baked vs. fried), requiring physical education classes, and eliminating unhealthy snacks and soda pop from vending machines.
4. The National Grange urges the agricultural community to provide nutrition education programs for consumers and school-aged children and support continued funding for the Farmers' Market Nutrition program.
5. The National Grange opposes any additional tax on "fat" foods for the purpose of preventing obesity. Instead, educational programs should be provided to encourage eating a variety of nutritious foods in moderation, and to teach the basic interaction of calorie intake and energy expenditure.
6. The National Grange urges the 2020-2025 USDA Dietary Guidelines to promote a more balanced diet that more accurately reflects studies that show there is no correlation between dietary consumption of saturated fatty acids and SFA levels in blood serum while consuming carbohydrates at levels exceeding an individual's ability to oxidize them contributes to high levels of unhealthy SFA.

#### ***PRESENT POLICY: HEALTH***

##### *Alcohol, Tobacco, Controlled and Toxic Substances*

1. The National Grange encourages the bold, accurate labeling of household products (including carpeting and furniture that have been treated with toxic chemicals), farm chemicals, and other products containing toxic ingredients.
2. The National Grange supports the continuation of the many programs presently fighting substance addiction. The National Grange urges that funding for addiction treatment be governed by medical personnel and not by non-medical administrators of reimbursement programs. The National Grange supports legislation to end insurance discrimination against Americans living with mental illness and addiction in order to provide necessary assistance and treatment programs that will allow many of these afflicted individuals to return to a productive life in mainstream society.
3. The use of steroid and other stimulants, unless prescribed for medical reasons, should be made illegal in all competitive sports and the National Grange supports having heavy penalties imposed upon the violators. We also support legislation banning the sale of

- synthetic marijuana and synthetic cannabinoids regardless of their chemical composition or the name they are sold under.
4. The National Grange supports aggressive enforcement of the laws to stop the import of all jewelry and any other products from foreign countries that contain highly dangerous levels of cadmium, other metals or chemicals.
  5. The National Grange support legislation to prohibit the use of BPA and other similar industrial chemicals in all children's products, human food and food packaging.

*Deaf, Hard of Hearing and the Disabled*

1. We strongly support legislation to protect the rights of deaf and hard of hearing persons.
2. The National Grange encourages manufacturers of machinery and stereo equipment to place warning labels, where feasible, informing consumers that permanent hearing loss could occur as a result of prolonged noise exposure above 85 decibels.
3. The National Grange supports legislation requiring emergency warning messages to be both close captioned and delivered verbally, and all television stations provide closed captioning for news, weather, sports, and other live events.
4. The National Grange supports the installation and use of "induction hearing loop systems" compatible with telecoil ("T" switch) hearing aids.
5. The National Grange supports legislation that would require all health insurance companies to cover hearing screening, testing, surgery, and hearing aids, including mandatory regular hearing screenings and hearing aids for children.
6. The National Grange supports legislation that would establish detection and intervention programs for newborns and infants with hearing loss. We further urge Congress to pass legislation to require hearing testing of newborns prior to their release from the hospital.
7. The National Grange supports legislation so that any retired military service personnel with 50% or more service-related disability rating be allowed to obtain and receive needed dental treatments at the Veteran's Administration Dental Clinics at no cost.
8. The National Grange urges the U.S. Department of Health and Human Services and Congress to extend the Support Service Provider program to all 50 states.

*Family Planning*

1. We oppose any amendment to the United States Constitution that denies an individual the freedom of choice for abortion. We recognize the need for readily available family planning information for those who need or desire it. However, we do oppose partial-birth abortions. Government financing should not be available for abortions, except in cases of rape, incest, endangered health of the mother, or serious defects of the fetus. We support educational efforts, which would emphasize the necessity for licensed hospitals and medical doctors when abortions are necessary. We further support requiring all abortion agencies to provide counseling by qualified professional personnel to explore all possible options before an abortion, and we favor state legislation requiring abortion and family planning clinics to notify parents or guardians of minors who are seeking drugs or abortions.
2. The National Grange supports the release of adoption records that will provide family health history.
3. The National Granges opposes the distribution of any contraceptives to middle school age students.
4. The National Grange supports legislation that requires coverage of infertility treatments.

*Health Care Consumer Protection, Patients' Rights and Accessibility*

1. The National Grange supports access to affordable health care and health insurance for every American regardless of age, race, income, health condition, or location with freedom of choice of medical provider and facility. We call upon federal regulators to ensure insurance companies abide with mental health parity laws already on the books to correct what remains an unequal health care system for patients with behavioral health conditions. In addition, health care cost containment strategies should maintain the highest quality of care without compromising effectiveness and efficiency. The National Grange calls upon the President to take immediate steps to reduce regulatory burdens and duplication to enhance care coordination by allowing health care providers to focus on patients rather than paperwork. The National Grange supports restrictions being placed on insurance companies, so that they can only cancel policies for nonpayment or fraud, and not because of new health issues. We favor legislation to guarantee that the attending physician's decision is the governing factor regarding appropriate medical treatment or length of hospital stay. The physician's decision should be the deciding factor for coverage whether or not treatment or hospitalization takes place in or out of the patient's home state. We believe HMOs should be required to accept the determination of the attending health care provider as evidence of the need for an emergency visitation or ambulance service. The National Grange encourages all families to carry catastrophic health insurance.
2. The National Grange will work with other organizations to develop and present a "Healthcare Bill of Rights" for Americans to Congress. We support proposals for health care reform that include the following safeguards:
  - a) allow patients to sue HMOs for medical malpractice;
  - b) place a cap on how much an individual may sue for per medical malpractice suit, including a \$250,000 cap on malpractice awards arising from non-economic claims (i.e. pain and suffering);
  - c) place a cap on malpractice awards regarding product liability;
  - d) require insurance companies to provide hospital coverage for birth as deemed necessary by the doctor;
  - e) establish an efficient grievance and appeal process for patients when medical procedures or payments are denied by insurance companies/HMO's;
  - f) require that insurance companies cover all legally mandated medical services deemed necessary by a doctor at federal, state, or hospital levels, including preventative procedures such as Well-baby check-ups and childhood immunizations;
  - g) require insurance companies to pay claims within 30 to 45 days of receiving properly completed forms and bills.

- h) We also support a health care plan that includes the following provisions:
- Access to affordable, portable health care, health insurance and prescription drugs for every American regardless of age, race, income, health condition or location with freedom of choice of medical provider and facility.
  - Each person should be treated with dignity, equality and respect and health information should be provided in a manner that is easily understood and comprehended.
  - Protection of Medicare or current health insurance coverage as they are presently provided with no reduction in coverage.
  - No ban on writing new policies for insurance companies.
  - Preventive care, screenings and services that include educational programs, immunizations and holistic or alternative medicines that assist the patient in taking responsibility for their own care but do not mandate participation.
  - A national registry of health information that is accessible in all health care settings by health care professionals.
  - Encourage utilization of technology, such as telemedicine, to support the delivery of care and management of patient conditions.
  - Address the alarming rate of medical errors in health care settings by establishing guidelines, training and standards.
  - Oversight of any federal healthcare program should be provided by a qualified health agency and not the Internal Revenue Service.
  - Medical decisions should be made by licensed medical professionals based on the needs of the patient.
  - Efforts to reduce overall health care costs while providing the right care by the right provider at the right time in the right place and for the right cost.
  - Guidelines for revamping the reimbursement structure to support the delivery of primary care that seeks to address the needs of the costliest patients.
  - Programs to ensure that there is an ample health care workforce that is qualified to deliver all levels of care.
  - Any health care program established by Congress should be acceptable to the members of Congress as required coverage for them and their families.
3. The National Grange believes that teeth should be declared a legitimate part of the body requiring the same comprehensive level of care and coverage as any other part of the body by health insurers and that all prosthetics, including dentures, implants, crowns, and bridge work be covered at the same rate as all other medical procedures. The National Grange also believes that dentists should be treated as any other medical specialists by both the government and insurance carriers and reimbursed at comparable rates.
  4. The National Grange urges federal agencies to be more aggressive in their investigations and prosecutions of fraud, waste, and abuse in the health care system. We support efforts to maintain the National Practitioners Data Base allowing consumers to have access to malpractice reports so they can properly choose the best medical professional for themselves.
  5. The National Grange encourages all continued legal and legislative actions necessary to eliminate the sources of counterfeit medications and to pursue the prosecution of those found responsible for the making and marketing of them, in support increased efforts to educate the public on the dangers of obtaining medications from unreliable sources.
  6. The National Grange supports tax deductible Medical Savings Accounts (MSAs) in the form of an Individual Retirement Account (IRA) type account to be used strictly for medical expenses. The National Grange supports legislation that reinstates the list of Over The Counter items eligible for reimbursement under Health Saving Accounts (HSAs), Flexible Spending Accounts (FSAs), and Health Reimbursement Accounts (HRAs), removes limits on contributions and allows year-end balances to roll over to the New Year or return to the employee.
  7. We support extending health care coverage under COBRA for all terminated employees who qualify for a period of up to 36 months or until eligible for Medicare/Medicaid and include portability of health insurance coverage even if there is a pre-existing condition for those who change jobs or become unemployed. The National Grange supports tax incentives for businesses to provide health insurance coverage for their employees and 100% tax deductibility of health insurance premiums for the self-employed and individuals acquiring private health insurance.
  8. The National Grange favors the passage of laws, which allow parents/guardians in conjunction with their doctors to decide whether or not to keep severely physically and mentally handicapped children alive by life support systems without interference by the government.
  9. The National Grange urges that the new federal and state laws on privacy of medical information be examined, and amended if necessary, so that medical practitioners may release or disclose limited information when necessary to contact relatives or others who are needed to authorize medical treatment. We further support legislation that would require patients, when physically or mentally able, to submit their medical background to health care professionals.
  10. The National Grange supports federal legislation requiring all restaurants and all public buildings to be smoke free and to require builders and landlords to include carbon monoxide detectors as well as smoke detectors in buildings they build or manage. Carbon monoxide detectors should be monitored quarterly and replaced as needed.
  11. The National Grange strongly opposes any effort to require the Internal Revenue Service to turn over tax return documents to other government agencies that review health care decisions.
  12. The National Grange opposes the imposition of a tax on medicine or medical supplies.
  13. The National Grange supports legislation to override the 1950 Supreme Court ruling that prevents medical malpractice suits against military doctors with the exception of threat of war.
  14. The National Grange opposes any legislation that would disenroll any veteran who is currently receiving health care coverage through the Veterans Administration (VA) Health Care System.

15. The National Grange supports that complete medical records be made available to the service member at the time of separation for future Service-Connected Issues that may manifest after separation from service.
16. The National Grange supports World Mental Health Day observed annually on October 10.
17. The National Grange will work with other organizations to urge the Medicare Payment Advisory Commission to reject proposals to increase patient out-of-pocket costs and co-pays for beneficiaries under the Medicare Prescription Drug Benefit (Part D).
18. The National Grange urges Congress to reform the Affordable Care Act in an open bipartisan manner. Special care needs to be taken so that rural hospitals that traditionally have high numbers of uninsured patients are not harmed by the reform.
19. The National Grange supports legislation that would bring about protection of parental and/or guardian rights in the guidance, control and administration of their dependent minors' health care. This legislation should be written to include any and all federal, state and local government agencies.

*Long Term Care and Assisted Living*

1. The National Grange supports coverage for long-term nursing/in-home care, including an allowable tax credit for long term care insurance premiums, and an allowable tax credit for adult day care expenses incurred by primary care givers of adults who cannot care for themselves. A tax credit should also be available for programs to provide assisted living to the elderly in their own homes. We urge changing the Medicare entitlement and managed health care insurance programs so that they provide payment for assisted living programs.
2. The National Grange supports legislation that will provide uniform care and services to nursing home patients and will protect their rights.
3. The National Grange encourages Congress to require Medicare to make timely payments to both acute care and extended care facilities to ensure that the correct level of care is maintained for all patients.
4. The National Grange urges the U.S. Health Care Financing Authority to allow elderly couples to be in the same nursing home when long term care for both becomes necessary.
5. The National Grange supports action that develops a comprehensive and economical method to treat patients requiring Palliative Care.

*Medical Research/Awareness*

1. The National Grange supports and recognizes the value of medical research in increasing the quality of life. We support improvement in the quality of health care services and access to new and existing technologies. We encourage continued funding of medical research, including the responsible use of animals in research.
2. The National Grange encourages research to continue on alternative treatments, such as acupuncture, hypnosis, massage therapy, prayer, and meditation, which may be used in conjunction with the standard treatments that are showing results against diseases.
3. The National Grange supports the National Cancer Institute and encourages Congress to continue providing funds for research.
4. The National Grange supports the establishment of a "radiation database" on radiation releases to the public resulting from both intentional and unintentional releases due to nuclear weapons testing and accidental releases from nuclear power plants.
5. The National Grange supports legislation to explore the risks involved in the use of water fluoridation in the United States.
6. The National Grange urges that information about Shaken Baby Syndrome (SBS) should be given to all parents and caregivers of children under five years.
7. The National Grange urges adequate funding for agencies at all levels dealing with the HIV and AIDS problem and supports increased emphasis on testing.
8. The National Grange urges the use of government funds for stem cell research only on postnatal or adult stem cells. We further support the research and possible use of cord blood stem cells and, promote the registry and donation of cord blood stem cells. However, we support legislation banning full human cloning.
9. The National Grange supports legislation that would ban the patenting of natural occurring genes. We only support the patenting of treatment and/or alterations of those natural occurring genes.
10. The National Grange supports governmental efforts on the state and national level to fund research on the prevention and treatment of Lyme disease and other tick-borne illnesses, to disseminate information and to educate the public about its prevention, detection, and treatment.
11. As an incentive for the pharmaceutical industry to develop drugs for "orphan" diseases, the National Grange encourages "market exclusivity" for orally administered Alzheimer's and Dementia medicines and treatments.
12. The National Grange supports continued research on man-made nanoparticles used in medical devices and sunscreen.
13. The National Grange and all state and local Granges support the various national, state and local agencies and commissions striving to eliminate the unintended and intended abuse of heroin and opioid addiction. The National Grange will be proactive in support of a variety of treatment solutions and programs. The National Grange supports systems to limit the over prescribing of opioids and the education of the application of Naloxone (Narcan) pursuant to state regulations.
14. The National Grange encourages legitimate scientific studies on the risks and benefits of the use of medical marijuana in the treatment of disease.

*Medicare/Medicaid*

1. The National Grange supports the following reforms and changes in the Medicare and Medicaid programs: a) equity of payment between inpatient and outpatient procedures according to Medicare's Diagnostic Related Groups; b) equity in reimbursements between rural and urban hospitals; c) prohibit hospitals or doctors from setting fees or discontinuing Medicare assignments for specific diagnosis

during treatment on the basis of the method of payment or from charging amounts above the Medicare limits for Medicare services; d) faster processing of claims to permit faster reimbursement; e) extended coverage to ensure sufficient time for full recovery; f) health care professionals; and (g) all reimbursements under the Medicare program to all Medicare patients, medical personnel, suppliers, be made within a three month timeframe and (h) adequately compensate primary care physicians for non-procedural services.

2. The National Grange supports a full investigation of the causes of the rapid increase in Medicare/Medicaid costs. We urge our legislators to investigate pricing, availability and coverage options provided by health insurance companies as supplemental coverage for Medicare recipients. The National Grange supports the ability of Medicare and Medicaid to negotiate with drug companies for the best reimbursement price of prescription drugs for consumers. We further support a cap on the annual increase in Medicare deductions of no more than the general inflation rate. The National Grange strongly urges Congress to refrain from reducing payment to physicians and providers under Medicare since it would add an additional burden to patients needing to use the program. The National Grange urges all U.S. Senators and Representatives to continue to support funding to all aspects of the current Medicare programs.
3. The National Grange will lobby for a change in current Medicare insurance to include coverage for hearing exams and hearing aids. The National Grange urges Medicare and Medicaid to review their payment schedules and make changes which recognize recommended and accepted medical procedures and screening tests, such as: coverage for the prostate-specific antigen test (PSA); increased coverage for home health care costs; reimbursement for services of midwives and physicians' assistants; coverage for outpatient office laser surgery.
4. The National Grange favors legislation permitting retired people to deduct the cost of their supplemental health insurance from their taxable income and legislation to improve access to Medicare to ease the financial burdens on seniors. We support changing current regulations to permit seniors who are "grandfathered" by residence address into a Medicare supplemental insurance program to be allowed to move anywhere within the original service area without being dropped from their insurance plan. We further support a division of assets procedure for Medicaid and Medicare that would preserve the financial stability of a healthy spouse.
5. The National Grange supports the right to have a second doctor in the operating room, where medically required, for patients on Medicare.
6. The National Grange supports legislation that would give eye and dental insurance to seniors age 65 plus for those procedures that Medicare does not cover, with a co-pay/deductible for amounts over 100 dollars.
7. The Grange at all levels works to convince our government that Medicare money should also be spent on health screening for early intervention of diseases which is far more economical than the huge cost of treating advanced stages of the diseases.
8. The National Grange urges Congress to pass an act allowing Medicare information to be given to an assigned representative and that the representative be allowed to act on behalf of said patient without consignment of Medicare and/or Social Security benefits.
9. The National Grange supports the continued process to eliminate the "donut hole" for Medicare prescription coverage.
10. The National Grange urges the United States Congress to amend the Federal Health Care Overhaul Bill to read that all states be fiscally responsible for their portion of Medicaid expenses.

#### *Prescription Drugs and Medicines*

1. The National Grange supports making prescriptions and over-the-counter drugs more affordable. The National Grange strongly encourages drug companies to produce lifesaving and life enhancing medicines for a wide variety of diseases and medical conditions. We further support requiring all government and private prescription drug coverage programs to offer the widest possible selection of lifesaving and life enhancing medicines at an affordable price for those who need them.
2. The National Grange supports allowing U.S. citizens, who are visiting foreign countries, to bring back with them up to three months supplies of regulated pharmaceutical products for their own use, provided that they have valid prescriptions for those specific pharmaceutical products from their U.S. physician. The National Grange supports the current Federal Food, Drug and Cosmetic Act provisions that generally do not allow regulated pharmaceutical products to be imported into the U.S. for sale or distribution unless those importers are also pharmacists and/or pharmaceutical wholesalers currently subject to federal and state regulation. We strongly support current law and regulations that require anyone who imports regulated pharmaceutical products for sale or distribution in the U.S. to keep accurate records tracking the origin, history and chain of custody of these products before they entered the U.S. We support legislation requiring anyone authorized to import regulated pharmaceutical products for sale or distribution in the U.S. to be financially responsible for any testing necessary to verify the authenticity and/or degradation of the pharmaceutical products they import. We support strictly limiting the importation of pharmaceutical products to drugs from licensed pharmacies and wholesalers who sell to the public in Canada. We support providing the FDA (Food and Drug Administration) with sufficient resources and authority to ensure the safety of imported drugs from Canada employing technological and other safeguards. We further support legislation requiring anyone authorized to import regulated pharmaceutical products for sale or distribution in the U.S. to be allowed to import such products only if they are shipped into the U.S. in counterfeit proof and tamper resistant packaging.
3. The National Grange supports a voluntary program, which would offer pregnant women who test HIV positive voluntary access to the drug AZT that could prevent the transfer of the HIV antibodies to the unborn child or newborn child.
4. The National Grange will work to secure legislation requiring physicians to obtain specific written approval of the patient or those legally authorized to give approval prior to prescribing experimental drugs. When the physician prescribes experimental drugs, the warning and permission form must be in clear, common layman language on a separate medical form.
5. The National Grange supports legislation that would require the pharmaceutical companies to significantly reduce the minimum dose purchase requirement for pneumococcal vaccine. We recommend that local county Health Departments

- include this vaccine in required childhood immunizations.
6. The National Grange urges the Food and Drug Administration to mandate that pharmaceutical producers label all products and commodities containing gluten.

*Rural and Home Health Care*

1. We urge that the federal government maintain block grant/matching funds to states for community health clinics.
2. The National Grange supports legislation to ensure that fairness in price and benefits offered becomes a part of any and all medical insurance programs. The National Grange believes that payment to health care providers should adhere to a schedule of fees for services provided that is fair and equitable across the United States.
3. The National Grange supports incentive programs for doctors who will agree to practice in rural areas where basic medical care is not available and supports the creation and/or expansion of programs that encourage students to become general practitioners and that address incentives and reimbursements for primary care.
4. The National Grange supports the establishment or use of the necessary infrastructure for the expansion of telemedicine into rural areas. The National Grange also supports the elimination of regulatory and statutory impediments to broaden the use of telemedicine and telehealth and institute a more uniform approach for reimbursement.
5. We encourage local Granges to present programs that educate the community about pharmaceutical assistance programs.
6. The National Grange supports preserving quality, rural home health care services provided under traditional fee-for-service Medicare by opposing the imposition of new, patient co-payment fees and the imposition of further cuts to reimbursement rates for home health care service providers.
7. The National Grange supports efforts by Congress, the Center for Medicare and Medicaid Services (CMS) and the home health care industry to reduce unnecessary Medicare spending on home health care services by aggressively weeding out instances of fraud, abuse and poor management practices in the home health care sector.
8. The National Grange supports passage of the "Caregiver, Advise, Record and Enable (CARE) Act" to prepare caregivers for home healthcare medical and nursing tasks.
9. The National Grange, through Grange Advocacy, engages the American Association of Community Cancer Centers in discussions regarding potential joint efforts to address the lack of access to proper health care and cancer care in rural America. Further, National Grange will support legislation to improve funding and change regulations to help keep rural hospitals and health care facilities open.

## *Labor, Judiciary & Transportation*

### **POLICY STATEMENT**

#### **Labor**

The Grange has long fought for the rights of both employers and employees to live and thrive, understanding that worker protection and prosperity are not in conflict with company success and solvency. We believe that the hardworking men and women of America's workforce deserve the opportunity to earn a fair wage in a safe work environment and the guarantee that their pensions and subsequent benefits will be protected and preserved. We encourage businesses, municipalities, school districts, and state governments across the country to be proactive in ensuring the future growth and stability of employee pension benefits and to guard against their loss in the unfortunate event of a company merger or bankruptcy.

We support legislative efforts to streamline the H2A process to ensure that all agricultural operations can have access to guest workers. The National Grange supports an Agriculture Guest Worker Program for the establishment of the H-2C visa program for skilled agricultural workers to be administered by the USDA. This provides an option to both seasonal and year-round labor needs, recognizing that not all agriculture jobs are the same or require the same level of skill or experience. The H-2C visa program better understands the unique needs of the American farm and ranch operations and the challenges of processing raw, perishable commodities. This will offer workers and employers more choices in their employment arrangements, with more flexibility and less bureaucratic red tape than the H2A visa program.

The global economy has allowed American businesses to reach markets once inaccessible and has increased the demand for many of our goods, including our agricultural products, in far regions of the world. The National Grange continues to be an advocate for the implementation of fair free trade agreements that encourage international commerce while also incentivizing domestic job growth and economic output for American companies. We do not however, support the bailout of any country, state, or territory that has engaged in wasteful spending and behaved in a financially irresponsible manner.

#### **Judiciary**

Since its founding in 1867, The Grange has been a staunch defender of our Constitution and the rights and privileges it protects for every citizen. As a nation of law and order we must work to draft, pass, and maintain legislation aimed at ensuring a peaceful society and a fair judicial system. Our first responders work hard and serve bravely on a daily basis. The National Grange will forever strive to grant them the support and respect they deserve.

The Grange understands that citizens and the officials they elect are the best candidates to write the laws by which we will be governed, and that administrative agencies, commissions and other unelected governing bodies should be prohibited from drafting and implementing such regulations that dramatically impact our daily lives. We urge elected officials at all levels to periodically review and purge outdated laws and reduce burdensome and unnecessary regulations that stifle economic growth and fundamentally impede the free market system.

We vehemently oppose the use of eminent domain to confiscate private property for commercial use or any project that does not directly benefit the general citizenry.

Identity theft continues to be a significant problem in the United States. We support legislation that would increase security of personal and credit card data to prevent fraudulent enterprises from acquiring and utilizing that data.

#### **Transportation**

From its inception in 1867, the National Grange has been an advocate for a strong transportation infrastructure. In many ways, agriculture is the "original" business and as such has driven the establishment of a multitude of subsequent industries down the economic food chain, including infrastructure development. The need for farmers to get their products to consumers drove the establishment of our nation's railroads, highways, and waterways and today continues to drive the development of our national

infrastructure. Our nation's overall infrastructure (broadband, transportation services, water and waste management, ports, aviation, parks, schools) is in critical need of repair and upgrade. We urge that funding be appropriated to improve critical infrastructure.

We continue to support laws requiring drivers to slow down and move over while passing an emergency vehicle that is stopped with lights flashing and believe all drivers should be held responsible for their driving and guard against distractions from cell phones and other such devices. We also support increased visibility devices for school buses. We strongly support technology that enhances the visibility of vehicles, rail cars, bicycles, motorcycles, trucks, etc.

We support the designation of English as our national language and thus believe that all road and highway signage should be printed only in English.

## **PRESENT POLICY: LABOR & TRADE**

### *Commercial Trade Policies*

1. The National Grange believes that opening trade between nations increases international understanding. We will actively support programs to increase the competitive position of U.S. companies in world markets.
2. The National Grange encourages purchasing American-made products and recommends that all levels of government be required to buy American made products whenever feasible.
3. The National Grange supports a fair and equitable textile import policy that provides assistance to the domestic industry, is beneficial to the producers of fibers and is not be price inflationary to the U.S.' consumers.
4. The National Grange supports removal of trade, financial, and travel restrictions to Cuba.
5. The National Grange supports prohibiting the sale or lease of properties and/or businesses within the limits of the United States to any foreign purchaser or leaser whose country prohibits the sale or lease of properties and/or businesses to U.S. businesses or citizens.
6. The National Grange supports national, coordinated policies to combat trade-distorting practices instituted by foreign governments, such as currency manipulation and unilateral repudiation of sovereign debt, especially in those cases where it becomes more difficult for U.S. farmers and manufacturers to sell their products in overseas markets.

### *Immigration, Aliens, and Migrant Workers*

1. The National Grange supports the strict enforcement of the immigration laws of the United States and regular review of these laws to be sure they meet the needs of our country. We support increased efforts to patrol our borders, preventing the illegal entry of aliens into our nation, including the assignment of military forces to assist civilian agencies in enforcing our border control policies. We support a prohibition on general amnesty for all illegal aliens of any nationality. We support requiring proof of citizenship and/or legal registered immigration to receive government benefits. We also recommend that federal authorities be allowed to detain illegal immigrants and foreigners with expired visas for the duration of their investigation and processing and be deported if immigration status is determined to be illegal.
2. The National Grange supports legal programs to bring guest workers into the United States on a temporary basis for the production of seasonal crops. We support reform of current foreign guest worker programs to allow for expedited processing of foreign guest workers employed in the agricultural sector as well as reform of the H2A program so that the wage costs to farmers when hiring under the H2A program more closely reflects the prevailing local wage. We further support an amendment to the Migratory and Seasonal Agricultural Workers Protection Act recognizing that a crew chief is an independent contractor who is responsible for the general care of his crew when it does not conflict with the requirements that are assigned to the landowners.
3. Agricultural employers are responsible for checking the identification, but not for the authenticity, of migrant and seasonal worker documentation at the time of employment. Employers who unknowingly hire illegal aliens should not be penalized. National Grange supports legislation or a Constitutional amendment to require that children born in the United States must have one parent who is already a United States citizen in order to automatically receive citizenship and government benefits.
4. The National Grange supports enactment of a practical and enforceable guest worker visa program. The National Grange supports the expansion of the H-1B visa program for professionals/advanced agricultural skills/technical skills to enter the United States to provide services in sectors where there is a documented need.
5. The National Grange supports existing federal law that includes sheepherders in the H-2A visa (temporary work visa) program.

### *Wages, Employment, and Unions*

1. The National Grange supports the repeal of the Davis-Bacon Act of 1931. Until that time, the threshold exemption level of the Act should be indexed to the rate of inflation.
2. The Grange opposes the legislative enactment of a Farm Worker Bill of Rights. We oppose legislation that would impose a 40-hour workweek that places a limitation on hours that can be worked in a single day, or that requires time and a half pay for overtime on a farming operation.
3. The National Grange opposes the child labor laws of the U.S. Department of Labor restricting family members under the age of 18 from working with animals, handling pesticides, working in timber operations, manure pits, grain elevators, feed lots, livestock auctions, and cultivating, harvesting, and curing tobacco, as well as restricting family members under the age of 16 from operating power-driven farm equipment; examples: tractors, combines, farm trucks, ATV's, and shredders.
4. The National Grange supports realistic OSHA workplace safety regulations. It should be both the employer and employee's responsibility to follow safe work practices. Any employer who is cited by OSHA for violating workplace safety regulations should

- be allowed a reasonable period of time to correct that violation before being penalized. The National Grange believes that OSHA reform legislation as well as any other new workplace health and safety standards should exempt farms having fewer than 10 full-time employees. The National Grange favors lifting the bans in the Fair Labor Standards Act of 1943, which outlaws work that is done in the home in embroidery, gloves and mittens, handkerchiefs, buttons and buckles, jewelry and clothing.
5. The National Grange supports allowing individuals enrolled in an accredited job training or vocational education program, who are collecting unemployment compensation, to decline offers of employment without losing their unemployment benefits.
  6. The National Grange supports legislation that would require products bearing an "American Made", or equivalent claim, to have U.S. manufacturing costs constituting at least 75% of the total manufacturing costs for the product, and to be substantially assembled in the United States.
  7. The National Grange supports legislation that requires all employers to pay at least the minimum wage, regardless of whether the employees are tipped. We also support legislation to allow younger teens (ages 13-15) to be given the privilege of working a maximum of ten hours a week for less than the minimum wage. After a probationary period, established by the employer, the younger teen should be paid the minimum wage.
  8. The National Grange urges the necessary changes to the Federal Fair Labor Standards Act (FLSA) that would exempt volunteer worker member co-operatives from minimum wage requirements, allowing members access to quality foods at affordable prices.
  9. National Grange strongly urges that the process to form a new union continue to be by secret ballot. We favor binding arbitration clauses in labor contracts covering public sector employees.
  10. We support the right of individuals to join a union and collectively bargain in good faith, as long as employees are not required to join or contribute money to any organization that claims to represent their interests in the workplace. We further support mandatory restrictions on the use of compulsory union dues for political, charitable or social causes without the paying members consent.
  11. The National Grange supports legislation that allows employers to hire replacement workers during a strike.

## **PRESENT POLICY: JUDICIARY**

### *Banking and Consumer Credit Law*

1. The National Grange supports strong independent banks in lieu of further concentration of banking and financial powers in interstate and nationwide firms. Banks should be prohibited from entering the field of general commerce.
2. The National Grange believes that any banks allowed to write and sell insurance must be subject to all applicable state insurance resolutions and laws as administered by State Insurance Commissions. We believe that any banks that are allowed to offer or underwrite securities must be subject to regulation by the U.S. Securities and Exchange Commission.
3. The National Grange supports the continued independence of the National Credit Union Administration (NCUA) and opposes the merger of the NCUA with any other government financial institution insurance fund.
4. The National Grange urges state and federal banking regulators to better monitor fees charged by banks, reduce and eliminate those that are unfair, and provide customers with protection against aggressive banking business practices.
5. The National Grange supports regulations requiring that all dormancy and/or inactivity fees for store gift cards and prepaid gift cards be permanently eliminated, just as these fees have been eliminated for credit cards.
6. We oppose unreasonable delays in the availability of the funds from a deposited check. We support requiring all banks to honor government checks that are presented to them for payment.

### *Bankruptcy*

1. The National Grange favors additional penalties for bankruptcy fraud to combat planned bankruptcies and other abuses.
2. The National Grange supports companies or businesses that file for bankruptcy to ensure that the employees who are owed compensation are the first secured creditors.
3. The National Grange supports legislation, which would classify producers having an ownership interest in agricultural products as secured creditors in bankruptcy cases.

### *Children and Family Law*

1. The National Grange supports efforts to increase public awareness of child abuse and the existence of child predators in our society. All child abuse laws and child predator laws should be reviewed, revised, and enforced so as to secure the safety and wellbeing of all children while remaining protective of the rights of innocent families and individuals. The National Grange supports equalizing sentencing of perpetrators of sexual abuse without regard of the familial relationship of perpetrator to the child. We further support greater notification requirements on convicted child predators, including immediate notification to authorities of address changes, community notification of the presence of a convicted child predator, a national child predator registry on the internet listing the current address of all convicted child predators and substantially increased penalties for failure of convicted sex offenders to comply.
2. The National Grange favors reforms that would consider the best interests of the child in all proceedings, investigations, or rulings by the courts.
3. The National Grange supports requiring that the biological father's name, if known and proven, be recorded on the child's birth certificate for purposes of determining the child's right to Social Security, and other support that should be provided by the father.
4. The National Grange supports policies that grant legal surrogate decision-making authority to grandparent caregivers in the absence of responsible parents or stepparents. We support financial, social and legal supports as needed to grandparent caregivers raising grandchildren. We further support protecting the visitation rights of grandparents. In the case of a child

who is legally removed from the parents, the grandparents should be the first to be considered as the custodian of that child.

#### *Civil Law*

1. The National Grange supports fairness in the civil judicial system at the state and federal levels through reform of tort, liability, and malpractice law. We favor a civil law system in which the plaintiff, if they lose, will be responsible to pay the defendant's legal and court costs when the court rules the lawsuit was frivolous. We further support limiting the amount of contingency fees that are paid to lawyers as well as putting caps on excessive jury awards for economic and noneconomic damages, such as pain, suffering, and bad faith. We support placing limits on findings of joint and several liability and clearly established standards of bad faith action. We support incentives for alternative dispute resolutions, such as arbitration. The National Grange supports that businesses and medical professionals are not required to use Social Security numbers as identification and be allowed to use a different means of identification for customers and patients. We also favor legislation to regulate support animals to reduce the opportunity to fraudulently claim pets as support animals.
2. The National Grange believes that Legal Services Corporations and local legal aid bureaus should not receive any federal funding for suits against farmers. The National Grange also believes individuals should be prohibited from initiating so called "citizen suits," civil litigation against farmers and others for environmental violations without demonstrating any direct loss or damage to initiate such a suit.

#### *Consumer Protection Law*

1. The National Grange supports legislation to allow the consumer more control over who has access to credit reports
2. The National Grange supports identification of all products that are foreign-made or assembled.
3. The National Grange supports requiring all companies to comply to the full extent of the law in setting strict limits for lead, lead paint and chemicals known as phthalates, and the mandatory third-party testing of products geared for children 12 and under.
4. The National Grange urges Congress to enact laws protecting an individual's right to privacy and to protect the confidentiality of all personal records from fraudulent use. The National Grange supports a program to educate individual consumers regarding how to report suspected identity theft activities. We also support stronger penalties for those convicted of identity theft including full restitution to all victims. National Grange supports allowing children's Social Security numbers and other private information to be frozen by the child's legal custodian in order to protect them from identity theft.
5. The National Grange supports allowing nonprofit organizations to make continued "incidental use" of copyrighted music.
6. Regulations should be enacted that require companies to give consumers the option of mailed billings or statements without surcharges.
7. The National Grange encourages companies to print product expiration or use by dates in the mm/dd/yy format.
8. The National Grange encourages changes in federal legislation, such that "compounding pharmacies" participating in interstate commerce would be classified as pharmaceutical manufacturers, under the Food, Drug and Cosmetics Act. The National Grange also supports that, as pharmaceutical manufacturers, "compounding pharmacies" be subject to Pharmaceutical Good Manufacturing Practices, FDA inspection and enforcement, and federal drug industry user fees.

#### *Crime and Punishment*

1. The National Grange supports imposing stiff mandatory sentences in criminal cases. We believe plea-bargaining should be restrained. We further believe that convicted criminals should be responsible for restitution to their victims and society. The National Grange believes that persons who are convicted of rape, murder, or any three-felony offenses should serve their full sentence without benefit of parole or furlough. We support the death penalty for premeditated crimes ending in death. We further support the death penalty for all citizens who are convicted of military espionage in either peacetime or war.
2. The National Grange favors classifying the importing, manufacturing, cultivation, or distribution of all illegal drugs as felonies under state and federal statutes. An appropriate prison sentence should be imposed upon conviction for any felony drug offense.
3. The National Grange recommends that the U.S. Congress reauthorize the Trafficking Victims Protection Act to help prevent enslavement of persons and protect those who have been victims of enslavement. The National Grange also encourages its members to educate themselves and others about the dangers of human trafficking.

#### *Firearms and the Second Amendment*

1. The National Grange opposes any additional gun control laws until the present laws are strictly enforced. We oppose legislation restricting the rights of citizens to bear arms for protection of their families, property and common defense, except for assault weapons manufactured and designed specifically for military use and stun guns. We favor severe and mandatory sentences, including incarceration, for anyone using firearms while committing a crime.
2. The National Grange supports prohibiting the manufacture and sale of toy guns that are replicas of real guns.
3. The National Grange urges at the federal level, a law of national reciprocity between states be created so that a legal permit to carry weapons from one state be recognized by all states.

#### *General Law*

1. The National Grange opposes federal regulations that force the closings of jails or that require excessive expenditures of state funds.
2. The National Grange supports tort reform to exempt manufacturers of goods and machinery from all lawsuits, fines, liabilities

and other civil penalties if they meet all the state and federal regulations that were in effect at the time the product was built or produced. The National Grange also supports legislation which prohibits civil actions against a manufacturer or seller of food or a trade association for any injury resulting from a person's consumption of food including weight gain, obesity, or any associated health condition.

3. The National Grange supports federal legislation to prohibit gambling on the Internet. We further support legislation to make the unsolicited e-mailing or posting of advertisements for pornographic websites and materials both a criminal and civil offense in order to control the availability of pornographic material to children.
4. The National Grange recommends that there be no changes in the federal laws that currently ban the production and sale of marijuana in the United States.
5. The National Grange supports legislation to place salvia divinorum under the control of the Controlled Substance Act.
6. The National Grange supports legislation, which will create a new 12th Circuit Court of Appeals to meet the needs to the Pacific Northwest, Alaska, Hawaii and the Pacific Territories.
7. The National Grange believes that state law, not federal law, should have jurisdiction over "hate crimes" and state law should be responsible for assigning specific punishment for these crimes.
8. The National Grange believes that cell phone use by inmates should be banned at all state and federal correctional facilities. Prison visitors should be required to surrender all cell phones at the facility entrance until their departure.
9. The National Grange supports legislation requiring that Members of Congress shall deposit all personal investments into blind trusts for the duration of their term of office.
10. The National Grange supports the use of drone aircraft and associated technologies.
11. The National Grange supports that no federal official may halt harvesting and transporting of any farmer's perishable crop by declaring the crop as "hot goods."
12. The National Grange supports the principle that all federal judges be reconfirmed every 10 years to remain on the bench.
13. The National Grange supports revisions to the Hatch Act to permit federal employees to run for local municipal and county offices so long as no conflict of interest exists.

#### *Insurance Law*

1. The National Grange supports the efforts of the National Association of Mutual Insurance Companies to strengthen and improve insurance guarantee funds.
2. The National Grange believes that the National Flood Insurance Program should operate on an actuarially sound basis. National Flood Insurance Programs (buildings, structures) should not be available for properties that have suffered multiple losses where steps were not taken to protect the property from further damage.
3. The National Grange urges that the National Flood Insurance Program (NFIP) and Federal Emergency Management Agency (FEMA) conduct a public awareness campaign to help property owners understand their rights when there is a flood map reclassification.
4. The National Grange urges the National Flood Insurance Program to change policy provisions to allow blanket coverage over multiple structures on a property. Additionally, we support the continuation of the 'Write Your Own' (local insurance agent) model of securing Flood Insurance.
5. The National Grange urges state and federal regulators to establish the necessary safeguards that will make it possible for the viatical industry to serve viators and investors in a responsible way.
6. The National Grange opposes any legislation that would require insurance companies to comply with "The Community Reinvestment Act," 12 U.S.C. 2901.
7. The National Grange supports legislation on a federal level that will require insurance companies to cover testing for breast cancer for all patients regardless of age.

#### *Protection for Victims and Jurors*

1. We support increased protection for those who serve on juries. All jury deliberations should remain confidential. The National Grange supports legislation to forbid public disclosure of information about criminal investigations that could be detrimental to the case of either the prosecution or the defense, until after the case's final deposition.
2. The National Grange supports legislation to assure that victims and witnesses of violent crimes must be notified in writing at least 60 days before any hearings in which the person who has been convicted of that crime seeks release or a change in release status from either a prison or a mental institution.
3. The National Grange supports legislation to protect the language interpreter with an interpreter/client privilege just as lawyers have attorney/client privileges.
4. The National Grange supports federal legislation to create a reliable, national database of DNA evidence acquired during previous investigations of sexual assault investigations to be used in the investigation of other sexual assault cases across the nation that will balance the rights of the accused to due process and the presumption of innocence with the rights to privacy of the victims of sexual assault and the assurance of swift and certain justice. The National Grange further supports federal grants to the states, to audit the quality of the inventory of prior evidence acquired from sexual assault investigations by local law enforcement agencies in order to increase the value of this evidence in the investigation of sexual assault cases across the nation.

5. The National Grange supports the establishment of a consumer oriented, national conviction registry of medical professionals who have been previously convicted of ethical or criminal activity and barred from the practice of medicine.

## **PRESENT POLICY: TRANSPORTATION**

### *Air Travel*

1. The National Grange supports the continuation of assignment of Air Marshals on random flights.
2. The National Grange opposes legislation authorizing the Federal Aviation Administration (FAA) to establish fees for air traffic control and related activities, services, facilities, and equipment that increases user fees and taxes for general aviation such as crop dusting, pipeline patrol, power line patrol, forest fire patrol, and commuting to rural communities. We also oppose legislation creating a board dominated by airline representatives that would recommend FAA user fee pricing schedules.

### *General Transportation Policy*

1. The Grange believes that a balanced transportation system, at the lowest cost consistent with adequate and efficient service, is in the best interest of farmers and consumers. We oppose efforts by state governments to toll expanses of the Interstate Highway System built and operating as toll free.
2. The National Grange urges federal and state weed control agencies to control noxious weeds on their highway rights-of-way and to work with the railroads to control noxious weeds along railroad rights-of-way but always respecting the landowners' property rights and preferences.
3. The National Grange supports inter-modal ownership of transportation carriers only when that intermodal ownership is consistent with the public interest; will not unreasonably restrain competition and will not result in segments of agriculture and rural areas being held by captive shippers.
4. The National Grange supports creating a national uniform vehicle Identification Placard system to be used by disabled drivers. Legislation should be enacted to include blindness as a provision for issuance of a disabled parking permit.
5. The National Grange strongly supports a simple public announcement procedure for special-needs citizens in intercity bus transportation systems.
6. The National Grange supports legislation that allows independent vehicle maintenance facilities or car dealership garages to have access to the technology/programming needed to repair all makes of vehicles so that consumers have a choice of where to take their vehicle for maintenance and repair.
7. The National Grange supports safety and educational programs for individuals 17 years and younger for the use of all non-roadway vehicles such as ATV's, snowmobiles, dirt bikes, sleds, etc. and also endorses the use of helmets and other protective gear.
8. The National Grange supports a standardized toll road transponder that works on all toll roads across the USA.

### *Highway Policy, Interstate System and Federal Highway Trust Fund (HTF)*

1. The National Grange strongly supports the continuation and reauthorization of the Highway Trust Fund (HTF). We support removing the HTF from the federal budget. We oppose any proposal that would change the concept of dedicating all federal motor fuel taxes to the HTF to be used for highway and highway related purposes. The National Grange supports the creation of a Federal Mass Transportation Trust Fund from user tax revenues separate from the HTF and highway user taxes. The National Grange opposes increasing the federal gasoline tax for purposes other than the HTF and reaffirms its position that all funds received from highway fuel taxes be used only for construction and maintenance of roads and bridges. The federal and state governments should not use these funds to balance their budgets or fund other programs. We oppose impounding HTF monies as a means of enforcement of federal laws.
2. We support federal legislation to remove federal fuel tax from fuel used to operate farm trucks, including legislation that would use a federal motor fuel tax increase to reduce federal budget deficits.
3. The National Grange favors full compensation for homes, farming operations and businesses when displaced by eminent domain for highway rights-of-way.
4. The National Grange calls for increased border surveillance to ensure that commercial vehicles and drivers based in Canada and Mexico are in full compliance with the United States' motor vehicle equipment standards and requirements.
5. The National Grange supports the following provisions as part of any reauthorization of the Moving Ahead for Progress in the 21st Century Act (MAP-21) from July 2012 and updated in 2015. Additional funding for core safety programs that are properly directed to lifesaving roadway safety projects.
  - a. Provisions to reduce administrative delays at federal and state agencies responsible for approving highway planning.
  - b. New financial incentives for states to obligate new congestion relief funding for projects that reduce highway bottlenecks.
  - c. Full funding by the Congress for all "guaranteed" highway funds in future Transportation Appropriations bills.
  - d. Full enforcement of additional new fuel tax fraud provisions and additional credit for the HTF for revenue enhancements related to the new tax collection on ethanol.
6. The National Grange supports streamlining environmental requirements to expedite the completion of transportation congestion-relief projects in order to reduce pollution while promoting efficient land use and road capacity in areas designated for growth. We support redirecting the federal Congestion Mitigation and Air Quality program (CMAQ) to fund new passenger and freight inter-modal hubs in highly congested areas to serve trains, trucking companies and bus companies to improve intercity Amtrak stations and/or to construct public freight transfer stations that combine bus service, rapid transit and other

transportation services, which operate on flexible schedules.

7. The National Grange recommends that the interstate highway system adopt the use of a uniform transponder system for all open-road tolling.
8. The National Grange opposes the sale of any toll roads or bridges.
9. The National Grange supports the amendment to the Federal Highway Bill that would classify milk as an indivisible load to allow milk trucks to legally haul the same weight on the interstate system as on state roads.

#### *Highway Policy – Non-Interstate*

1. The National Grange urges government agencies to conserve land for agricultural purposes when considering the location and design of highways including planting trees and shrubs along highways in places where such growth could stop soil erosion and aid in snow control.
2. The federal-aid system of highways should be continued as a federal-state partnership with more flexibility in the states' use of money for safety, construction, and maintenance of state and local highways, including rural roads and bridges that are built to the community's needs as determined by county and local road commissions. The National Grange recommends that the Highway Safety Administration require surface highway reflectors on the center lane divider of all two-way highways on the federal-aid highway system and adopt standards to ensure a better and more durable road surface.
3. The National Grange supports expansion of rural intra-city bus, air and rail services.
4. The National Grange supports funding to construct adequate parking or rest areas to allow commercial and other drivers to stop and rest. We encourage the use of "Weigh Stations" as rest locations.
5. The National Grange continues to uphold the States' rights to regulate the farmer's transporting of equipment and crops and opposes any federal legislation or regulations that would require farmers to obtain commercial drivers' licenses to operate farm equipment.
6. The National Grange supports legislation to increase federal funding to maintain and repair local bridges throughout the nation.

#### *Impaired Driving*

1. The National Grange believes the dangers of drinking and driving should be included in all federal anti-drug information and education programs.
2. The National Grange supports maintaining the minimum age for the consumption of alcoholic beverages at 21.
3. The National Grange recommends that transportation authorities, both government and privately owned, be vested with the authority to randomly test employees for illegal drug and alcohol use.

#### *Railroad Transportation*

1. The National Grange supports scheduling more commuter trains to offer better service to the public.
2. The National Grange urges all appropriate state and federal agencies to consider economic impact and public interests when undertaking transportation planning with regard to the impact of rail line abandonment. We support integration of rail and highway system planning in advance of possible abandonment to maximize economies to the public and private sectors as well as federal assistance to states for this purpose and to assist in rail takeovers by states where maintenance of service is cost effective to local or state governments and to local shippers. We support economic and social impact statements from railroads as well as meaningful local public hearings in the areas affected as a part of the abandonment process.
3. The National Grange supports the development and maintenance of a strong and effective rail network to enhance competition among and between rail carriers to ensure efficient rail service and reasonable rates.
4. The National Grange supports legislation requiring warning reflectors to be placed on both sides of all railroad cars in the United States.
5. The National Grange supports legislation that would require railroads to reveal to each landowner, before abandonment, the full and complete legal basis on which the railroad has claimed its right to occupy the corridor. If the railroad's right is less than fee simple ownership, the railroad should disclose to each landowner that its occupancy right would be extinguished upon abandonment. We believe that the right-of-way of an abandoned land grant railroad should revert to the last payer of taxes on the property, or by right of adverse possession or grant titles as well as the possible use of railroad rights-of-way, determined to be economically unfeasible, by adjacent landowners.
6. The National Grange supports efforts to create a Commuter Bill of Rights that would guarantee that rail passengers, stranded on railway trains, would have access to food, and water, as well as assure their timely removal from the disabled train.

#### *Roadway Safety*

1. The National Grange supports the enforcement of weight limits on vehicles operating on our highways.
2. The National Grange supports truck regulations requiring the use of brushes and/or flaps that will channel the water down reducing the spray.
3. The National Grange supports legislation that would require rear and side impact/under ride guards on all newly manufactured semi-trailers.
4. The National Grange requests that the Federal Highway Administration establish and promulgate standards for the minimum walk light time, type of visual images, and audible sound level for controlled crosswalks throughout the United States.

5. Railroad crossings in rural areas should have ripple strips installed in road surfaces on approaches to crossings, be clear of brush and other vision-inhibiting material and be equipped with flashing warning lights.
6. The National Grange supports requiring that all motorcycle, bicycle, and moped riders wear protective helmets, and wear high visibility clothing or have an apparatus to make them more visible to other motorists.
7. The National Grange supports requiring all motor vehicles to have a rear bumper or undercarriage guard coming within 16 inches of the ground.
8. The National Grange urges automobile manufacturers to include the following modifications on their new models: uniformly located door latches; louder and more visible interior direction signal indicators; spare tires of equal quality and size as regular tires; uniform tow points; light sensitive sensors that would automatically turn on automobile headlights at a certain degree of darkness; at least one mirror on the right side of a vehicle to reflect an undistorted view of images and a curvature type mirror to pick up blind spots; and headlights that turn on automatically with the windshield wipers.
9. The National Grange supports standardizing the cellular emergency numbers for the interstate highway systems throughout the country to \*91.
10. The National Grange supports legislation that would penalize a driver for using a cell phone when it is the cause of an accident.
11. The National Grange supports regulations that would strengthen the safety standards for smaller cars and opposes any weakening of the safety standards of sport utility vehicles.
12. The National Grange strongly supports state and national laws that require reflective tape on all existing and new trucks to help reduce under-ride accidents.
13. The National Grange supports legislation banning high intensity discharge (HID) headlights and/or driving lights and/or Xenon lights.
14. The National Grange encourages all states to use the same laws pertaining to school bus operations and traffic control around school buses. We support legislation requiring all newly manufactured school buses to be equipped with strobe lights that are highly visible in all types of weather. We further support, all school buses being required to have a sign on the back stating "Stay Back 50 Feet," and that all school buses manufactured have blind spot sensors or devices.
15. The National Grange supports present U.S. Department of Transportation requirements for random drug and alcohol testing for school bus drivers.
16. The National Grange supports legislation restricting the placement of any visual entertainment device within the driver's area of vision within a motor vehicle.
17. The National Grange supports requirements that newer vehicles be equipped with blind spot indicators visible by the driver and that after-market suppliers have blind spot indicators available for earlier models.

#### *Truck Transportation Policy*

1. The National Grange supports legislation and regulatory policies that enhance stability and competition in truck operations for cost-effective and dependable service.
2. The National Grange supports regulations requiring brake lights to be activated on commercial motor vehicles when a Jake Brake is used.
3. The National Grange supports legislation that would require reporting of positive drug tests for drivers with any commercial license to the Department of Motor Vehicles of the issuing state so long as there is a mandatory right of appeal and a second test to eliminate false positive results. The report of a positive drug test should remain in the driver's file for a period of two years.
4. The National Grange supports Department of Transportation (DOT) reclassifying light-, medium-, and heavy-duty utility vehicles separate from on-highway (cross-country) trucks. However, we recommend that logbooks not be required on light-, medium-, and heavy-duty utility vehicles.

#### *Water Transportation*

1. The National Grange supports a moratorium on user fee increases for agricultural products transported on coastal and inland waterways. All user fees on waterways should be based on the percentage of federal expenditures attributable to opening waterways to barge traffic and should be placed in an Inland Waterways Trust Fund and used only for construction and maintenance of inland waterways.
2. The National Grange supports maintaining the current United States Corps of Engineers' season for transporting grain on the Missouri River.
3. The National Grange supports the immediate upgrades to the locks on the facilitating greater barge traffic and providing an economic engine to fuel growth and prosperity.
4. The National Grange recommends the repeal of the Jones Act, which requires all freight moved between American ports being carried in American ships.
5. The National Grange supports legislation to prevent any company controlled by a foreign government from taking over management of U.S. port facilities.

## **PRESENT POLICY: FOREIGN & DOMESTIC AFFAIRS**

#### *Foreign Aid*

1. The National Grange urges the U.S. government to unconditionally extend foreign aid only in cases of natural disasters. We further support basing a greater use of agricultural products in lieu of cash transfers for humanitarian assistance; closer monitoring of International Monetary Fund (IMF) loans to encourage Third World countries to provide self-help; considering the recipient countries' present foreign debt, repayment schedule, and record before providing them with new financial assistance; and keeping in mind the needs of domestic programs when Congress considers the appropriate amount of foreign aid.
2. National Grange recommends that all countries share in the economic assistance to developing countries through the United Nations. The National Grange supports requiring any country receiving U.S. foreign aid to purchase products made or grown in the United States.
3. The National Grange favors canceling all U.S. aid and supplies to foreign countries that take, hold, or kill American citizens, refuse to recognize international law, willingly permit the production and shipment of illegal drugs into our country, or allow the takeover of U.S. embassies or any property belonging to the U.S. government.
4. The National Grange encourages agricultural research and development in and for Third World nations.

#### *International Relations and the United Nations*

1. The National Grange supports a friendly relationship with the Republic of China (Taiwan).
2. The National Grange supports a positive non-military program promoting the democratic form of government to roll back or contain dictatorial forms of government.
3. The National Grange supports actions by our government in condemning terrorist acts and supports efforts to secure the release of all hostages.
4. The National Grange supports a U.S. foreign policy that only allows American troops to be committed to foreign countries in turmoil when it is in the strategic interest of the United States and adequate safeguards are provided. We support the United States' involvement in United Nations' military operations including funding such military operations only with the approval of Congress.
5. The National Grange strongly supports extending and maintaining the protections of U.S. Constitutional law, guaranteeing individual rights, under all international law. We urge the United States government not to ratify or sign agreements or treaties that limit individual rights guaranteed under the U.S. Constitution or Bill of Rights, or that impose taxation on the citizens of the United States.
6. The National Grange continues to support the US non-participation in the International Criminal Court and prohibit the use of appropriated funds for the establishment or operation of the Court. We further urge the U.S. government to use all of its diplomatic and political influence to protect U.S. Service persons or U.S. citizens from being subject to the jurisdiction of the International Criminal Court.

#### *National Defense*

1. The National Grange supports international agreements leading toward a balanced reduction and eventual elimination of all nuclear weapons and chemical weapons. To complement this objective, we further support the development of strategic and civil defense systems.
2. The National Grange recommends that the federal government negotiate with foreign countries for compensation for the military defenses that we provide to their countries.
3. The National Grange supports a strong effective military. We urge Congress to appropriate sufficient funding, including adequate pay for all branches of the military. We support policies which will re-establish effective security and intelligence capabilities.
4. The National Grange supports the continued presence of United States Armed Forces in South Korea.
5. The National Grange supports expanding our military capabilities using unmanned aerial vehicles.
6. The National Grange favors all citizens between the ages of 18 and 26 be required to register with the Selective Service.

#### *U.S. Postal Service*

1. The National Grange supports efforts by the Postal Service to eliminate waste, hold down operating costs and increase services and reliability. We support the following postal reforms:
  - a. We urge that any future postal rate increases be no greater than the rate of inflation.
  - b. We will support stable rates or eligibility requirements for nonprofit organizations' postal rates. We support the retention of the third-class bulk mail rate for not-for-profit-organizations at a reasonable rate.
  - c. We support the reorganization of the Postal Rate Commission to include representation of the interests of mail users.
2. The National Grange supports Rural Free Mail Delivery Service as an essential part of universal mail service. We support the continuation of rural Saturday mail delivery and all other mail services to rural areas. Patrons of rural post offices must be given six months' notice before their post office is closed and must be provided with an opportunity to express their viewpoint at a public hearing.
3. The National Grange opposes any change in the current postal employee retirement programs that would adversely affect the retirement of any postal employees, limit the retirement options of current postal employees or result in a reduction of retirement benefits for current or future postal employees.
4. The National Grange encourages the Postal Service to make their patrons aware that handicapped persons may apply for mail delivery to their door.
5. The National Grange encourages Congress to allow the U.S. Postal Service to be innovative and flexible in the modern

business world and develop a competitive culture within its employees so it may return itself to financial and operational soundness and continue to fulfill its mission.

6. The National Grange urges the United States Postal Service to utilize guidelines such as the 10-mile proximity rule, in relation to the proposed post office closures, taking into consideration the special needs of the community as well as the statistical analysis developed for closure criteria.

## NATIONAL GRANGE

Founded in 1867 as the National Grange of the Order of Patrons of Husbandry, we proudly serve as America's oldest agricultural advocacy organization with deeply held nonpartisan ideals.

We are headquartered at the historic National Grange Building at 1616 H St. NW, Washington, DC 20006.

However, the heart of the Grange is located in the more than 1,600 communities in which local Grange chapters operate today. Our nearly 150,000 fraternal members initiate policy resolutions through a grassroots process and advocate for issues of importance to themselves and their neighbors. In addition, they serve as part of the social safety net and network that improves the quality of life for those living in rural America or following agricultural pursuits.

We welcome you to learn more about the Grange at [nationalgrange.org](http://nationalgrange.org) or by visiting a local Grange meeting.
